Please note that our bespoke material collection is subject to variations in colour, pattern and texture and whilst every effort has been made to represent materials as accurately as possible, the images in this brochure are indicative only.

# BRING YOUR DREAMS TO LIFE WITH THE WORKSURFACES --- COLLECTION

Whatever style of kitchen you choose, your worksurfaces have a huge influence on the overall look and feel of your finished design.

Worksurfaces frame the kitchen furniture and can be used to complement or contrast your cabinets, appliances and flooring. As well as adding that all-important wow factor, they should also be hardwearing and practical, so it's important to choose a material that offers extra benefits, such as being heat or scratch resistant.

From quartz to solid surface, you can be as contemporary or classic as you like. We have everything from cool whites to the deepest darkest blacks, as well as the industrial look of concrete and the swirling veins of marble effect.

To bring the warmth of wood into your kitchen, we also have a wide selection of timber tops with a variety of knots, grains and layouts including an on-trend herringbone construction.

Packed with a material mix of textures, patterns and prints, this brochure is full of inspiration and ideas, so take a look at our carefully curated collections that showcase the very best materials from around the world.

Available from a trusted network of independent retailers throughout the UK, our comprehensive collection of bespoke worksurfaces can be perfectly complemented with any style of kitchen.

THE

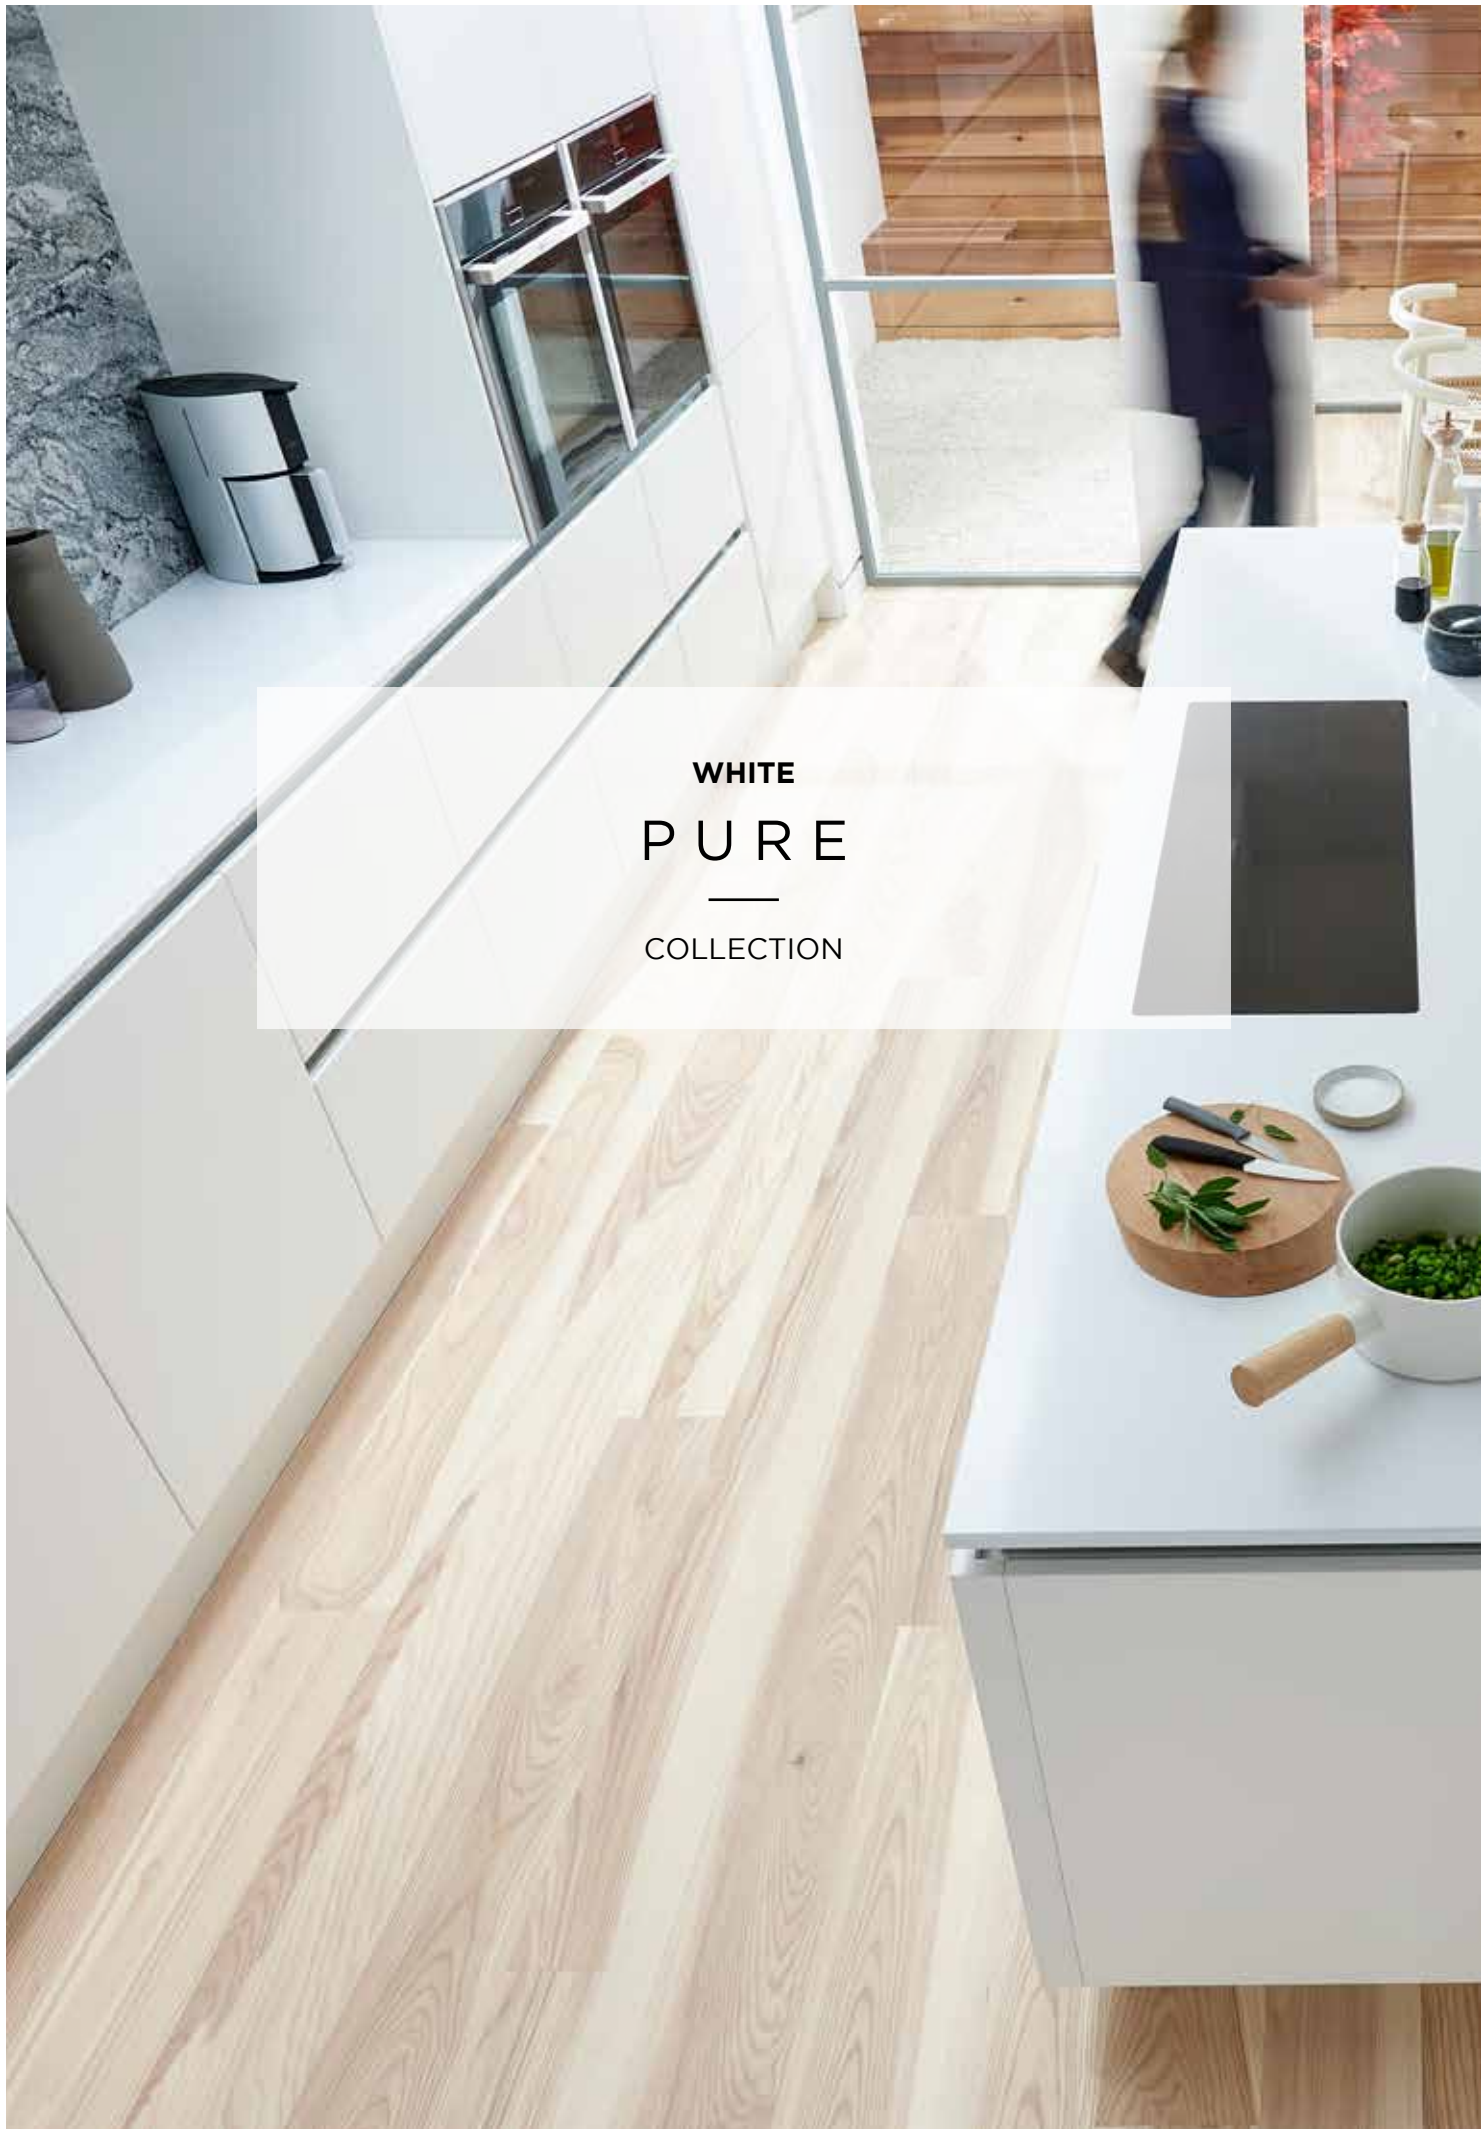

WORKSURFACES

COLLECTION

# WHITE

From the crisp, clean look of Alpine White to the marble veining of Classic Calacatta, this collection is pure and simple; without pigment and without fuss. A classic neutral, the palette evokes images of the stark white of a Greek hilltop village, the creaminess of a pint of milk, or the crunch of fresh snow. A timeless option for any kitchen design - be it classic or contemporary - a white worksurface can create a cool, calming environment.

