

BPW / Alabama

MEMBERSHIP APPLICATION

The National Federation of Business and Professional Women's Clubs was founded on July 15, 1919 in St. Louis Missouri with Alabama sending women to the first convention. The Organization has focused on legislative issues, projects, and networking to support working women. The organization is found in all fifty states. The Alabama Federation has been active for ninety years and has an active partnership with the Alabama Foundation.

One of the most valuable benefits of membership is the opportunity to meet and network with other working women from the area. This is done at local club meetings, at district meetings and at state meetings. Whether you're looking to exchange ideas, build business leads, find peers in your field or just be involved BPW has something for you.

Legislative Issues

- Pay Equity for working women
- Healthcare
- Protection against sexual harassment
- Civic Rights of women
- Equal retirement benefits

Projects
