

PECB Certified ISO 56001 Foundation

Explore the fundamentals of an innovation management system according to ISO 56001

The ISO 56001 Foundation training course enables participants to acquire fundamental knowledge of innovation management system (IMS), including key concepts, principles, and methodologies based on ISO 56001. This training course provides an understanding of how organizations can establish, implement, and support an effective innovation management system to drive value creation, structured innovation, and continual improvement.

Why should you attend?

As innovation becomes essential for long-term organizational growth and competitiveness, organizations need structured approaches to manage ideas, opportunities, and innovation initiatives effectively. Poorly managed innovation efforts may result in wasted resources, missed market opportunities, limited collaboration, and reduced value creation. By understanding the fundamental concepts and principles on an IMs based on ISO 56001, you will be better prepared to support your organization in building a systematic innovation culture and improving its ability to adapt, grow, and create value.

After completing this training course, you can take the exam and apply for the “Certificate Holder in ISO 56001 Foundation” credential. A PECB Foundation certificate shows you understand the fundamental principles, concepts, and requirements of an innovation management system based on ISO 56001, including innovation management, leadership, risk assessment, and organizational collaboration.
