AN IDENTIFICATION KEY  
TO THE PRINCIPAL VARIATIONS OF  
THE LUGER PISTOL

(28 Figures)

*1st Edition*

© 1964. M.B. Mittleman. P.O. Box 266, Saugatuck Sta., Westport, Conn.

## INTRODUCTION

Gun-collecting as a serious hobby or avocation seems to be reaching semi-epidemic proportions. Colts, Remingtons, S&W's, Winchester, Mausers and so on all have their ardent partisans, but Luger collectors appear to constitute the fastest-growing branch of the fraternity.

In addition to the spontaneous appeal evoked by its superb handling and pointing qualities, the Luger's increasing and continuing popularity among collectors is assured. There are several reasons for this. In the first place the Luger enthusiast can frequently find a "collector's item" at "shooter" prices. Secondly, although many Luger variations are extremely scarce or genuinely rare, the new collector can still reasonably undertake to acquire a fairly representative assembly of the basic types. Finally, the Luger is intrinsically interesting because the definitive last word on its many variations has yet to be said, nor will it be for many years to come. Although the basic models are well known, the variations seem almost to be without limit. To the serious arms student and the avid collector the variations in themselves constitute an intriguing and stimulating challenge.

But while the many versions of the Luger contribute much to the collecting interest surrounding the gun, they can also be confusing and even intimidating to all but the most experienced. Fortunately, enlightenment and expert guidance are at hand in Fred Datig's carefully documented "The Luger Pistol," and Harry Jones' extensively illustrated and detailed "Luger Variations." These are the Luger collector's bibles, and both overflow with historical and descriptive information. If you collect Lugers, or are about to, both of these books are absolutely indispensable.

Why then this Identification Key? Simply to expedite a quick preliminary diagnosis or answer to "what is it?" The collector soon learns to distinguish between the various basic models, but the problem of identification is often complicated by the fact that a given model may have been produced in as many as twenty major and minor versions. Identification of a gun with one of the recognized Luger models or variations through the use of the Datig or Jones books often takes considerable time, precisely because both are so detailed and complete.

On the other hand, with this Key at least a tentative identification as to one of the 103 major or minor Luger variations should

require only about five minutes, often less. Nomenclature of the basic models and derived variations follows that suggested by Datig and Jones, with minor exceptions. After each identification a notation appears in parentheses, for example (J102), indicating the page in Jones' book where the gun is illustrated and described in detail, thus facilitating the final positive identification, or indicating points of variation.

### TO USE THE KEY

To identify a Luger with the aid of this Key, the user makes a choice between one of two mutually-exclusive statements describing some feature of the gun. One will conform to the gun at hand, while the other will not. Acceptance of the correct statement directs the user to the next pair of descriptive statements, where the process is repeated until, by elimination, the final feature of the gun is confirmed and the identification is given.

EXAMPLE: The gun is a 9mm. Luger; it has a 4-inch barrel, undated and otherwise unmarked chamber, front toggle with the Mauser banner trademark, a stock lug, no grip safety. What is it?

We examine the first two descriptive choices. Choice 1a refers to guns with unmarked front toggles, and so it is immediately rejected because our gun carries the Mauser banner trademark. Choice 1b says "Front toggle marked with manufacturer's trademark; chamber unmarked or marked; cal. 7.65 or 9 mm., or .45 ACP; barrel length 3-5/8 -- 20 inches; with or without stock lug and/or grip safety." These features cover those of the gun at hand so we accept this choice, which then directs us to proceed to 2.

Choice 2a describes guns bearing Mauser, Erfurt, or DWM markings, while choice 2b refers to guns marked otherwise. Choice 2a fits, and we follow directions to proceed to 3. Here the choice is between 3a, describing guns with the Mauser banner marking, or 3b which refers to guns carrying the Erfurt or DWM marks. Since the gun has the Mauser banner we follow 3a instructions to proceed to choice 4.

Choice 4a specifies guns having a grip safety but no stock lug, while 4b describes those lacking a grip safety but possessing the stock lug. The latter choice, 4b, is the one that fits our gun, so we follow instructions again and proceed to 6.

