Stronger People. Brighter Days. A More Connected Community.

KARI DUERR

Registered Nurse

**Professional Network Collaboration
Independent Nursing Support**

Meet Kari Duerr, RN

I am a Registered Nurse with 24 years of experience and a Bachelor of Science in Nursing (BSN) from SUNY Plattsburgh.

My career began in medical-surgical and oncology nursing at Crouse, followed by five years in family practice and 13 years in home care. I currently work as a transplant case manager for a large global insurance company.

I also bring a strong background in triage nursing for multiple agencies across a wide range of medical specialties.

My passion is helping patients stay supported and educated so they can remain at home whenever possible. A love of teaching is at the heart of everything I do as an RN.

Thank you for the opportunity to support your health journey, surrounded by those you love in the comfort of your own home.

Kari provides her services independently, with arrangements made directly between her and the family.
