HOOSAC SCHOOL

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion.

There are a number of reasons why the number of children in the world is increasing. One of the main reasons is that the number of children who are surviving to the age of 15 is increasing. This is due to a number of factors, including improved medical care, better nutrition, and a decrease in child mortality.

Another reason why the number of children in the world is increasing is that the number of children who are being born is increasing. This is due to a number of factors, including a decrease in the age at which women are having children, and an increase in the number of children who are being born to women who are already having children.

There are a number of other factors that are contributing to the increase in the number of children in the world. These include a decrease in the number of children who are being adopted, and an increase in the number of children who are being born to women who are already having children.

The increase in the number of children in the world is a cause for concern. This is because it is leading to a number of problems, including a shortage of resources, a lack of education, and a high level of poverty.

There are a number of things that can be done to help reduce the number of children in the world. These include providing better medical care, improving nutrition, and increasing the number of children who are being adopted.

It is important that we take action now to help reduce the number of children in the world. This is because the number of children in the world is expected to continue to increase in the years ahead.

In order to concretely acknowledge the school's deep appreciation for the endless time and energy you expend each year directing the Boar's Head and Yule Log, the staff of the 1991 OWL would like to dedicate this year's book to you.

Your dedication to the production for the past four years has been infectious. You have made us all work harder to put on a better show each year. You've made us understand the spirit of the Yule Log. Thank you for that.

All the best to you, Hooter and Loo.

Headmaster's Greeting

To the members of the Class of 1991:

My sincere congratulations to all thirty-three of you! I wish you happiness and success in the years ahead. You are ready to take the next step in your formal education. I hope that all the support each of you has received from everyone here at Hoosac will enable you to forge ahead with a cutting edge. You have lived with the Hoosac Spirit and now it is a part of you.

Don't be satisfied with mediocrity. Strive for excellence in all that you do. You are ready to soar.

I wish you all the best. Please write to us and let us know what you are doing. And do come back to visit from time to time. God bless you all.