And here we hit pay dirt, since guns with unmarked chambers (6a) such as ours are distinguished from those which bear chamber markings (6b), and the gun is identified as a 1934 Mauser Commercial (J196), with a photograph of it to be found on page 196 of Jones' "Luger Variations."

It should be noted that a few identifications are followed by an asterisk in parentheses, (\*). These are variations not illustrated or described in Jones or Datig.

Note also that various .22 caliber versions and conversions of the Luger (for example, see J265, J267, J268, J270, J271, J272), and experimental models such as the machine pistol shown by Jones (p. 140) are not included in this Key, since they are not in any sense factory-standard. Omitted too are fervently-to-be-desired but thus far unauthenticated Lugers such as the 1914 Spandau, Venezuelan, Circle-HK 1934 Krieghoff, various 1900 and 1900/06 test models (see Datig, p. 200), Ethiopian, Finnish, Rumanian, "Baby" .32 ACP, etc., etc. These, and others may well exist, but as of the time of this writing they simply have not been verified.

Almost certainly the rapidly-growing interest in Lugers will result in the disclosure of variations not included here, or described by Jones and by Datig. On behalf of the collecting brotherhood at large, and for the sake of more complete and hence more useful future editions of this Key, the author would consider it a favor if he were supplied with a description and/or photograph(s) of any such "new" Luger.

## An Identification Key to the Principal Variations

of the

### Luger Pistol

- 1a. Front toggle unmarked (without manufacturer's or finisher's name, trademark, location, or code), or only with a serial number; chamber undated and otherwise unmarked; cal. 7.65 or 9mm.; barrel length 3-5/8 — 20 inches; stock lug; no grip safety.  

1920 COMMERCIAL, UNMARKED (J150)
- 1b. Front toggle marked with manufacturer's or finisher's name and/or trademark, location, code letter(s) or code number; chamber unmarked or marked (with a crest, coat of arms, letter, or two- or four-digit date); cal. 7.65 or 9mm., or .45 ACP; barrel length 3-5/8 — 20 inches; with or without a stock lug and/or grip safety. 2.
- 2a. Front toggle marked with Mauser banner (fig. 1), or ERFURT (fig. 2), or scroll-script DWM (fig. 3). 3.
- 2b. Front toggle marked otherwise. 85.
- 3a. Front toggle marked with Mauser banner. 4.
- 3b. Front toggle marked with ERFURT or DWM. 12.
- 4a. With grip safety, but without a stock lug. 5.
- 4b. Without a grip safety, but with a stock lug. 6.
- 5a. Chamber dated (1939); barrel 4-3/4 inch; cal. 7.65mm.; safety unmarked; extractor marked "GELADEN."  

GRIP SAFETY MAUSER BANNER (J212)
- 5b. Chamber not dated but marked with intertwined "GNR" (fig. 4); barrel length and caliber as for 5a; safety marked "SEGURANCA," extractor marked "CARRE-GADA."
- PORTUGUESE GRIP SAFETY  
MAUSER BANNER (J304)
- 6a. Chamber unmarked.  

1934 MAUSER BANNER  
COMMERCIAL (J196)

- 6b. Chamber with a two- or four-digit date, or marked "FRIESE." 7.
- 7a. Chamber and left side of frame marked "FRIESE."  
1934 MAUSER BANNER FRIESE (J214)
- 7b. Chamber and left side of frame not so marked. 8.
- 8a. Chamber with two-digit date ("42"); left side of frame marked "P.08."  
1934 MAUSER BANNER,  
TWO-DIGIT DATE (J200)
- 8b. Chamber with four-digit date (1936-1942); frame without "P.08." 9.
- 9a. Chamber dated 1940; safety with "RUST" and downward-pointing arrow.  
1934 MAUSER BANNER DUTCH (J206)
- 9b. Chamber dated 1936 through 1942; safety with "GESICHERT," without arrow. 10.
- 10a. Chamber dated 1937; front sight rectangular; rear sight with square-cut slot; cal. 7.65mm.  
1934 MAUSER BANNER LATVIAN (J210)
- 10b. Chamber dated 1936 through 1942; front sight rounded; rear sight with a v-cut slot; cal. 9mm. 11.
- 11a. Mauser proofs (figs. 5, 6) on receiver and barrel.  
1934 MAUSER BANNER MILITARY (J198)
- 11b. Swiss proof (fig.7) on underside of barrel (may also appear on receiver with Mauser proofs).  
1934 MAUSER BANNER,  
SWISS PROOF (J216)
- 12a. Front toggle marked "ERFURT." 13.
- 12b. Front toggle marked "DWM." 21.
- 13a. No stock lug; chamber with a single date (1910-1913); cal. 9mm.  
1908 ERFURT MILITARY (J128)
- 13b. With a stock lug; chamber dated (1910-1921) or undated, or with two dates; cal. 7.65 or 9mm. 14.
- 14a. Chamber undated. 15.
- 14b. Chamber dated. 16.

