

— COMING SOON —

Helping Others Home Care is working with the American Lung Association to become certified as a Better Breathers Club Facilitator.

We look forward to offering a local Better Breathers Club for Cazenovia residents and surrounding communities.

The club will provide education, encouragement, and emotional connection for people living with chronic lung diseases—including COPD, pulmonary fibrosis/IPF, asthma, lung cancer, and other chronic lung conditions—as well as their family members and support persons.

Our goal is to help members improve their quality of life, build confidence in managing their condition, and connect with others who understand.
