Complex Description 40 Marina Style Apartments

Assessor's Parcel Number: 26-738-2

Recession Proof investment. True hedge against inflation

This very nostalgic 3 story marina style building property located at 2624 Foothill Blvd in Oakland California. Building description size is 29,423 square feet with 40 units. It is a great central business district location. It is in the heart of Oakland’s Fruitvale district close to Lake Merritt. It has a concrete foundation, wood frame on .26-acre lot. The majority of the units have been substantially renovated. With 37% upside in rents, this building allows the next owner to increase returns and leverage investment in the hot Oakland market.

The subject is a 40-unit apartment building which is three stories over a basement with 37% upside in the rents. The prior owner replaced reportedly rough ½ of the windows. The subject has key fob entrance. There is a beautiful penthouse that has a view. The basement has a poured concrete foundation and perimeter walls and an open beam ceiling. The subject has no deferred maintenance and is in good condition. The complex unit mix is 18 studios, 19 (1) bedrooms and 3 (2) bedrooms. The property is individually metered for gas and electricity. There is a laundry room generating extra monthly income and as a convenience for the residents. The interior finishes of the units contain carpet or wood flooring in living and bedroom areas, tiled flooring at kitchen and bathrooms areas, painted drywall walls and ceilings. Kitchens contain plastic laminate countertops and wood cabinetry. Bathrooms contain wood cabinets with cultured stone sinks and baked enamel tubs with fiberglass and ceramic tile shower surrounds.

The building improvements at the property consist of a three-story apartment building totaling approximately 29,423 rentable square feet. Construction is typical wood framing with concrete foundation walls raised to create a partial basement on the southern portion and slab on grade foundation on the northern portion. The exterior finishes consist of painted brick veneer and stucco siding. The flat roof contains built up covering. Units are heated by electric wall heaters. Domestic hot water is provided by a central gas fired boiler located in the basement. Domestic water lines are copper, electrical wiring is copper.

The property at 2624 Foothill Boulevard in Oakland, CA has strong investment potential due to its proximity to major employers, transportation routes, shopping centers, dining venues, and entertainment options. It is an attractive option for renters seeking convenience and accessibility. The combination of a robust economy and desirable location make this property a promising investment opportunity in the Oakland real estate market.

The above income and expenses are only estimates because of occupancy changes and renovation. Although the information contained herein is deemed reliable, no representations of any kind, expressed or implied are being made as to the accuracy of such information. All of the data in this prospectus are estimates and approximations to include square footage. Any prospective purchaser and their tax and legal advisor should carefully verify all information contained herein and conduct an independent investigation to include engaging contractors and engineers to complete inspections. Seller bears no liability of any errors, inaccuracies, or omissions.

Overview Kensington Manor Apartments:

We are pleased to present the Ownership with this disposition analysis for the fee simple interest in the Kensington Manor Apartments, a 40 unit, Class C garden-style apartment community located in Oakland, CA in the East Bay area of the Greater San Francisco Metropolitan Area.

Our analysis considers the historic financial performance of the Property; current asking rents and occupancy of similar apartment communities within close proximity of the Property; sales of similar properties throughout the Oakland, Piedmont and Berkeley multifamily sub-market; and current trends in the multifamily capital markets.

Overall, we believe the Kensington Manor will attract significant investor interest in the current capital market environment if priced correctly. Oakland is one of the most highly desired core apartment markets in the Bay Area. Investors are drawn to Oakland because of the limited inventory, future projections of rent prices, historic value, commuting options, proximity to major employment centers, increase in single family housing prices, access to diverse restaurants, retailers, parks and recreation areas all contributing to high quality of life for tenants. The property has a great location within walking distance of BART, schools, and high end restaurants and retailers that populate its downtown area. Kensington Manor features a desirable unit mix of Studios, One, two bedroom units with quality unit amenities and value-add potential through a cosmetic upgrade program of the units and implementation of RUBS program.

Renovation Upside - A New owner will have the opportunity to implement a custom interior renovation program across the unrenovated units with an estimated average rent upside of 34% per unit.

Strong Market Fundamentals - Per CoStar average rents in Oakland are almost \$2,365/month, around \$705 above the National average. Landlords in Oakland are able to achieve a premium in average rental rates, even with the inventory of units consisting almost entirely of older 1 & 2 Star product.

