A Program of Village Easing Childhood Poverty

## Invest in the Journey

At In the Field, we believe the transition from age 16 to 21 is the most pivotal season of a young person's life. For many, it is a time of immense potential—but without a safety net, it can also be a time of profound isolation. Our mission is to bridge that gap by providing a "village" of trauma-informed mentorship, professional certification, and human-centered community. When you invest in In the Field, you aren't just funding a program; you are anchoring a young person's future, providing them the technical agency and emotional support needed to move from surviving to thriving.

### Partnership Teirs

**The Catalyst**  
\$5,000

**Certification Mastery:**  
Full sponsorship of 10 youth through the Google Career Certificate program via Coursera.

**Tech Infrastructure:**  
Funding for high-speed hardware and software licenses for our dedicated Tech Track lab.

**The Anchor**  
\$2,500

**Safe Space Operations:**  
Sustains one full month of the **Youth Lounge**, including staffing and trauma-informed social-emotional programming.

**Workshops:** Funds a series of interest-based workshops led by industry professionals (e.g., Financial Literacy or Creative Arts).

**The Partner**  
\$1,000

**Seasonal Camps:** Full scholarship for 5 youth to attend an immersive In the Field Camp focused on healing and community bonding.

**Career Readiness:** Covers the cost of professional resume design services and interview attire for youth entering the workforce.

**The Ally**  
\$500

**Academic & Life Navigation:**  
Covers college/vocational fees and essential life-skills training.

**Mentorship & Connection:**  
Funds 1-on-1 outings and events that build long-term, healthy relationships.
