

PECB Certified ISO 9001 Lead Auditor

Acquire the necessary competencies to audit a QMS against the requirements of ISO 9001 based on the guidelines and requirements for auditing management systems provided in ISO 19011 and ISO 17021-1

Why should you take this training course?

Quality management systems as outlined in ISO 9001 add value to organizations, regardless of the size or industry. Implementing, auditing, and improving a QMS has significant benefits for an organization.

The ISO 9001 Lead Auditor training enables you to develop the necessary expertise to perform a quality management system (QMS) audit by applying widely recognized audit principles, procedures and techniques. During this training course, you will acquire the knowledge and skills to plan and carry out internal and external audits in compliance with ISO 19011 and the certification process according to ISO/IEC 17021-1.

Based on practical exercises, you will be able to master the audit techniques and become competent to manage an audit program, audit team, communication with customers, and conflict resolution.

After acquiring the necessary expertise to perform this audit, you can sit for the exam and apply for a "PECB Certified ISO 9001 Lead Auditor" credential. By holding a PECB Lead Auditor Certificate, you will demonstrate that you have the capabilities and competencies to audit organizations based on best practices.

Why is this training course more desirable than the others?

This course is a result of hard work and research done by PECB and its network of trainers and experts in quality management. The course is student-centric, meaning that everything, from the slides, the exercises, the quizzes, and so on, were designed with the learner in mind.

With PECB being an internationally recognized training developer, examiner, and issuer of professional certificates, ISO 9001 Lead Auditor will make you open many doors in your professional career.

Who should attend?

- Auditors seeking to perform and lead Quality Management System (QMS) certification audits
- Managers or consultants seeking to master a Quality Management System audit process
- Individuals responsible for maintaining conformance with QMS requirements
- Technical experts seeking to prepare for a Quality Management System audit
- Expert advisors in Quality Management

Course agenda

Duration: 5 days

Day 1 | Introduction to Quality Management Systems (QMS) and ISO 9001