Rare opportunity – Kensington Manor represents a rare opportunity to purchase a quality multifamily asset in a high barrier to entry market. Sales comparables of similar properties in the area show that this deal is heavily discounted due to the current money market environment. In the long run, the rate of return is unmatched. This is the first time this property has been available in many years.

Irreplaceable Location – Kensington Manor is conveniently situated within easy distance to BART and downtown Oakland providing residents with a transit-oriented, pedestrian-friendly community. Additionally Interstate 580 on and off ramps are under 1 mile away.

Abundant Local Retail - Access to numerous local restaurants, retail centers and grocers. A short 7 minute drive to a myriad of high-end retailers and restaurants in Downtown Oakland which over the past decade has emerged alone of the premier dining and shopping destinations in the Bay Area.

High Interest Rates - Interest rates have doubled and in some cases even since the historic lows experienced during Covid. Additionally, lenders have increased their lending requirements with the minimum down payments starting as 50%. Due to the sticker shock of the capital markets, many investors are opting to sit on the sidelines and wait until rates improve. Not only do new owners have the unique opportunity to assume a loan worth 2/3rds of the price at a low 3.6% interest rate, but the Fed announce this week that it intends to lower interest rates in three different occasions in 2024. That being said, investors have the unique opportunity to purchase the property now at an attractive price they may not be able to find later when interest rates pull back and multifamily pricing increases. Once interest rates drop they will have the opportunity to refinance and lessen their debt service, thus increasing their overall return.

Weak Demographics & Crime - Low median income. Oakland continues to have one of the highest average rental rates in the country, and with neighboring submarkets like Emeryville and Berkeley being 40% more expensive, more and more workers will choose to live in Oakland as inflation rises and budgets constrain. Especially considering Oakland boasts shorter commute times to job centers compared to more costly submarkets. Additionally, Oakland's median home prices are rising quickly so that currently renting offers a 63% discount owning a home. Residents' tightening budgets to battle historically high inflation is causing more working class citizens to rent. That being said, the increasing supply of tenants means better applicants to choose from. The property has a history of high occupancy and no late or non-paying tenants which is true today, despite the covid moratorium. On top of this, new owners will enjoy the guaranteed income from government assistance, giving them reassurance they will hit their bottom line.

Class A Opportunities in the Same Area - Over 19,000 units have been added on a net basis over the past five years in the East Bay, equating to a percentage change of 10.9%. another 4,100 units are underway as of the fourth quarter of 2023. The current pipeline will expand the metro's inventory by 2.2%, with friendlier live/work/play environments near public transportation. Nonetheless, 4 & 5 Star quality new construction will see the most pressure of the down economy in coming quarters, as around 80% of the units in the pipeline are un luxury communities. Already, trailing 12-month rent growth in this category is 2.6%, which paces well behind 3 Star and 1 & 2 Star growth of 0.0% and 0.1%, respectively. Furthermore, population demographics also play a role in submarkets. Higher net worth individuals will opt to live in more desirable submarkets such as Dublin/Pleasanton/ Livermore and Walnut Creek/San Ramon. These submarkets lie in the eastern portion of the metro but consist of populations with higher median incomes and boast desirable lifestyle and community amenities, as well as public transportation access. These factors support rental rates above the metro average, thus, investors who are wanting to save on maintenance cost are better of purchasing Kensington Manor which has little to no deferred maintenance than spend a top dollar on newer construction that will not perform as well.

The property Kensington Manor in Oakland, CA has strong investment potential due to its proximity to major employers, transportation routes, shopping centers, dining venues, and entertainment options. It is an attractive option for renters seeking convenience and accessibility. The combination of a robust economy and desirable location make this property a promising investment opportunity in the Oakland real estate market. It is a great central business district location. It is in the heart of middle east Oakland neighborhood. Residents enjoy the convenience of the subject property's location, only one block from the Eastmont Mall Shopping Center with its retail shops, restaurants, and grocery stores.

