Hoosick Falls Central School

A Message from the Principal:

As I reflect on the past year, I am grateful for the amazing relationship that exists between our faculty, staff, students and community. Our faculty and staff are kind, caring and truly believe that every one of our students can and will succeed. We have built a tradition of excellence at Hoosick Falls that we work towards each day and strive to continue into the future. We take pride in every student achieving success as well as finding the best in themselves and in others.

By focusing on both academic success and social and emotional development, we have worked to forge an environment where you, our students, can flourish. You have accomplished amazing things this year by working together, such as helping to rehabilitate the Hoosick Falls Youth Center, raising over one thousand dollars for the Isabel McGuire Scholarship, and building new dugouts for the Charlie Weeden Softball Fields to name but a few. Now your time at Hoosick Falls Central School is nearing the end and you will move on to new adventures.

I am proud to be a part of the tradition that has been built at Hoosick Falls and am proud to be your Principal. In the coming months, some of you are moving on to college, some to the military, some a trade school, and some directly into the work force. The goal is for each of you to follow your dreams and work towards doing something you love. I am grateful to have had the opportunity to work with each of you and look forward to what you will accomplish in the future.

Jr./Sr. High School Principal

"Before teaching at Hoosick Falls, the only times in my life I ever saw a cow were road trips to Vermont. At my teacher orientation, Mr. Potter—the principal at the time—took me to the window at the far end of the high school hallway and showed me a group of cows just hanging out. A few days later, one of my students had to leave class because his cow was on the playground. I thought, "where am I?" I grew up in the suburbs of upstate New York in a big family. I was the youngest of six boys, and we did everything loudly- played, argued, fought, celebrated. I went to college at Fairfield University in Connecticut where I studied communication before moving to Boston where I suffered existential crises at my desk at a large financial company as I questioned my profession and my contribution to the world. So I moved back to the Capital District, studied Education at SUNY Albany, and found myself a world away from anything I'd ever known when I accepted the teaching position at Hoosick Falls. I went into education because I wanted to change the world, but ten years of Hoosick Falls irrevocably changed me. I couldn't believe communities as honest, as close, as caring, and as resilient as Hoosick Falls existed anymore. The town, the community, the school, the students influenced me more than any other experience in my life, and I will be forever grateful for (what seemed like) such a short time I was invited to be part of it."

NHS Teacher of the Year Ms. Graziane HS Spanish

She attended the State University College at Cortland to receive a Bachelor of Arts in Elementary Education and Spanish, and a Master of Science in Second Language Education. She has been teaching at Hoosick Falls High School for twelve years.

Ms. Graziane's hobbies include attending spin classes, hiking, kayaking, watching sports, volunteering for animal rights organizations and continuing to expand her knowledge of languages and cultures.

In Memory of Charlie Weeden

"Weeden, the transportation supervisor for the Hoosick Falls Central School District for many years, coached the softball program for 19 seasons, compiling a 254-182 record and reaching the state championship game in back-to-back seasons in 2009 and 2010." He also was a part of the girls basketball team staff and the football coaching staff and the success of those programs over the past few years as well."
