World of Lugers

WORLD OF LUGERS is dedicated to the promotion of interest in, and dissemination of knowledge about, Lugers.

Sam Costanzo

Mr. Costanzo has been an active Luger collector for approximately fifteen years. The holder of a master's degree in one of the social sciences, he has spent the major portion of the past five years in the research for WORLD OF LUGERS PROOFMARKS book, which was published in 1977. A life member of NRA, Sam has earned a reputation as one of the foremost authorities on Lugers.

Ralph Shattuck

Mr. Shattuck's interest in Lugers spans the past three decades. One of the technical editors for Arms Gazette magazine, he has written over twenty articles which have appeared in the various major publications. Ralph is a life member in six gun collectors' associations and is considered to possess the largest Luger collection in the world.

Catalog Three

Thanks in large measure to old friends, gun collectors, dealers and new friends here and abroad we find ourselves publishing Accessories Catalogue Three. If sheer number of catalogs are a benchmark of success. . .then we are successful. However, we feel that the people we have met and the discussions we have had are a far better gauge of our success.

Gun Purchases

One of our most basic interests at World of Lugers is the buying and selling of guns. We are interested in single pieces or entire collections.

We will pay excellent prices for excellent guns. A finders fee will be paid for all contacts and contacts will, of course, be kept confidential.

Pieces will also be accepted on consignment.

In addition, check this catalog for details of our listing service.

Dealers

Dealers will find the wide assortment of stands excellent sales tools. In all cases the guns are held in a manner that permits viewing all sides with ease, why hide one side of a handsome gun by laying it on a shelf?

The stands and other accessories are worthy additions to any dealer's product line. Write or call for pricing and other details.

As always, we strive for perfection, but just as often we make mistakes. So if despite our best efforts you find an error in the catalog; or if you simply have a question, please write or call. We would like to hear from you.

Responding to the gun enthusiast's need for high quality yet inexpensive display stands, WORLD of LUGERS offers this unique collection for your consideration.

Never before could a collector know if his Luger belonged to a German Agent. The "World of Lugers" has uncovered the complete listing of all Lugers issued by Hans Tauscher to German espionage agents in the United States and Canada during the period 1913-1916, and published them in this new book. The Lugers are listed by Serial Number, Date

(Month, Day, Year) and Caliber. Actual Government correspondence used as evidence in the Hans Tauscher court trial is also included in this publication.

Can you, as a collector, afford not to know if you are holding a Hans Tauscher spy Luger?

Hans Tauscher Luger Book 5.50

This book is the culmination of six years of research. Mr. Costanzo's monumental investigation is documented with hundreds of drawings and symbols.

G.I.s in WWII brought home thousands of rare, valuable Lugers. Almost half are not accounted for. Today many are valued at \$1,000 and MORE!

Don't Let That Valuable Luger Get Away... Until you check the proof mark.

A proven, authentic proof mark will increase the value of your Luger by hundreds of dollars. . .possibly much more. You can check it in the newly published. . .