## WHITE PURE

### SMOOTH AND SEAMLESS

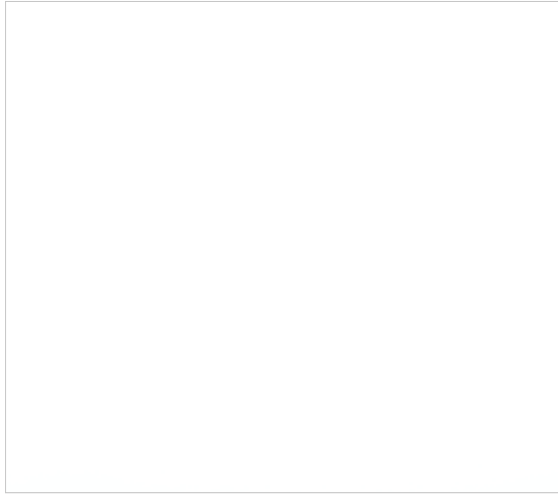

Pure and simple, smooth and sleek, the appeal of the White Pure collection is tactile and luxurious. A simple white surface blends effortlessly into almost any kitchen - whether it be within a minimal white or a monochrome setting, to contrast blocks of striking colour or pattern. A perfect choice to help reflect light and enhance your space, a pure white surface is stunning, whether used on its own, or mixed with other materials.

URBAN CHIC

Grey is a tasteful tone in any space. This collection is elevated by the addition of veining details, dappled effect and crystallisation. Our veined range has a timeless appeal and is contrasted by our crystallised collection's three dimensional reflective material. The neutral stones range from concrete effects with their raw, urban appeal to the more solid looking slate style in blocks of bold colour.

# BLACK

Crisp and contrasting, our Black collection is sleek, dramatic and daring. Be bold, be mysterious and add impact to your kitchen colour scheme with this rich palette of the deepest, darkest shades. Mix it up by adding in different materials and finishes to create different looks. Powerful and sophisticated, this range can be contrasted with high gloss furniture and colourful cabinets, bringing exquisite style to any space; the interiors equivalent to the little black dress or a classic black tie.

**BLACK PURE, DAPPLED, ABSTRACT & CRYSTALLISED**  
**BOLD SOPHISTICATION**

For a work surface with instant impact the minute you enter the room, a textural black palette brings a bold look into any space. Elegant and timeless, the powerful, intense shades of these deepest darkest blacks are highlighted with specks of crystal or marble vein effects. Use as a feature area on an island unit or peninsular, contrast with neutral coloured furniture and flooring or complement with the latest matt black appliances, sinks and taps.

# TIMBER

Bring the natural, organic beauty of a wooden work surface into your kitchen. Ideally suited to any style – contemporary, classic or country – a timber surface adds warmth, calm and character to a room. Perfect for complementing a neutral interior, as well as providing impact in a modern design, its ingrained imperfections enhance the uniqueness and individuality of this natural material. Go for a rich, dark wood for depth, or keep it light and airy with a blonde timber finish.

TIMBER  
—  
COLLECTION

## **TIMBER** NATURAL WOODGRAIN

Our wooden worksurfaces make fantastic features within any kitchen design, adding texture and depth with natural graining, knots and linear, or on-trend herringbone construction. The variety of timber tones and styles available creates the perfect opportunity for mixing materials and it also works wonderfully as a statement piece, such as a practical butcher's block at the end of an island unit. The result is truly organic, natural and inherently beautiful.

## YOUR WORKSURFACE

## INGREDIENTS

Your worksurface will instantly become the most-used element of your new kitchen design, so selecting the right material, finish and thickness for your needs is essential.

Once you've chosen the colour and pattern, consider the characteristics and technological benefits to ensure you pick the perfect solution. Finishing touches add personality and character to the room, so take time to complement your worksurface with the optimum sink, drainer and edge profile to really enhance your kitchen design.

## MATERIAL CHARACTERISTICS

### **Q** QUARTZ

Our bespoke quartz worktops are made from a mixture of colour pigments, resin and pure natural quartz. This material has been specially developed for a kitchen application. Quartz is more consistent than granite, and is durable, stable and resistant to chemicals.

