DESCRIPTIVE

HOOSCICK FALLS AND TOWN OF HOOSCICK DIRECTORY

HOOSCICK FALLS

Located in the extreme eastern part of central New York State bordering on Vermont and only ten miles from northeastern corner of State of Massachusetts. It is most beautifully situated with rolling land typical of this section of the Hudson River Valley.

The Hoosick River runs through the center of the village and furnishes power to run its factories. There are industries making agricultural implements, paper machinery, knit goods, paper, clothing, furnaces and heaters, insulations, castings, metal stampings, paper boxes, radio parts, underwear, sleighs, shirts and collars, wall paper, etc.

The Boston & Maine Railroad furnishes transportation east and west connecting with all the leading lines of the east. As this railroad handles more freight than any two track railroad in the United States this is considered an asset to a town located as is Hoosick Falls. The Rutland Railroad has stations at Hoosick Junction, North Hoosick and Walloomsac. The Delaware and Hudson Co. has stations at Eagle Bridge. Bennington & Hoosick Falls Street Railway with tracks to Bennington and North Bennington, Vermont connecting with North Adams and Pittsfield, Mass. street railway systems.

Hoosick Falls is the principle population center in the township of Hoosick. It draws trade from a large radius. Dairying and agriculture are thriving industries and contribute much to the prosperity of Hoosick Falls.

Hoosick Falls is well paved, has good water supply, main highways leading in all directions are concrete and macadam. It lies well for development and offers opportunities to manufacturers to locate. Has good stores, well managed financial institutions, good schools, etc.

Before re-locating your factory elsewhere, investigate