- 15a. Barrel length 3-5/8 — 20 inches; front grip strap unmarked; cal. 7.65 or 9mm.  
1920 ERFURT COMMERCIAL (J150)
- 15b. Barrel length 4 inches; front grip strap and/or above lanyard loop and/or chamber with Police serial markings; cal. 9mm.  
1920 ERFURT POLICE (J148)
- 16a. Chamber with two dates; with or without Police serial markings; cal. 9mm.  
1914 ERFURT TWO-DATE MILITARY/POLICE (J142)
- 16b. Chamber with only one date; without Police serial markings; cal. 7.65 or 9mm. 17.
- 17a. Chamber with one date (1918); barrel length 4 inches; cal. 7.65mm.  
1914 ERFURT MILITARY, CAL. 7.65mm. (\*)
- 17b. Chamber with one date (1910-1921); barrel length 4 or 8 inches; cal. 9mm. 18.
- 18a. Front grip strap and/or above lanyard loop and/or chamber with Police serial markings; barrel length 4 inches.  
1920 ERFURT POLICE (J148)
- 18b. Without Police serial markings; barrel length 4 or 8 inches. 19.
- 19a. Barrel length 8 inches; rear sight positioned on barrel in front of receiver, with movable (9-position) leaf.  
1914 ERFURT ARTILLERY (J138)
- 19b. Barrel length 4 inches; rear sight fixed, on rear of receiver. 20.
- 20a. Chamber marked 1914 through 1918.  
1914 ERFURT MILITARY CAL. 9mm. (J132)
- 20b. Chamber marked 1920 or 1921.  
1920 ERFURT MILITARY (J146)
- 21a. With grip safety. 22.
- 21b. Without grip safety. 55.

- 22a. With stock lug. 23.  
 22b. Without stock lug. 28.
- 23a. Front sight with a long (2-1/2 inch) sloping, matted ramp; barrel 11-3/4 inches long, with a wooden forearm. 24.  
 23b. Front sight on a short (3/4 inch) ramp; barrel length 6 inches, without a wooden forearm. 25.
- 24a. With dished toggle knobs (fig. 8); toggle lock (fig. 10); narrow trigger (0.330 inch); wide trigger guard (0.587 inch).  
 DWM 1902 CARBINE (J66)
- 24b. With full-round knurled toggle knobs (fig. 9); no toggle lock; wide trigger (0.430 inch); narrow trigger guard (0.469 inch).  
 DWM 1920 CARBINE (J156)
- 25a. With a toggle lock; if barrel length is 4 inches (reworked) then the safe position is with the thumb lever down and the safety is marked "GESICHERT" at the top; if barrel length is 6 inches (original) then the safe position is with the thumb lever up and the safety is unmarked; chamber unmarked (original) or dated 1920 (reworked).  
 DWM 1904 NAVAL (J76)
- 25b. No toggle lock; barrel length 6 inches; safety marked "GESICHERT," in either top or bottom position; safe position with thumb lever at top or bottom; chamber unmarked. 26.
- 26a. Safety marked "GESICHERT" at top position.  
 DWM 1906 NAVAL, SECOND ISSUE (J92)
- 26b. Safety marked "GESICHERT" at bottom position. 27.
- 27a. Serial number 1-4 digits; naval proofs (figs. 11, 12).  
 DWM 1906 NAVAL, FIRST ISSUE (J90)
- 27b. Serial number 5 digits; commercial proofs (figs. 13, 14, 15).  
 DWM 1906 NAVAL, COMMERCIAL (J94)
- 28a. Caliber .45 ACP; trigger guard square-bottomed; trigger with a hooked bottom.  
 DWM 1906, .45 ACP (J108)