### **G** GRANITE

Rock, cut from its natural state, Granite is a very strong material which is naturally durable. Every surface pattern is unique.

### **T** TIMBER

Every timber surface is unique with multiple possibilities for design and composition. It is tactile, and brings a natural beauty and warmth to any kitchen.

### **UC** ULTRA COMPACT

A clean surface that is nice to touch and resistant to all the daily grind that takes place in a kitchen. It is an ultra-sophisticated material for busy everyday life. Characteristics include; uniform finish, unique palette, tolerance to high temperatures and scratch & stain resistant.

### **SS** SOLID SURFACE

Perfect for that continuous look, flexible enough to create organic worktop shapes, with totally integrated sink options as a seamless part of your worksurface. Available in a wide selection of colour and pattern.

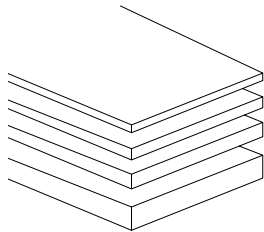

# THE FINER DETAILS

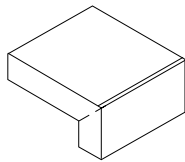

The detail you choose can add impact to your chosen surfaces.

## SERVICE INFORMATION

### TEMPLATING SERVICE

To ensure precise and accurate cutting of worksurface materials, we will visit your home to provide a digital templating service. In preparation for the templating service we ask you to follow guidance from your retailer.

### BESPOKE MANUFACTURING

With a consistent first class finish, and the capability to work with a selection of materials, we have the manufacturing facility to bring your design to life.

### EXPERT INSTALLERS

Our experienced team of installers will deliver and fit your worksurface. Our team will also advise you on how to clean and care for your chosen worksurface.

### AFTERCARE AND MAINTENANCE

You'll be reassured to know that from the date the installation is complete and signed off, we automatically guarantee the registered owner of the installed worksurface against manufacturing defects for a period of up to 10 years.

## MATERIAL FINISH

### LEATHER FINISH

A matt textured surface which replicates the finish of natural leather. The surface may vary depending on the material it is applied to.

### SUEDE FINISH

A matte textured finish with a unique soft touch that offers a high-quality consistent colour.

### RAW FINISH

A natural organic finish which has a slight rough textured surface. It works well to replicate natural stone and industrial surfaces such as concrete.

### VOLCANO FINISH

Like volcanic lava this soft rustic texture creates a smooth undulating surface.

### SMOOTH/SILK FINISH

An engineered surface available in Ultra Compact and Solid Surface materials, offering the perfect balance between a matt and a highly polished finished.

### CARESS FINISH

Unlike the smooth level surface of polished, the natural high and low points of this material are accentuated with a final polish on the high points.

### POLISHED FINISH

A classic finish which intensifies the colour, clarity and shine of the surface.

### TEXTURED FINISH

An etched patterned surface adding dimension and visual impact, specifically to solid colours.

## MATERIAL TECHNOLOGY

### N-BOOST TECHNOLOGY

The latest technology that improves the DNA of worksurfaces, making it easier than ever to maintain and clean. Outstanding resistance to stains, extraordinary shine and colours are intense and long lasting.

### HEAT PROOF TO 300°

Withstands high temperatures without burning, scorching or cracking. Hot pans and appliances can be placed directly on the surface without the worry of any damage occurring to the worksurface.

### OUTDOOR USE

Suitable for multiple applications, including outdoor areas, due to its high resistance to UV light and durability.

### FINGER STAVE CONSTRUCTION

Created from relatively short thin staves of wood which are bonded together by glue. Joints are visible.

### FULL STAVE CONSTRUCTION

Full Stave materials run the full length of the worksurface, meaning that there are no visible joints.

### BLOCK STAVE CONSTRUCTION

Created from short thin staves of wood which are bonded together by glue. Joints are visible in a V-shaped constructions.

### END GRAIN

An end grain material constructed for impact. Designed for chopping boards and butcher block applications. End grain designs can vary.
