LIFE-TIME PLANNING

We recognize the sensitive nature of planning your estate. We approach all matters of estate planning with sensitivity, patience and concern, while maintaining the confidentiality of your assets.

There are some fundamental documents that we will discuss as part of your estate plan. These documents serve different purposes, but are part of a complete estate plan.

Last Will & Testament

Your Will sets forth your final wishes for the administration of your estate, and the disposition of your assets. By creating a validly executed will, you can establish peace of mind for you and your loved ones.

Living Will

This document allows you to appoint a person, called an agent, to make medical decisions on your behalf if you are not able to make those decisions yourself and outlines your wishes should you be in an end of life stage.

Power of Attorney

A power of attorney is your authorization to appoint another person or persons to act for you during your life. We strongly recommend that every person have one.

Trusts

For some estate plans, we will recommend to a client that we use a Trust to implement your wishes.

Administration

In the event that a loved one has passed on, we are able to assist your personal representative in carrying out the terms of your estate plan, including making sure your assets are distributed in accordance with your wishes, and all taxes are paid.

We also represent parties in all types of orphan's court litigation, including guardianships, will contests, claims against agents under a power of attorney and claims against an estate by creditors.