28b.	Caliber 7.65 or 9mm.; trigger guard round-bottomed; trigger semi-circular.	29.
29a.	Caliber 7.65mm.	30.
29b.	Caliber 9mm.	42.
30a.	With dished toggle knobs (fig. 8); toggle lock (fig. 10).	31.
30b.	With full-round knurled toggle knobs (fig. 9); no toggle lock.	34.
31a.	Chamber with a crest or coat of arms.	32.
31b.	Chamber unmarked.	33.
32a.	Chamber marked with a Swiss cross in a sunburst (fig. 16).	
	DWM 1900 SWISS (J60)	
32b.	Chamber marked with an American eagle (fig. 18)*.	
	DWM 1900 AMERICAN EAGLE (J62)	
33a.	Barrel length 4-3/4 inches; no wooden forearm.*	
	DWM 1900 COMMERCIAL (J58)	
33b.	Barrel length 11-3/4 inches; with wooden forearm.	
	DWM CARBINE PROTOTYPE (J64)	
34a.	Chamber unmarked.	35.
34b.	Chamber marked.	36.
35a.	Extractor marked "GELADEN" or "LOADED;" serial number with 5 digits**.	
	DWM 1906 COMMERCIAL, CAL. 7.65 mm. (J78)	
35b.	Extractor marked "CARREGADA;" serial number with 1-4 digits.	
	DWM 1906 BRAZILIAN, CAL. 7.65 mm. (J98)	

\*If grips are checkered. If grips are smooth it is a DWM 1900 SMOOTH-GRIP AMERICAN EAGLE (J295); with chamber unmarked it is a DWM 1900 SMOOTH-GRIP COMMERCIAL (J295).

\*\* If grips are checkered. If grips are smooth it is a DWM 1906 SMOOTH-GRIP COMMERCIAL, CAL. 7.65mm. (J294).

- 36a. Chamber marked "LOEWE & CO. OBERNDORF;" rear sight adjustable in two positions (100, 200 meters).  
DWM 1906 (TYPE), LOEWE & CO. (J110)
- 36b. Chamber marked with a Swiss cross (figs. 16, 17), an American eagle (fig. 18), or a crest (fig. 19); rear sight fixed. 37.
- 37a. Chamber marked with an American eagle (fig. 18).\*\*  
DWM 1906 AMERICAN EAGLE,  
CAL. 7.65mm. (J86)
- 37b. Chamber marked with a Swiss cross or a crest. 38.
- 38a. Chamber marked with a crest: "M" and "2" intertwined (fig. 19).  
DWM 1906 PORTUGUESE ARMY,  
CAL. 7.65 mm. (J102)
- 38b. Chamber marked with a Swiss cross (figs. 16, 17). 39.
- 39a. Barrel length 4-3/4 inches, marked "ABERCROMBIE & FITCH CO. NEW YORK. MADE IN SWITZERLAND."  
DWM 1906 ABERCROMBIE  
& FITCH (J162)
- 39b. Barrel length 3-5/8 — 4-3/4 inches; barrel not so marked. 40.
- 40a. Serial number with 1-4 digits, with or without a small letter following; frame sometimes marked "GERMANY;" barrel length 3-5/8 to 4-3/4 inches.  
DWM 1906 (TYPE)  
SWISS REWORK (J154)
- 40b. Serial number 5001A-5100A, 5001-15215; frame not marked "GERMANY;" barrel length 4-3/4 inches. 41.
- 41a. Chamber with Swiss cross in sunburst (fig. 16).  
DWM 1906 SWISS (J82)
- 41b. Chamber with Swiss cross in shield (fig. 17).  
DWM 1906 SWISS MILITARY  
& POLICE (J84)

\*\* If grips are checkered. If grips are smooth and chamber is marked with eagle it is a DWM 1906 SMOOTH-GRIP AMERICAN EAGLE, CAL. 7.65mm. (J294).

