GUN LIST GENERAL INFORMATION AND "RULES"

I acquired these firearms and other collectibles over the course of 20 years collecting. By and large these are the best gun I was able to fine of a particular type/model; these are the "keepers" For example I purchased 20 "hand selected" Finnish Lugers when they were first imported; I kept the best one and sold the other 19! Most of these guns came from private individuals and collectors; a very few came from reputable dealers and If I can remember I will tell you who I got them from. The guns are not "new" and I don't believe any gun is 100% after it leaves the factory so I have tried my best to accurately describe them in the list. Before you buy a gun from me we will discuss it with the gun in my hand and review every inch of it. I have never had a gun returned for any reason; and most people have said the guns were better than they anticipated. I have also never had a gun damaged in shipment due to the extreme care with which I pack them. I lost interest in collecting several years ago and finally took the time to catalog the guns and price them using the Blue Book of Gun Values and other sources with a goal of pricing the guns so all will sell within 60 days or less. I have no interest in being a collector so trades, lay away, etc. are not possible. Call me at (831) 426-5566 and LEAVE A MESSAGE including the best time (California Time) to call you back.

"The Rules"

- You must send me an ink signed current FFL and any other documents required by YOUR local, state and federal government for the purchase. You are responsible for this, if your item gets confiscated because you didn't have the proper licensing, etc. it's your loss. NO SHIPMENTS OUTSIDE OF THE USA!
- Send me payment in full plus SHIPPING CHARGES in the form of a Bank or Postal Money Order, Cashier's check, or the equivalent NO PERSONAL CHECKS OR CASH. Make the Checks Payable to Blaine Swafford.
- Be ABSOLUTELY SURE to include your Name, Phone Number, the Gun or Guns you are buying
 must be specified, include your Shipping Address and phone number (NO POST OFFICE BOX,
 MUST BE A STREET ADDRESS for firearms. Books, knives and holsters etc. may be shipped
 to a PO Box but no guns!)
- SHIPPING CHARGES: All firearms will be shipped NEXT DAY Air UPS: The cost is \$36.00 for guns up to \$1,000.00 in value ADD 32cents per Hundred Dollars Value up to the total value (price paid) of the firearm. Holsters, knives, small items will be shipped USPS Priority Mail \$10.00 including insurance, Books \$5.00 each.
- These guns are sold without warranty or guarantee of any kind, especially note that no representation is made as to the safety of shooting them. If you do want to shoot them; have them checked out by a competent gunsmith first then have fun!
- Before I ship, I carefully inspect the guns and I know what the condition is! I will pack these items so well that unless the plane crashes they will arrive in the same condition. When you unpack them please be careful.
- Until you are sure you don't intend to return the guns: You may NOT: fire them, disassemble them using ANY tools, use any solvents, bore cleaners, oils, etc. The gun bores were recently cleaned and lightly swabbed with oil; they will not "improve"; what you see is what you get.
- In the unlikely event you decide to return anything; CALL ME WITHIN THREE (3) DAYS OF DELIVERY; DO NOT UNDER ANY CIRCUMSTANCES JUST RETURN THE GUN TO MY PO BOX! The item must be returned next day air, fully insured to an address I will supply and in exactly the condition it was shipped to you (see above). That said, I will refund your purchase price and the shipping charges (from me to you).
