Editorial

Randy "Zeke"

Sorensen,

AG 989

Brothers,

I hope everyone is safe and healthy. My wife Ruth and I had Covid in October and I can tell you that you do not want it. There are worse things, but everyone is different and if you can avoid it, do so.

We announced previously that I am moving to the Treasurer's position and am extremely excited to announce that Logan Lamphere, AG1596, has accepted the position of Director of the Alumni Association. I think you will find that this is an upgrade. Logan actually has some skills in this area where I was just a pretty good bullshitter. Logan is actually publishing this edition and I am just providing this transition letter and a Treasurer's update as we have already made the full transition.

It is really exciting to see the number of alumni that are getting involved and helping out with the affairs of our fraternity. This publication is being physically printed and mailed in an effort to reach a wider audience, but most of our communications are being sent via email. If you have not been receiving the emails from the Alumni Association over the last two years, send your email address to alphagamzetaaaa@gmail.com and get on the alumni distribution list.

You will continue to hear from me as I work the Treasurer's position and work with the Alumni Council, the House Corporation, and the House Subcommittee. Hopefully I will see you all at Dakota Days next year.

Randy "Zeke" Sorensen
AG 989

New Alumni Association Director selected

At a recent Alpha Gamma Zeta Alumni Council meeting, Logan Lamphere was coerced, I mean volunteered, into taking over the position of "Alumni Association Director" from Randy "Zeke" Sorensen, so Zeke can focus on collecting your hard-earned money as Housing Corporation Treasurer.

Logan Lamphere, AG 1596, graduated from USD in 1999 with a BSBA in

Editorial

*Logan Lamphere,
AG 1596*

New Alumni Association Director selected (con't)

Business Management and Chemistry. He joined Lambda Chi and activated in the fall of 1994 (yes, he was at USD for five years!). While there, he was very involved with the active chapter, holding positions of High Beta (before the vice president was split into two offices), High Sigma, Executive Committee, and was President of the Interfraternity Council, along with plenty of other campus activities.

Upon graduation, and with a lead from a fellow brother, he took a job in Minneapolis with a training company specializing in the SAP business software that Logan had just learned at USD's B-School. Twenty-one years later, and the SAP consulting career has taken Logan around the US and the world, working on projects in Virginia, Tennessee, Dallas, Los Angeles, Toronto, Milwaukee, London, and Saudi Arabia. He is married and lives most of the year in Orlando, Florida, but spends summer on the family ranch in Sturgis to help run their Motorcycle Rally campground.

On becoming Alumni Association Director, Lamphere says, "I want to thank Randy Sorenson for formalizing an alumni association for Alpha Gamma. Creating this body in addition to the Housing Corporation is important to fulfill the notion that Lambda Chi Alpha is not just for four (or five) years, but is a lifelong fellowship and brotherhood.

"I've always tried to keep up on what's going on in Vermillion, but have felt that I have little to contribute being so far away. Now with social media, virtual meeting tools, and regional proximities, we have an incredible opportunity to reconnect, strengthen our network, mentor younger alumni and actives, promote career development, and continue the fellowship of Lambda Chi.

"I'm looking forward to highlighting the successes of many of our brothers, build regional groups, and meet more of our nearly 2000 members!"

New High Alpha: 1st in GPA and Strollers

Brothers,
On behalf of the active chapter, I wish you all a safe and joyful holiday season!

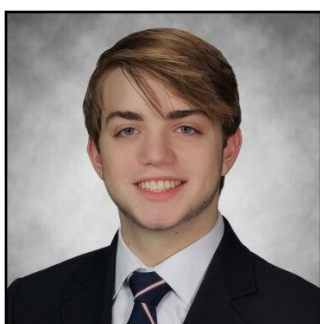

To introduce myself, I am Tayte Gleason, the incoming High Alpha for the 2021 year. I am a sophomore finance major aspiring to attend law school after earning my undergraduate degree. Lambda Chi Alpha has already made a massive impact on my college experience, and I am extremely excited to serve as High Alpha for the next year.

This year has been a peculiar one to put it lightly. Going into Spring Break,

High Alpha

*Tayte Gleason
AG 1967*

ALPHA, (con't) ...the chapter had already accomplished so much. To name a few achievements, we began the year with the highest fraternity GPA on campus for the previous semester, and we celebrated another Strollers victory in February. Although COVID put a wrench in things for the rest of the year, the active chapter has still been busy getting involved within the Greek community and across campus. We placed second in Greek week this September (first out of the fraternities), and we have raised over 2,000 pounds of food this semester alone.