- 50b. Chamber with an American eagle; left grip intact, without slot or numbered insert.  
DWM 1902 AMERICAN EAGLE (J72)
- 51a. Chamber with an American eagle; extractor marked "LOADED" or "GELADEN."  
DWM 1906 AMERICAN EAGLE,  
CAL. 9mm. (J88)
- 51b. Chamber with a seal or crest other than the American eagle; extractor marked "GELADEN," "CARREGADA," or with Cyrillic characters. 52.
- 52a. Extractor and safety with Cyrillic characters; chamber marked with crossed rifles.  
DWM 1906 RUSSIAN (J106)
- 52b. Extractor marked "GELADEN" or "CARREGADA;" safety unmarked; chamber marked with other than crossed rifles. 53.
- 53a. Extractor marked "GELADEN;" chamber with Swiss cross in sunburst (fig. 16); barrel marked "ABERCROMBIE & FITCH" etc.  
DWM 1906 ABERCROMBIE & FITCH (J162)
- 53b. Extractor marked "CARREGADA;" chamber and barrel not with markings of 53a. 54.
- 54a. Chamber marked with a crest, "M" and "2" intertwined (fig. 19).  
DWM 1906 PORTUGUESE ARMY,  
CAL. 9mm. (J102)
- 54b. Chamber marked with an anchor surmounted by a crown (fig. 22).  
DWM 1906 PORTUGUESE NAVAL (J104)
- 55a. Without a stock lug. 56.
- 55b. With a stock lug. 59.
- 56a. Chamber dated (1910-1913); serial on left side of receiver, proof on right side.  
DWM 1908 MILITARY, 3rd ISSUE (J126)
- 56b. Chamber unmarked; receiver with or without serial, but proof on left side. 57.
- 57a. Serial number with 5 digits, not followed by a letter.  
DWM 1908 COMMERCIAL (J118)

- 57b. Serial number with 1-4 digits, followed by a letter or not. 58.
- 58a. Left side of receiver with proof marks only.  
DWM 1908 MILITARY,  
1st ISSUE (J122)
- 58b. Left side of receiver with proof marks and serial number.  
DWM 1908 MILITARY, 2nd ISSUE (J124)
- 59a. With toggle lock.  
DWM 1904 NAVAL (J76)
- 59b. Without toggle lock. 60.
- 60a. Rear sight mounted on rear toggle, adjustable for two positions only (100, 200 meters). 61.
- 60b. Rear sight mounted on rear toggle but not adjustable, or mounted on barrel and adjustable for 4 or 9 positions. 63.
- 61a. Serial number with 5 digits, not followed by a letter.  
DWM 1908 NAVAL COMMERCIAL (J116)
- 61b. Serial number with 1-4 digits, followed or not by a letter. 62.
- 62a. Chamber undated.  
DWM 1908 NAVAL (J114)
- 62b. Chamber dated (1914-1918).  
DWM 1914 NAVAL (J134)
- 63a. Rear sight adjustable (4-9 positions), mounted on barrel. 64.
- 63b. Rear sight fixed, mounted on rear toggle. 71.
- 64a. Chamber dated. 65.
- 64b. Chamber undated and unmarked, or with American eagle or "GERMANY." 66.
- 65a. Chamber with one date (1914-1918).  
DWM 1914 ARTILLERY (J136)
- 65b. Chamber with two dates (1920 or 1921 over 1910-1918).  
DWM TWO-DATE ARTILLERY (J142)
- 66a. Front sight mounted on a long (2-1/2 inch) sloping, matted ramp; rear sight adjustable for 4 positions.  
DWM 1920 CARBINE, LESS FOREARM (J158)

