Bridge your GDPR plan to the CCPA

The California Consumer Privacy Act is effective Jan 2020, enforceable July 2020 and has a lookback of 12 months, i.e. it's ALREADY HERE!!

It is time to re-examine your data inventory and data flows. Even though you may have taken measures to comply with GDPR, CCPA imposes additional requirements, many around individual rights. Does it apply to you? At up to \$7,500 per incident, it pays to know ahead of time!

How 3Comply can help:

- Identify risks, exposures, gaps
- Establish policies and procedures (Notices, DSARs...) and strengthen your Privacy program
- Implement and track training programs
- Perform CCPA Assessments
- Walk hand in hand with you through the whole process

Do you conduct business with California residents?

Do your Privacy safeguards and policies adequately address CCPA?

3Comply can help!

*"Everyone (at 3Comply) is very experienced and good to work with."
- Leading Travel and Hospitality Group*