Despite lower university recruitment numbers due to COVID, we welcomed twelve new associate members this fall in addition to the several recruited this spring. With these talented new associates, we are moving ever closer to a huge milestone for the chapter: Alpha Gamma 2000. It is mind-blowing that I will get to experience reaching 2,000 brothers during my time at USD, and we all look forward to reaching it within the next year or two!

Looking ahead to 2021, I'm going to encourage our chapter to focus on three core areas; Brotherhood, Academics and Campus Involvement. While the university still has limitations enacted on social events with other organizations, focusing on internal relations among brothers will be my focus in the upcoming year. Showing new members and reminding older members why they joined Lambda Chi with impactful brotherhood events will strengthen the already tight bonds we share. One of the most attractive features offered by Lambda is its professional development, and this is as great a year as any to build on those skills. Stressing the importance of keeping good grades through the pandemic along with getting involved in leadership positions across campus will be a top priority for the Zeta and me.

Finally, I would like to thank this year's Zeta for the tremendous work they did for the active chapter in 2020. Josh Chase did an incredible job as High Alpha, and I look forward to working with him as I continue to get a reign on things. I would also like to thank the alumni for the generous support they continue to provide us. Once again, I wish you all happy holidays and a promising New Year!

Yours in ZAX, Tayte Gleason, AG 1967, High Alpha

Housing Corp Treasurer's report

Alpha Gamma Housing Corporation Treasurer Randy Sorensen reports that 2020 Memberships Dues and donations continue to come in as of early December. 2020 was a tragedy-free year for the house, so our expenses have been modest YTD, and we will be able to carry forward a minor surplus into 2021. Given the age and condition of our house, this is a good thing to have.

We have started to use the Phase 1 House Project funds by hiring outside firms to assess the current house professionally and to also begin a Feasibility Study to begin to meet with key members of our alumni to discuss potential future plans and potential for building a new house.

Initial findings have determined that it is not economically feasible to move forward with our existing house; the bones are just too old and essentially everything would need to be replaced. A rebuild would make more sense. The Feasibility Study will determine what we should rebuild. The best choice may be a new house that looks very much like the old house, but with new bones and a more modern floor plan for today's environment.

The Housing Corporation just completed the purchase of the additional land to the south of our lot at 327 N. Pine St. This land became available as a result of a commercial development project being done, and this additional land will give us greater flexibility in how we move forward in building a new house.

We thought it wise not to miss this opportunity to procure this land while it was available even though our plans are not yet solidified. It adds significant value to our lot and is key Vermillion real estate, being located right across the street from the University. We purchased this additional land with a mortgage for \$70,000.

Thanks to the generosity of our Alumni we are in great financial shape going into 2021.

Submitted, Randy J. Sorensen

*Nick Bratvold,
AG 1881, Alumni
Council Chair*

Capital campaign for new house begins

You and I lived at 327 North Pine Street because of those who came before us. Due to consistently generous support, the Alpha-Gamma Zeta has been debt-free since the early 1980s.

Today, **our chapter is 20 initiates shy of 2,000**—a historic milestone achieved by few chapters of Lambda Chi. Alpha-Gamma Zeta has produced hundreds of entrepreneurs and businessmen, lawyers and lawmakers, scientists and doctors...not to mention husbands and fathers. After leaving Vermillion, Lambda Chi's have enriched their families, communities, South Dakota, and even our nation at-large.

You and I are a part of this legacy.

To support future generations of young men, we are seeking \$90,000 which will support: 1) the purchase of 40 feet of land south of 327 North Pine Street (\$70K); and, 2) a study to determine the feasibility of a \$3M capital campaign (\$15K + expenses). A mortgage has been approved to fund these costs until the necessary support has been raised, at which time the mortgage will be paid off completely.

It is our intention to enter and end any capital campaign debt-free.

Though an official campaign has not formally begun, those who have given after January 1, 2020, shall receive recognition for their cumulative support at the conclusion of any upcoming campaign. More information on recognition and naming opportunities will be shared in future correspondence.

