CONNECTING YOUR BUSINESS TO THE HEALTH AND SAFETY

TRAINING YOU NEED

Our team of dedicated educators will guide and facilitate you through your training experience. They are all expert in their fields and have many years of training and practical experience. You can be assured you are getting the very best in practical knowledge.

Salus offer a wide range of safety and vocational courses. All of our courses are learner centred and you are encouraged to participate in the learning experience. A selection of our courses are QQI, Solus and Lantra Accredited.

For more information on the course and the accreditation level, if you are interested

flexible solutions for your business needs

HEALTH AND SAFETY CONSULTING PROVIDES A TOTAL END TO END SOLUTION.

TRAFFIC MANAGEMENT SOLUTIONS

The aim of Traffic Management Service is to provide a safe quality Temporary Traffic Management service at a competitive price. All aspects of traffic management will be implemented in accordance with Chapter 8 (Traffic Signs manual & any future revisions) and The National Guidance Document (LASAG) The Guidance for the control and management

of traffic at road works and any future amendments or revisions. Salus Safety Training operators are trained to CSCS standard and are participants in sector 12A/B schemes (Lantra

A site survey will be carried out at ever location where temporary traffic management is needed. After the site survey a site specific Traffic Management plan will be prepared for each stage of the work and will be subject to a post design review prior to commencement of work.

- The designers of such plans will take in to account the requirements as set out in the Safety Health and Welfare at Work Act 2005, and the Construction Regulations 2013
