

PECB Certified ISO/IEC 27002 Foundation

Learn the basic concepts of information security and ISO/IEC 27002 information security controls

Why should you attend?

ISO/IEC 27002 Foundation training enables you to learn the basic elements to implement Information Security Controls as specified in ISO/IEC 27002. During this training course, you will be able to understand how ISO/IEC 27001 and ISO/IEC 27002 are related to ISO/IEC 27003 (Guidelines for the implementation of ISMS), ISO/IEC 27004 (Measurement of Information Security performance) and ISO/IEC 27005 (Risk Management in Information Security).

After completing this course, you can sit for the exam and apply for the "PECB Certified ISO/IEC 27002 Foundation" credential. A PECB Foundation Certificate shows that you have understood the fundamental methodologies and management approach.

Who should attend? - Individuals interested in Information Security Management and Information Security Controls - Individuals seeking to gain knowledge about the main processes of an Information Security Management System and Information Security Controls - Individuals interested to pursue a career in Information Security Management	Learning objectives - Understand the implementation of Information Security Controls in accordance with ISO/IEC 27002 - Acknowledge the correlation between ISO/IEC 27001, ISO/IEC 27002 and other standards and regulatory frameworks - Understand the approaches, methods and techniques used for the implementation of Information Security Controls