A recommendation for the feasibility study is expected in February 2021. Should the feasibility study conclude that we initiate a capital campaign, we will require additional volunteer support, particularly in the areas of building and design, mentorship, project management, and fundraising. To learn more, please contact Nick Bratvold, Alumni Council Chair, at (605) 553-4497 or nicholasrbratvold@gmail.com.

So, then, what are the greatest areas of need? Talent and treasure.

This project will not succeed without the collective experience and wisdom of our Brotherhood. Our alumni governance model has expanded to include more opportunities with fewer, more focused responsibilities. There is a place for you as a volunteer, wherever your interest may be.

We also hope you will consider a one-time gift of \$500 to support our Phase 1 expenses, and challenge others from your generation to do the same. Those who give \$500 will be recognized at the Gold Level. With 140 gifts at the Gold Level, we will be able to completely pay down our mortgage by January 1, 2021.

We hope to hear from you, and are grateful for all you bring to our Brotherhood.

Always in ZAX, Nick Bratvold AG 1881

*The House
Subcommittee*

Land purchase expands house lot size

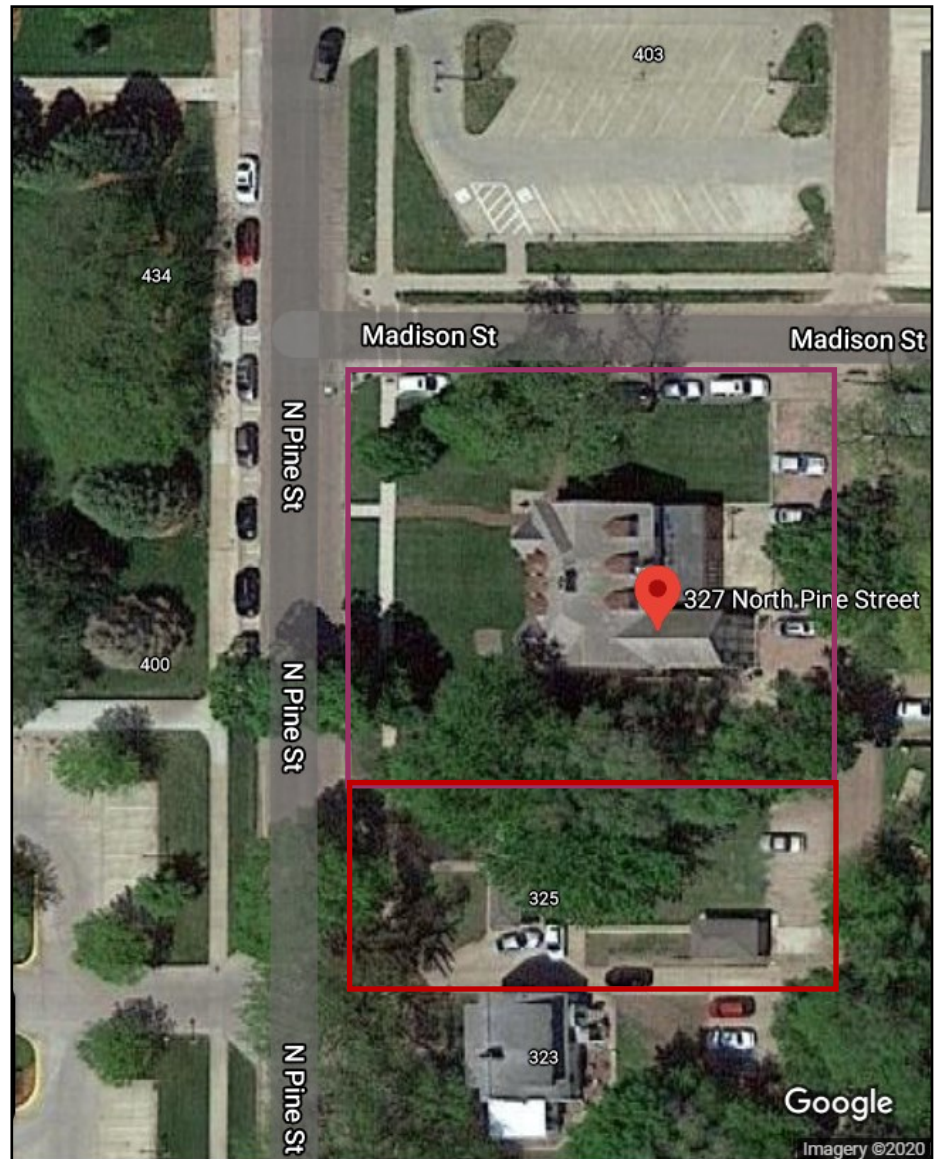

The Alpha Gamma Housing Corporation has completed the purchase of the additional land, adding to our lot at 327 North Pine Street in Vermillion. The \$70,000 purchase was made via a mortgage at First Bank & Trust in Canton, reports Housing Corp Treasurer Randy Sorensen.