Complex Location: The complex is conveniently located near Interstates 80 and 580, making it a short 20 minute drive to San Francisco and just 10 minutes to Alameda, Lake Merritt, Jack London Square, the Oakland International Airport and downtown Oakland. Tenants are only a short walk to many restaurants, shopping and number of services and amenities, including the Fruitvale BART Station. The nearby Fruitvale shopping district is one of the major commercial hubs in Oakland and is home to many foreign businesses and several annual cultural events and festivals.

Commission-Brokers-Owner is a principal and not a broker. A selling commission will be negotiated, and an amount will be paid for the procurement and actual consummation of the transaction. If a buyer is procured and the sale is not consummated for any reason a commission will not be due payable.

One of the Hottest Apartment Markets in the Country-Oakland continues to be one of the leaders in the nation's apartment market in rent growth.

The Fruitvale Village is a successful national model for livable communities created by the Unity Council in the early 1990s. initially conceived as a multi-phase revitalization development project, the Fruitvale Village expanded successfully beyond the initial goals of coordination of public transportation and land use planning between a low-income, inner city community, transit agency and local municipality. Combining the older Fruitvale with the new Village produced a distinctive urban space for daily visitors to experience an opportunity to shop, eat and rest in a safe and pleasant setting.

Fruitvale Village Phase One was developed by the Fruitvale development Corporation, a support corporation of the Unity Council, and offers a unique retail opportunity because of the range of employees and daily visitors utilizing the services and transit facilities that are available at the site. The Fruitvale Village retail plaza is located at the entrance to the Fruitvale BART station, East Bay's 4th busiest station and 9th most widely traveled station in BART's 31 station system. Additionally, the Village is also adjacent to the bustling Fruitvale commercial district that has experienced a dramatic transformation over the past 10 years and has been recognized as one of the leading neighborhoods in the national Main Street Program.

Fruitvale Village Phase two is the continuation of the Unity Council's revitalization plan for Fruitvale. This plan will bring new residents and homeowners to the Village and foster 24-hour, 7-day vibrancy and sense of community that will further strengthen the commercial and retail components located at the Village retail plaza. The guiding principles for the Phase Two development will be to provide for mix-income homeownership residential units; to incorporate state of the art green building & energy saving systems; to build the maximum number of dwelling units; and that it be an award-winning architectural product.

Location- The subject is part of the Fruitvale District in Oakland. This neighborhood is bounded by 14th Ave and I-580 to the north, High St to the southeast and I-880 to the southwest. Fruitvale has a BART Station at San Leandro St and 35th Ave. Access to I-880 is at Fruitvale Ave, 29th Ave and 23rd Ave. access to I-880 is better in the southern end of the neighborhood. Access to I-580 is at 14th Ave, Fruitvale Ave, 35th St and High St. Access to I-580 is closest to the north side of the neighborhood.

The subject is located on the north side of Foothill Boulevard on the block which is bounded by 26th Ave to the west and 27th Ave to the east. The subject also fronts on the south side of East 20th St. In front of the subject, Foothill is two lanes, has all street improvements in place and allows free parallel parking. Across from the subject on Foothill are other apartments. Across from the subject on E 20th St is an apartment and laundry. To the west and east of the subject are other multi-family uses.

Oakland is a vibrant and diverse city located in the heart of the San Francisco Bay Area, known for its unique cultural mix. It has a thriving arts scene, a bustling downtown district, and several major sports teams. The city's housing market is highly competitive, with a mix of historic and modern properties that cater to a wide range of renters. The cost of living in Oakland is more affordable than other Bay Area cities, making it an attractive option for those seeking an urban lifestyle without breaking the bank. In terms of location, some of the most desirable neighborhoods for multifamily real estate in Oakland include Temescal, Rockridge, and Montclair.

Additionally, the proximity to major employers, such as the tech companies in Silicon Valley and the healthcare industry in Oakland itself, makes these neighborhoods highly sought after by renters. Overall, Oakland's diverse neighborhoods, thriving culture, and growing economy make it an ideal location for multifamily real estate investments.