- 66b. Front sight on a short (about 3/4 inch) ramp; rear sight adjustable for 9 positions. 67.
- 67a. Receiver marked "A. F. STOEGER, INC." 68.  
67b. Receiver not so marked. 69.
- 68a. Frame marked "GENUINE" (or "ORIGINAL")  
"LUGER REGISTERED U.S. PATENT OFFICE."  
DWM STOEGER,  
FRAME/RECEIVER MARKINGS (J164)  
68b. Frame not so marked.  
DWM STOEGER,  
RECEIVER MARKINGS (J166)
- 69a. Safety marked "SAFE," extractor marked "LOADED."  
DWM 1923 SAFE and LOADED (J172)  
69b. Safety marked "GESICHERT," extractor marked  
"LOADED" or "GELADEN." 70.
- 70a. Serial with 1-4 digits, followed or not by a letter.  
DWM 1920 COMMERCIAL (J150)  
70b. Serial with 5 digits, not followed by a letter.  
DWM 1923 COMMERCIAL (J170)
- 71a. Safety marked "RUST," with a downward-pointing arrow.  
DWM 1923 DUTCH  
COMMERCIAL (J174)  
71b. Safety marked "GESICHERT" or "SAFE." 72.
- 72a. Receiver marked "A. F. STOEGER, INC." 73.  
72b. Receiver not so marked. 74.
- 73a. Frame marked "GENUINE" (or "ORIGINAL")  
"LUGER REGISTERED U.S. PATENT OFFICE."  
DWM STOEGER,  
FRAME/RECEIVER MARKINGS (J164)  
73b. Frame not so marked.  
DWM STOEGER,  
RECEIVER MARKINGS (J166)
- 74a. Safety marked "SAFE," extractor marked "LOADED."  
DWM 1923 SAFE AND LOADED (J172)

- 74b. Safety marked "GESICHERT," extractor marked  
"LOADED" or "GELADEN." 75.
- 75a. Chamber dated. 76.
- 75b. Chamber undated; either unmarked or with  
"GERMANY," or caliber marking (7.65), or with "G". 80.
- 76a. Chamber marked with two dates, one over the other. 77.
- 76b. Chamber marked with only one date. 78.
- 77a. Chamber dated 1920 or 1921 over 1910-1918.  
DWM TWO-DATE (J142)
- 77b. Chamber dated 1920 over 1920.  
DWM 1920 TWICE-DATED (J144)
- 78a. Front grip strap and/or above lanyard loop and/or  
chamber with Police serials.  
DWM 1920 POLICE (J148)
- 78b. Without such Police serials. 79.
- 79a. Chamber dated 1914-1918.  
DWM 1914 MILITARY (J130)
- 79b. Chamber dated 1920 or 1921.  
DWM 1920 MILITARY (J150)
- 80a. Chamber marked only "G."  
DWM "G" DATE (J192)
- 80b. Chamber unmarked, or with caliber marking (7.65) or  
with "GERMANY." 81.
- 81a. Chamber marked "7.65" (sometimes crossed out, in  
which case caliber is 9mm.).  
DWM 1920 POLICE with  
CALIBER MARKINGS (J291)
- 81b. Chamber unmarked, or with "GERMANY." 82.
- 82a. Front grip strap and/or above lanyard loop and/or  
chamber with Police serials.  
DWM 1920 POLICE (J148)
- 82b. Without such police serials. 83.
- 83a. Serial with 5 digits, not followed by a letter.  
DWM 1923 COMMERCIAL (J170).
- 83b. Serial with 1-4 digits, followed or not by a letter. 84.

- 84a. Serial with only 1 digit, no letter; left side of receiver with reverse 'N' (Russian) proof (fig. 23).  
DWM RUSSIAN COMMERCIAL (J178)
- 84b. Serial with 1-4 digits, followed or not by a letter; left side of receiver with or without proofing which may include a normal (unreversed) 'N' (fig. 24).  
1920 DWM COMMERCIAL (J150)
- 85a. Front toggle marked 'S/42.' 86.
- 85b. Front toggle marked otherwise ('42,' 'S,' 'K,' 'byf,' or with various crests or shields, or with manufacturer's name and/or location). 89.
- 86a. Chamber marked 'K.'  
MAUSER S/42 K (1934) DATE (J188,290)
- 86b. Chamber marked otherwise. 87.
- 87a. Chamber marked 'G.'  
MAUSER S/42 G (1935) DATE (J190)
- 87b. Chamber marked otherwise. 88.
- 88a. Chamber dated (1936-1940); receiver with serial number.  
MAUSER S/42, DATED (J194)
- 88b. Chamber dated (1936-1940); receiver marked 'S/42' (left side), but without a serial number.  
MAUSER S/42  
TOGGLE & RECEIVER (J303)
- 89a. Front toggle marked '42.' 90.
- 89b. Front toggle marked otherwise. 93.
- 90a. Chamber with a 4-digit date. 91.
- 90b. Chamber with a 2-digit date. 92.
- 91a. Chamber with a chrysanthemum crest (fig. 25) in addition to date.  
MAUSER 42 (1934) JAPANESE (J208)
- 91b. Chamber with date only (1939, 1940).  
MAUSER 42 (1934) (J202)
- 92a. Receiver and barrel with Mauser proof (fig. 26).  
MAUSER 42 (1934)  
TWO-DIGIT DATE (J204)