Forty (40) feet south of land south of our lot was offered to us by a developer, who had purchased the properties south of us on which he is building apartments. The extra 40 feet was needed for his development, but will come in handy when we begin building a new house. Options include allowing more space for the footprint of the house, construction space, recreational space, or additional parking. The extra land gives us flexibility.

Newly purchased property

Alumni Spotlights

Andy Hay, AG 1572

Andy Hay, '97, is the Executive Director of ABL Originations at J. P. Morgan in Minneapolis. He has been with J. P. Morgan for over ten years, and prior to that was with Wells Fargo Capital Finance. He and his wife Holly (Ashmore), also a USD grad, live in Excelsior, Minnesota, with their three beautiful daughters. Between his girls' soccer and softball games, the family likes to visit relatives in Custer in the Black Hills.

Russ Olson, AG 1479

Russ Olson, '92, '96, is the Chief Executive Officer at Heartland Consumers Power District. He earned his Bachelor's Degree in English/Political Science from USD in 1992, and later gained a Master of Public Administration from USD in 1996. He served in the South Dakota state Legislature as a Representative from District 8 from 2006 to 2008. In 2008, Olson was elected as a State Senator from District 8, a position he served in from 2008 to 2013. In 2013, he was elected as the State Senate Majority Leader, but resigned that September to take on his current role as CEO of Heartland Consumers Power District in Madison, South Dakota. He and his wife Jennifer have two children, the oldest of which also goes to USD.

Help Wanted

Editor's Note: This recurring section is a space for alumni to post help wanted ads, job prospects or other career-related information. We will also be explaining Lambda Chi Alpha International's career networking websites and databases in future editions.

From James Martens, Senior Talent Acquisition Partner at Braun Intertec Corporation:

"We are seeking the following positions in:

Texas: [Business Development Representative](#), [Project Scientist III](#)

Minnesota:

[Senior ERP Financial Business Analyst](#), [Solutions Consultant](#), [Transportation Project Manager](#)

And several Engineers and Geotechnical Drilling Crew Chiefs in TX, MN, ND, WI, and IA"

To learn more and apply, head to the link below:

<https://braunintertec.wd5.myworkdayjobs.com/en-US/BraunIntertecCareers> or contact James at jmartens@braunintertec.com.

James Martens '99, AG 1625, is a Senior Talent Acquisition Partner at Braun Intertec Corporation. James is married to Heidi (Bubar), and they live in Eden Prairie, Minnesota.

Regional reps wanted

Sioux Falls area alumni often meet up for monthly "bored meetings". These have been a fun way to stay connected, build fellowship, network and support the active chapter.

Based on the number of alumni living in various metropolitan areas, we are seeking brothers who would like to host happy-hours in their respective areas:

- Rapid City
- Sioux City
- Twin Cities
- Denver
- Florida (Southwest Florida/Fort Meyers)
- Arizona (Scottsdale/Phoenix)
- Omaha

Hosting is simple—just pick a place and time! There doesn't need to be any program or reserved event space—just pick a local watering hole and time convenient to most of you!

Logan Lamphere will provide you with a distribution list of email addresses of area alumni. You or Logan can also post a Facebook Event in our **LCA at USD Alumni - Alpha Gamma Zeta Alumni Association** Facebook Group.

Logan has been hosting a quarterly alumni happy hour for any Lambda Chi's living in the greater Orlando area, and has found that Friday evenings at 5 p.m. at breweries, bars or restaurants have worked well (let him know if you live in Central Florida and he will add you to his list!). They are informal, and are rotated to different parts of town. The key is keeping it simple and building a fellowship with whomever shows!

It's not the end of the world if we miss a quarter, and we consider it a success whether two or twenty-two brothers show-up; it has been a nice way to network and make new connections.

*Dr. Richard P.
Holm, MD, AG 810
“The Prairie Doc “*

Rick Holm Memorial Scholarship Established

(SIOUX FALLS, S.D.) - The family of the late Dr. Richard P. Holm, MD is pleased to announce the creation of a permanently endowed scholarship, established through the South Dakota State Medical Association Foundation (SDSMAF), in memory of Dr. Holm.