According to the California Department of Finance, the population in Alameda County was 1,510,303 in 2006, which is a 0.7% increase from the 2006 population of 1,500,228. Population for the county is anticipated to continue growing at a similar rate in the foreseeable future. Its growth and popularity can be attributed to its mild climate, close proximity to the coast, varied job opportunities and suburban residential communities. The estimated unemployment rate for Alameda County for July 2007 was 4.0%. this compares with an unadjusted unemployment rate 5.5% of California and 4.9% for the United States. In summary, Alameda County is experiencing steady growth in all areas due to its location, influx of major business opportunities, and overall economic stability. This trend is anticipated to continue into the near future.

Adjoining Property Information- During the vicinity reconnaissance. observed the following land use on properties in the immediate vicinity of the property. The adjacent property use is not anticipated to negatively impact the environmental integrity of the property.

Market Area Description- the subject property is in an established location with limited land for development. The

subject is located towards the southeastern portion of the City of Oakland, in Alameda County and it's situated on the north side of Foothill Boulevard, between 26th and 27th Avenues. The subject's immediate area is characterized as a residential area. Other residential uses include condominiums. Commercial development lines major thoroughfares such as Fruitvale Avenue and E 14th Street. Typical commercial buildings range from 30 to 70 years old, are in average condition, and are easily accessible from the subject. Mixed-use properties containing both residential and ground-level commercial are common in this area. Community services and facilities are readily available in the surrounding area. These include public services such as fire stations, hospitals, police stations, schools (all ages), and public transportation. There are a number of parks, golf courses, and other recreational facilities in the area. The following table summarizes the demographics for the subject area. As noted in the table below, limited growth is anticipated to occur in the subject's market area (3-mile radius) over the next few years. The area is anticipated to remain stable in the foreseeable future.

Oakland-The subject property is located in the city of Oakland, which is the largest city in Alameda County and offers the largest selection of reasonably priced commercial and properties in the Bay Area, with 5.4 million square feet of Class A office space under construction. Other amenities in Oakland include The Port of Oakland, an independent agency of the City of Oakland and the third-largest containership port on the West Coast. The Port of Oakland is the fourth-largest seaport in the nation and handles 99 percent of all the containerized cargo that passes through Northern California.

Downtown Oakland is the commercial and cultural heart of San Francisco's East Bay. The revitalized 350-block Commercial district is home to shops, restaurants, cafes, entertainment venues and art galleries, as well as major corporations and local businesses.

The Port of Oakland also operates the Oakland Metropolitan International Airport, which covers an area of approximately 2,580 acres. The airport has a 10,000-foot fully instrumented main runway that can be extended to 12,500 feet, and a large terminal complex, capable of servicing up to 2,500 passenger arrivals and departures per hour and is located nine miles from downtown Oakland.

In recent years, scores of new businesses and residents have moved into the downtown and the 75,000 person daily workforce continues to expand. The Lindauer Index ranked Oakland the #1 office market in the nation. Major new features include 555 City Center, Shorenstein's spectacular 21-story office tower and thousands of market-rate housing units spurred by Mayor Jerry Brown's drive to attract 10,000 new downtown residents.

The standard definition of the San Francisco Bay Area is the nine-county region that encompasses the waters of greater San Francisco Bay, which has shaped the region's history and continues to shape its economy. The nine counties-San Francisco, Marin, Solano, Sonoma, Napa, Contra Costa, Alameda, Santa Clara, and San Mateo-are home to a population of approximately 7 million in a 7,000-square-mile area. The Bay Area is the fifth largest metropolitan area in the country, after New York, Los Angeles, Chicago and Washington D.C. It is the 36th largest metropolitan life in the world, ranking between Lahore and Johannesburg. The Bay Area is a region of world-class cities and small towns with distinct personalities.

Although the area's cities and suburbs once stood apart, separated by farmland, today urban and suburban development has melded them together. But this physical unity is deceptive. The governmental system includes five regional agencies, 100 cities, 162 school districts, and nearly 1,000 special districts. Three cities stand out: San Jose, with more than 926,000 people, is the country's 11th largest; San Francisco is the 13th; and Oakland the 42nd.

San Francisco is the capital of culture, with the largest number of well-established cultural institutions. They include ballet, classical music, art, and the San Francisco Opera, which is regarded by many as one of the top 10 opera houses in the world. The city is also the news media center for all of Northern California and has been the West Coast's financial hub for 150 years. San Francisco's centrality is fading as other parts of the Bay Area grow. Some of the city's population is moving into the suburbs and the suburbs of former suburbs-and Silicon Valley is spreading and transforming other nearby parts of the Bay Area.