- 92b. Receiver (right) and barrel with Krieghoff proof (fig. 27); receiver serial (left) preceded by "Kü."  
MAUSER/KRIEGHOFF 42  
(1934) TWO-DIGIT DATE (\*)
- 93a. Front toggle marked "byf."  
MAUSER byf (1934) (J218)
- 93b. Front toggle marked otherwise. 94.
- 94a. Front toggle marked "S" (note that this may be approximate to one or two small numbers which are serials; the "S" and the numbers are not joined by a slash-line as in the S/42 variation; do not confuse with the S-marked chamber, which is a Krieghoff date-mark).  
SIMSON (1934) S TOGGLE (J184)
- 94b. Front toggle marked otherwise. 95.
- 95a. Front toggle marked "K."  
KRIEGHOFF 1923 COMMERCIAL (J176)
- 95b. Front toggle marked otherwise. 96.
- 96a. Front toggle with dagger-anchor and HK (fig. 28), surmounting "KRIEGHOFF SUHL" or only "SUHL." 97.
- 96b. Front toggle marked otherwise. 104.
- 97a. Front toggle with dagger-anchor, HK, over "SUHL." 98.
- 97b. Front toggle with dagger-anchor, HK, over "KRIEGHOFF SUHL." 99.
- 98a. Safety marked "GESICHERT," extractor marked "GELADEN."  
KRIEGHOFF 1934 S (EARLY) (J222)
- 98b. Safety marked "GESICHERT" or "EMIN," extractor marked "ATES."  
KRIEGHOFF 1934 S-TURKISH (J224, 296)
- 99a. With a grip safety; with or without a stock lug.  
GRIP SAFETY KRIEGHOFF (J220)
- 99b. Without a grip safety; with a stock lug. 100.
- 100a. Chamber with a 4-digit date. 101.
- 100b. Chamber unmarked, or with an "S," or with a 2-digit date. 102.

- 101a. Chamber dated 1936-1943; extractor marked  
"GELADEN."  
DATED KRIEGHOFF (J232)
- 101b. Chamber dated 1937; extractor marked "ATES."  
KRIEGHOFF DATED TURKISH (\*)
- 102a. Chamber unmarked.  
KRIEGHOFF 1934 COMMERCIAL (J230)
- 102b. Chamber marked "S" or with a 2-digit date. 103.
- 103a. Chamber marked "S."  
KRIEGHOFF 1934 S (LATE) (J226)
- 103b. Chamber with a 2-digit date.  
KRIEGHOFF 36 (J228)
- 104a. Front toggle marked with a Swiss cross over "WAF-  
FENFABRIK" over "BERN."  
1906/24 BERN SWISS (J112)
- 104b. Front toggle marked otherwise. 105.
- 105a. Front toggle marked with Swiss cross in a shield.  
1929 BERN SWISS (J180)
- 105b. Front toggle marked otherwise. 106.
- 106a. Front toggle marked with Bulgarian crest (erect lion  
within a shield, surmounted by a crown); safety marked  
with Cyrillic characters; chamber marked "DWM."  
DWM 1908 BULGARIAN (J120)
- 106b. Front toggle, safety, and chamber marked otherwise. 107.
- 107a. Front toggle marked "VICKERS LTD;" with a grip  
safety but no stock lug.  
1906/24 VICKERS DUTCH (J160)
- 107b. Front toggle marked otherwise; no grip safety but with  
a stock lug. 108.
- 108a. Front toggle marked "SIMSON & CO." over "SUHL;"  
chamber unmarked or dated 1917 or 1918.  
SIMSON & COMPANY (J168)
- 108b. Front toggle marked "OBERNDORF" over "1934;"  
chamber marked with Mauser banner (fig. 1).  
1934 MAUSER, OBERNDORF (J186)