The Richard P Holm, MD Prairie Doc Memorial Scholarship will be awarded to a medical student within one year of graduation from the USD Sanford School of Medicine. Students eligible must have an interest in pursuing a post-graduate training program in Primary Care; to include Internal Medicine, Family Practice or Pediatrics. Preference will be given to students who have demonstrated enthusiasm for communication to the public of scientifically based information to enhance health, diminish suffering, and promote healthcare literacy; preferably in the upper Midwest.

Once fully endowed, the scholarship will be administered by the SDSMAF with input from the Holm family.

Fundraising to endow the scholarship will be accomplished by family and friends – with Dr. James Engelbrecht, MD and Dr. David Hyink, PhD, taking on leadership roles.

A significant family gift, coupled with a portion of the funds generously donated in Dr. Holm’s memory by his friends and associates, allows us to begin with \$37,000 toward our first-stage goal of \$75,000; which will endow the scholarship and begin an annual payout. The ultimate goal is to fund the corpus to \$125,000 which will result in a scholarship award that will meaningfully assist a medical student.

Your help in this effort to honor and preserve the legacy of the Prairie Doc - in perpetuity - will be greatly appreciated. Your tax-deductible contribution may be sent to:

South Dakota State Medical Association Foundation
Richard P. Holm, MD Prairie Doc Memorial Scholarship
2600 West 49th Street, Suite 100
Sioux Falls, SD 57105

Annual supporters of the Healing Words Foundation, please consider your scholarship gift as incremental to that effort. Thank you.

Omega

*Robin Berke,
AG 1002*

Robin Berke, 66, of Yankton died Saturday, Dec. 5, 2020, at Avera Sacred Heart Hospital in Yankton.

Arrangements are under the direction of the Wintz & Ray Funeral Home and Cremation Service in Yankton. To watch his video tribute or to send an online message to the family, visit Robin's obituary page at www.wintzrayfuneralhome.com.

Surrounded with the love and support of his family, Robin Berke, stubbornly exhausted from the outstanding care he received from his workplace of over 40 years, decided a retirement in heaven offered him the best chance to get as far away from his work as possible. God, agreeing that Robin had filled his 66 years with three lifetimes of love and laughter, let him in.

He died on Saturday, December 5, 2020, after sharing a lifetime of happiness with his beloved family and friends. He enjoyed a short but well-deserved retirement alongside his wonderful wife of 15 years, was able to enjoy being outside, cruising around in his boat, catching some rays, and lavishing in his local celebrity status at Lewis & Clark Marina. He was a loving grandpa to four beautiful, energetic girls; and he enjoyed his time as a supportive, proud father to his amazing children.

Robin was born August 18, 1954, in Sioux Falls, the middle child of five siblings. Often championing a "distinguished" academic career (though he needed more schooling before anyone would hire him) he was the first in his family to graduate from college. He received his Bachelor's degree from the University of South Dakota and graduated from the Avera Sacred Heart Hospital School of Radiology. After much schooling (i.e., beer drinking), he established a life in Yankton, where he had two children, remarried, became a father to two step-children, and shared his dream home overlooking the lake he loved so very much.

Robin spent 41 years of his professional life in healthcare. He started as a staff tech, became the program director of the School of Radiology, before ending his career in a leadership position as the Director of Diagnostic Imaging at Avera Sacred Heart Hospital. He was so very proud of the students he taught in the Radiology program along with the many people he served with in his department and throughout the hospital. Some of his fondest memories came from the relationships he generated while serving in his profession.

Although Robin "loved" work, he will be far better remembered for his willingness and graciousness to share his life and time with others. He truly loved spending time with his family and friends, celebrating and laughing, and he really enjoyed every moment spent with the ones he loved.

Robin Berke

(continued)

Robin is survived by his wife, Charlene; daughter, Christina (Justin) Coleman; son, Collin (fiancé, Alaina Novotny); step-daughter, Zara Schroeter (Bree Dunn); step-son, Zachary Schroeter; granddaughters: Alanna Schroeter and Kayla, Olivia, and Emme Coleman; three siblings: Greg (Heidi), Deb (Jerry) Barber, and Bruce (Rena); sister-in-law, Becky Berke; and many nieces, nephews and other relatives and friends. Robin was also a son-in-law to Dori and Loran Palmer, and brother-in-law to Pat Dufault, Christine (Wade) Bischoff, and David (Angie) Dufault.

