

## Cleaning Instructions

This wall system is made from **PVC** and it is easily maintained by following the simple instructions below.

1. Wipe down with a soft cloth using hot water and a sanitizer.
2. Soap can be used but as it may leave a 'film' on the wall it should be washed off immediately using a soft cloth, hot water and a sanitizer.

**DO NOT** use any form of abrasive cleaner even those that say, 'do not scratch'.
