THE CHANGING TIMES

ECHO '80

**St. Mary's Academy

Principal's Letter To The Graduates

Dear Graduates,

We have spoken to you about change, and about how it is essential for you to be able to have some control over the influences that are going to transform you from what you are into what you are going to be.

We would like speak to you now about the importance of your remaining the same. If you feel that there are qualities of real value in your character, if you can see an appreciable worth in the ideals you have acquired up to the present time, if there appears to you considerable merit in the goals you have set for yourself in the future, then you are well on your way to becoming a mature and responsible human being. Keep those qualities in your character intact, make sure you retain your ideals, and never give up striving for the goals you have set for yourself as long as they remain worthwhile.

There are certain qualities that are found in every good person, qualities which lend a spirituality to our human nature, qualities which you should cherish as priceless gifts, qualities which you should protect against the slow erosion of change.

First and foremost of these is the awareness of God, the ever-present consciousness that you have been created by God, that you are preserved in existence by God, and that it is your intention and His that you will eventually be united to Him in perfect happiness for all eternity. This is why you were made. This is an unchanging goal. If you miss this, all else is empty froth.

The good person has a well-developed ability to distinguish right from wrong, good from evil, and the disposition to follow out the suggestions of this well-formed conscience. If you have a conviction that your sense of morality is a proper one, make sure that you do not allow it to be dulled by peer group pressure to a point where you are doing evil when you should be doing good.

Even the good person, blessed with the disposition to do good, sometimes finds within himself, as Saint Paul did, the inclination to do evil. So you must occasionally look for help outside yourself. The greatest source of help, even greater than your friends, even greater than your parents, is the God, of whom, we have already said, you must always be aware. When you ask for his help, you are praying. Do not, for any reason, allow prayer to disappear from your lives.

And finally, since you realize that change must come, and that somehow you must be able to control it, make sure that you have an active part in the changes that do occur. You should be a positive influence, an external grace, a spiritual helpmate for all of those whom you call friends. You should make every effort to help them to retain the qualities that you have found in them, that have made them good. Sometimes by just keeping them the good people that they are, you have changed their lives for the better, and this is what we really mean by Christian witness.

May God bless you through life, may he allow those changes to occur in you that will be for your everlasting benefit, and may he give you the grace to retain all the virtues that make you holy and pleasing in His sight today.

Sincerely in Christ Jesus.

Father Gallagher

The Class of 1980 would like to dedicate this page in respect to the future of the American western landscape. Their cause is one that is the cause of every American. Their future is a part of every American's future.

The times have changed and we have changed with time. Together we shared the past and together we live the present. Will we influence the future, together?

The future — how long do we wait and will the wait be worth it? Some of us are apprehensive and many are fearful. Our future lives depend on what we do now.

Will we succeed in all of our endeavors? We all hope for the best for each other, but is hope enough?

The future is where our dreams and our goals lie. The future is gaining upon us. Are we ready? Is it ready for us?

OUR ALMA MATER

When the twilight shadows gather
Out upon the campus green
When the gold and purple dusk comes
Stealing on the scene,
Loyal sons of dear St. Mary's
Sing a hymn of praise
To our dear old Alma Mater
And our high school days.

When the last big game is over
And the last roll call is heard,
As the end of life draws near us
All with joyous words.
We shall come to Alma Mater
In our dreams again
With a prayer for dear Saint Mary's
And a sweet "Amen."

"The wave of the future is coming and there is no fighting it."
Anne Morrow Lindbergh

I hope the future holds for me the companionship of good friends, love, and happiness for eternity.

I have but one lamp by which my feet are guided, and that is the lamp of experience. I know no way of judging of the future but by the past.

If you love something, let it go free. If it comes back, it's yours; if it doesn't, it never was.

"Oh, there's such a lot of things to do and such a lot to be."
(A.S. Milne)

Days seem so long
But when they're part of the past
They seem to have gone by so fast
But when we think of the future days
They seem so far away.

"Be yourself. Who else is better qualified?"
(Frank J. Giblin II)

"The secret of life is enjoying the passing of time . . ."
(James Taylor)

To accomplish great things . . .
We must not only act but also dream.
We must not only plan but also believe.

The future and I will change the present just as the present has
changed me and my dreams.

The woods are lovely, dark and deep,
But I have promise to keep
and miles to go before I sleep,
and miles to go before I sleep.
(Robert Frost)

You cannot judge future happenings by past experiences.

"In the past, we have had a light which flickered, in the present we have a light which flames and in the future there will be a light which shines over all the land."

(Winston Churchill)

When time who steals our years away
Shall steal our pleasures too,
The mem'ry of the past will stay
And half our joys renew.

(Thomas Moore)

Keep in mind . . . Fame is a shadow, money takes up wings and disperses: your self image is all that endures.

Everything evolves around changing. Sometimes in order to get better things out of life, we must change the things around us and change ourselves.

"Take your time . . . don't live too fast.
Troubles will come and they will pass.
Go find a woman and you'll find love.
And don't forget, son
There is someone up above."

The future looks bright. It gives us promises for tomorrow, and
it takes away the pain of yesterday.

"Here I go, Swingin' Lo, across that County Line. The noose
that was around my neck is far behind . . ."

(Pousette-Dart Band)

Time bears away all things, even our minds.

I stole a ride on a passing star, not knowing where I was going, how near or how far. Through years of light, lands of future and past, until the heavenly gates were sighted at last.

Time is the circle of life ...

Time is the creation of man.
Therefore, time will end with
the extinction of man.

After all, it's what we've done that makes us what we are.

The future is something which everyone reaches at the rate of sixty minutes an hour, whatever he does, whoever he is.

We've got a long way to go and a short time to get there; we're gonna do what they said can't be done.

"We should all be concerned about the future because we will have to spend the rest of our lives there."
(Charles Franklin Kettering)

"Don't look back. Something may be gaining on you."
(Leroy "Satchell" Paige)

The pictures I see, they
all tell a story.
Sout where we been
and where we're goin.

"The secret of life is
enjoying the passage of time.
Any fool can do it—
There ain't nothing to it."
(James Taylor)

"All of my life I've been dreaming
Till you came my way
All of your life aren't you searchin'
For love forever
All I need is someone to believe in me."
(Peter Frampton)

Keep an eye on the future.
Live the present
Let the past be a part of what we are.

The fears of the present moment are the stepping stones to the future.
