

# CON-SERV

## MANUFACTURING

**Standard are the Obvious Con-Serv Qualities:**

User Friendly ■ Quality Construction ■ Performance ■ Low Cost to Operate ■ Inexpensive to Purchase

## Chemicals

Con-Serv Manufacturing proudly represents the Complete Line of Avista Technologies Chemical Treatment Products for membrane based equipment. Avista Technologies has a complete line of Antiscalants, Antifoulants, Membrane Cleaners and Bio control products for the water treatment professional.

### **RoQUEST™ COAGULANTS AND FLOCCULANTS**

Organic and inorganic/organic polymers are injected ahead of clarifiers and/or multimedia filters to enhance filtration and reduce colloidal fouling of RO membranes.

### **VITEC™ ANTISCALANTS AND DISPERSANTS**

Formulated specifically for membrane separation processes. Feature enhanced scale control, dispersant capabilities and compatibility with upstream chemicals. The Avista Advisor CD is available to calculate dose rates based on specific feedwater analyses.

### **RoCLEAN MEMBRANE CLEANERS**

Broad spectrum liquid and powder cleaners remove scale, biological, organic, colloidal and other types of membrane foulants. Formulated to maintain optimum pH over a wide temperature range.

**Membrane cleaners  
available in powder  
or liquid form**

### **RoCIDE™ NON-OXIDIZING BIOCIDES**

Formulated for shock treatment or on-line use or for continuous injection to reduce or prevent biofouling in membrane systems.

Contact our Engineering staff and they can discuss the appropriate chemicals and run the dosing calculations for your system or project.
