LUGER MAGAZINE LIST 017 – APRIL 14TH, 2003

Once again this lists contains about five pages of Luger magazine numbers. The rules remain the same, but here is a short review in the event you find a magazine that matches your pistol.

- 1.) The idea is to trade a like magazine in like condition for a magazine that matches your pistol.
- 2.) If you find a magazine of interest, contact me and I will set you up with the owner.
- 3.) I will not be a middleman during your trade and or negotiations with the other collector. What deal you make is your business.
- 4.) Many Collectors are not interested in selling any of their magazines. They will however, trade a magazine to a person having the matching Luger to the magazine.
- 5.) The “T” numbers after a serial number indicates the serial number and suffix are in a transition range. Check the attached “T” number descriptions for clarification.

SEND YOUR NEW MAGAZINE NUMBERS FOR LIST 018

Note: This next list (018) should be ready to mail in about two to three months. I recently purchase a bag of 160 Imperial Luger magazine bottoms and will have them in my possession in about a week. They will be on the list in addition to a several K-S/42 magazines numbers and whatever other numbers I have recorded prior to the mailing. If you want the next list send your \$12.00 and the list will be mailed when it's ready.