Robin was preceded in death by his parents, Jerrold and Florence (Granum) Berke; and his brother, Jerry Berke, Jr.

Robin's family has asked that anyone wishing to send flowers please consider making a donation in memory of Robin Berke to the Avera Foundation at Avera Sacred Heart Hospital, 501 Summit Street in Yankton, SD 57078 or at <https://www.avera.org/support/donate>. Cards may also be mailed to Charlene Berke at 103 Marina Bluffs Court Unit 2B in Yankton.

Due to the current health situation, a celebration of Robin's life will take place at Lewis and Clark Lake in Yankton at a later date. Arrangements are under the direction of the Wintz & Ray Funeral Home and Cremation Service in Yankton.

Omega

*Todd Clausen,
AG 1509*

Todd David Clausen, 49, of Sioux City, passed away peacefully on Aug. 29, 2020, surrounded by his family, after a heroic three year battle with stage four pancreatic cancer.

Private family services will be held Friday. Burial will be in Graceland Park Cemetery. Visitation will be outdoors, with masks and social distancing please, from 4 to 6:30 p.m. Thursday, with an outdoor service at 6:30 p.m., in front of Morningside Lutheran Church. The Rev. Noah Ruppert will be officiating. Arrangements are under the direction of Morningside Chapel, Christy-Smith Funeral Homes. Online condolences can be left for the family at www.christysmith.com.

Todd was born on March 7, 1971, in Akron, Ohio, to Larry Duane and Dorothy Janice (Hendrickson) Clausen. He was raised in Sioux City, attending Longfellow Elementary, East Middle, and East High School, where he graduated with the class of 1990. He obtained a bachelor's degree from the University of South Dakota, where he was an active member of the Lambda Chi Alpha fraternity, and the Strollers.

He married Ivy Moss of Sergeant Bluff on April 17, 2004. They made their home on an acreage just outside Sioux City, where they have raised their two children, Samuel Raine, 14, and Laryn Janice, 12, who are both stu-

Todd Clausen

(continued)

dents at East Middle School.

During his career, Todd worked as a tracker for the probation department at Sergeant Bluff schools, and as a salesman of wine, pharmaceuticals, and, most recently and happily, Gerkin Windows & Doors.

During one of his sales trips for Gerkin, Todd came upon a car on the shoulder of I-29 near Sisseton, S.D., that was on fire with a family trapped inside. Together with another good Samaritan, Todd broke out a window of the car, pulling to safety an infant and an adult passenger before the flames consumed the vehicle and a remaining passenger. For his heroism, Todd was honored by the Sisseton Wahpeton Oyate of The Lake Traverse Reservation with a blanket ceremony, and was later awarded the Carnegie Hero Award for Acts of Civilian Heroism, both of which he accepted with humility, grace and appreciation. He struggled with unwarranted guilt in being unable to save the remaining passenger.

Todd's favorite activity was, with his wife Ivy, being a dedicated and loving parent to his children, Sam and Laryn. The most difficult part of his brave fight with cancer was his concern for their well-being.

Todd and his family are very grateful to Dr. Nancy Schenk, the doctors and staff at the June E. Nylén Cancer Center, and Dr. Mark Truty, Dr. Travis Grotz, and the other doctors and staff at the Mayo Clinic in Rochester, Minn. Thanks to their expertise and loving care, Todd was a medical miracle, crushing the statistics for stage four pancreatic cancer survival. Todd's participation in Dr. Truty's cutting edge trials helped advance the treatment of pancreatic cancer.

Todd and his family are also very grateful to the owners of Gerkin Windows & Doors in South Sioux City and his fellow employees there, for their extraordinary understanding, support, and assistance during his battle. He truly loved working there.

Todd is survived by his wife, Ivy; son, Samuel; daughter, Laryn; father, Larry Clausen; sister, Tami (Jim) Daane; brother, Tim (Paula) Clausen; and grandmother, Marvis Hendrickson.

He was preceded in death by his mother, Dorothy; and his nephew, Christopher Clausen Daane.

Memorials have been established for Sam and Laryn's educations at Great Western Bank.

Published by Sioux City Journal from Aug. 30 to Sep. 2, 2020.
