What is our satisfaction rate?

★★★★★ 4.95/5 based on 988 reviews

Don't take our word for it...

"As an attorney, I've encountered numerous fall-related cases leading to harm and litigation. Diitect is an indispensable tool, enabling timely intervention and reducing liability risks, protecting both individuals and businesses from the complexities of legal disputes." - Adam N.

Every minute after a fall is crucial for getting the right care and improving outcomes

More than **8 million** emergency room visits occur each year because of slip and fall.

Sixty percent of accidental deaths in restrooms are caused by falls.

One in three people over the age of 65 will experience a fall in a public restroom.

Falls are the **second-leading** cause of injury-related death for people over 65.

Heart Attacks, Strokes, and Diabetes, contribute to falls

Heart disease could affect at least **60% of adults** by 2050.

Stroke rates will **double**.

Diabetes rate is expected to rise from 16.3% to **60.6%**.

Americans aged 65+ are projected to increase from 58 million to **82 million**.
