"PARABELLUM"  
Automatic Pistol**

Deutsche Waffen-und  
Munitions Fabriken  
Berlin

**\$1.00 POSTPAID**

This book is a "Must" for  
the shooter and collector.

A complete 41 page descriptive  
manual, telling the complete func-  
tions of the Luger, dis-assembly, parts  
diagram, nomenclature, special fea-  
tures, etc.

**NO LUGER COLLECTOR CAN BE  
WITHOUT THIS.**

An exact reprint of the original and  
now very rare English translated man-  
ual as issued with each Luger pistol  
by the famous munitions firm of DWM,  
(Deutsche Waffen-und Munitions Fabri-  
ken, of Berlin, Germany) DWM built  
more Luger pistols than all of the  
other manufacturers combined. This  
manual has many illustrations, parts  
diagrams, complete take-down instru-  
ctions, complete ballistics on both the  
9mm and .30 caliber pistol. A most  
desirable and valuable addition to  
the finest Luger collection. We have  
a very limited supply of these manuals.

- \*L-3. We must charge extra for barrel extensions only, since we must pay a local gunsmith to remove the barrels; He is the only gunsmith in Michigan who has the proper tools and dies to remove barrels without damaging the extensions.
- \*L-10D Entire toggle assemblies do NOT include extractor, firing pin and spring.
- \*L-16 Sideplates may be reblued and may have minor blue wear or surface scaling.
- \*L-22A These extruded steel magazines were made by Haenel-Schmeisser and bear the German war code designations such as FX0, 122, etc. They will outwear 2 or 3 stamped metal variety. Some have aluminum end pieces, so black plastic.
- \*L-22B These bright metal magazines are the first of the extruded steel magazines made by Haenel-Schmeisser and bear the name "Haenel-Schmeisser" on them. A definite collectors piece, they were originally designed for the Krieghoff commercial Luger and are identical to the military "FX0" in construction.
- \*L-37. These cleaning rods were made for the 4" and 6" barrelled Luger and have a container at the top made to hold a vaseline like substance to lubricate the Luger. The cap of the container has a small "spade" to spread the oil.
- \*L-38. These are military holsters and each has a pocket for an extra magazine, plus a small pocket under the flap to hold the stripping tool. Originals.

I REPEAT, IT IS LEGAL TO ORDER AND RECEIVE FIREARM PARTS EXCEPT THE FRAME, WHICH MUST GO TO A FEDERAL LICENSED DEALER. SO PLEASE FEEL FREE TO ORDER.

WE DO NOT SELL PISTOLS. If you are interested in buying Lugers, Mausers, P-38 pistols or other automatic pistols, I suggest you write to Ralph Shattuck, 6661 Castle Drive, Birmingham, Michigan, 48010 and to Gilbert Hoffman, 3102 Grange St., Trenton, Michigan 48183. Each charges .25¢ for their lists.

OWING TO EXTREME DIFFICULTY IN SECURING CERTAIN PARTS, AND THE EXCEPTIONALLY HIGH PRICES WE MUST PAY TO GET PISTOLS FOR OUR PARTS, WE RESERVE THE RIGHT TO CHANGE PRICES WITHOUT PRIOR NOTICE. CONSIDERING THE OUTLANDISH PRICES LUGERS ARE BRINGING, WE HAVE KEPT OUR PRICES AS LOW AS WE CAN AND STAY IN BUSINESS.

WE INVITE YOUR INQUIRIES, BUT PLEASE SEND A STAMPED SELF-ADDRESSED ENVELOPE IF YOU WANT A REPLY. OUR POSTAGE BILL IS ALREADY STAGGERING.

WE CARRY A COMPLETE LINE OF REPAIR PARTS FOR THE MILITARY P-38, BROOMHANDLE MAUSER, AND THE 1910 POCKET MAUSER. WE ALSO HAVE A MANUAL IN ENGLISH ON THE 1910 MAUSER PISTOL AT \$ 1.50 PER COPY. OUR OTHER PARTS LISTS (ABOVE) ARE ILLUSTRATED, SHOWING NAMING AND PRICING EACH PART. EACH PARTS LIST COSTS .25¢. BE SURE TO SPECIFY WHICH LIST YOU WANT. WE ARE ALWAYS INTERESTED IN BUYING PARTS OR INCOMPLETE PISTOLS. IF YOU HAVE ANY SUCH, SEND US A LETTER TELLING US WHAT YOU HAVE AND YOUR PRICE.
