THE LEADING INDUSTRY OF HOOSICK FALLS

Walter A. Wood machines have carried the name of Hoosick Falls to the most distant parts of the world. They are responsible for its title "The Mower and Reaper City"

Every grass and grain growing country calls upon the Wood Company for a large part of its annual requirements in harvesting machines. The demand steadily increases.

The growth of Hoosick Falls has kept pace with that of the Wood Company.

REASONS WHY YOU
SHOULD READ

Kensselaer County Standard

Hoosick Falls' Leading Weekly.

1. It is essentially a home paper. In its columns all local matters are openly and freely discussed.
2. It is a consistent supporter of all efforts being made to secure good and clean government for our town and village.
3. For the benefit of farmers space is given each week for items of interest connected with Agriculture.
4. It has a large corps of vicinity correspondents and news from the surrounding towns and villages is presented as fully as possible.

Subscription—\$1.00 per year in advance.

Printing==Engraving

A COMPETENT printer will have charge of the work you leave with us. He will take your ideas—if you have any—about the stock, and the inks, and all the details, and incorporate them with his skill in the craft; and the result will please you and be a credit to us. No piece of printing is too small to merit and receive thoughtful, careful treatment in our office; an envelope corner is given as much consideration, in proportion, as a big catalog—nothing is slighted.

Fine Half-tone Printing a Specialty.

Class "A" Return
Trap

Albany Steam Traps

Class "D" High
Pressure
Non-Return Trap

Four styles are made by this company, for all duties. Class "A" is a return trap for returning the condensation in heating systems to a boiler without the use of a pump or any other mechanical device, and it used to return the water to a boiler under pressure from a steam system, it will do all that can be done by the so-called Steam Loop at far less expense. Classes "B" and "D" are non-return Traps designed for very high pressures and have been used with great success in many steam plants. Class "C" is a non-return Trap for pressures under 100 pounds.

These Traps are the result of over THIRTY YEARS' practical experience directly in this line.

All joints are scraped and fitted metal to metal, no elastic packing of any kind being used in their construction. We will gladly send them to any responsible person on thirty days trial.

We also manufacture High Grade Steam Valves, and carry in stock both simple and duplex steam pumps. Send for special circulars.