The East Bay possesses a diverse economic base featuring a wide range of manufacturing industries'(transportation

equipment, computer, food processing, fabricated metal products, non-electrical machinery, and stone-clay-glass products). In fact, East Bay has the most diversified manufacturing sector in Northern California. The fastest growing sector in the area is services, but manufacturing continues to grow. The Port of Oakland, the third largest containership port on the West Coast, is a major economic engine in the East Bay as well as the Bay Area as a whole.

Far less congested than San Francisco International, and more centrally located for the East Bay, Oakland International is becoming the people's choice for air travel. Oakland international is a West Coast distribution center for Federal Express, UPS, Airborne Express, Burlington Air Express, and Emery Worldwide, eleven commercial airlines provided more than 1,400, non-stop, direct or connecting flights weekly to destinations in the United States, Canada, Europe, and Mexico.

The growth of Bay Area trucking has been fueled by distribution needs of region's industry and agriculture. Due to the high volume of ship container traffic from the Port of Oakland and the widespread use of advanced management techniques, virtually every major trucking firm in the nation has at least one terminal in the Bay area. In fact, there are over 1,000 registered trucking carriers in the East Bay making overnight delivery service to major California cities. The East Bay has become one of the leading biotechnology research centers in the country with the research activities at the University of California Berkeley, Lawrence Berkeley National laboratory, Lawrence Livermore national Laboratory, and the many private Biotechnology firms, which have located near the Universities and Labs.

Between the year 2010 and the year 2021 Alameda County population has increased each year. The population has increased 9% from 1,500,000 in 2010 to 1,600,000 in 2021. The California population grew by 5.1% and the US population by 7.3%. Alameda County’s population is outpacing the state and US

EAST BAY POPULATION

County/Year (PMSA)	1980	1990	2000	Incr/1990	2010	Incr/1990	2021
Alameda (Oak)	1,105,379	1,304,684	1,443,741	10.66%	1,500,000	19.31%	1,600,000

The East Bay is a mixture of heavy industry (oil refineries, Oakland's container port); knowledge industries (software, biotech) developed around universities and scientific laboratories; and suburban offices, housing, and service industries. A bioscience cluster has developed around the University of California, Berkeley.

Transportation-The East Bay's transportation network has fostered the growth of all types of real estate. The Port of Oakland, an international airport, rail service by four carriers, and a network of interstate and state highways have played important roles in the development of the area. Five principal highways connect the East Bay with adjacent counties. Interstate 80 leads west to San Francisco via the Bay Bridge and east to Sacramento. Interstate 580 connects the East Bay to the Central Valley and Southern California, via Interstate 5. Interstate 680 serves the area in a north-south direction. Interstate 880 accommodates north-south traffic circulation on the east shore of San Francisco Bay. Highway 24 links Oakland with eastern Contra Costa County, passing through the Caldecott Tunnel.

Transbay bridges include the San Francisco-Oakland Bay Bridge, which extends interstate 80 into San Francisco; the Richmond-San Rafael Bridge, leading into Marin County and northern areas; and the Hayward-San Mateo and Dumbarton Bridges connecting East points with San Mateo and Palo Alto on the San Francisco Peninsula.

The Southern Pacific and Union Pacific Railroads, which were recently merged, operate rail terminal facilities in Oakland. Acheson Topeka, and Santa Fe Railway serves the East Bay from its Richmond switching yards, Amtrak provides service through its Oakland and Emeryville stations to Southern California, Sacramento, and other destinations.

Local motor coach transportation is provided by AC Transit, which serves East Bay cities and continues into San Francisco via Bay Bridge. Other bus services are available through the Central Contra Costa transit District, the Livermore Transit Corporation and Greyhound bus lines. San Mateo County transit district provides bus service between Hayward and the San Francisco Peninsula across the Hayward-San Mateo Bridge. Oakland and Alameda County are also served by the Bay Area Rapid transit District (BART), a high-speed rail transit servicing the counties of Alameda, Contra Costa, and San Francisco.

Sea and Air Cargo-The Port of Oakland, an independent agency of the City of Oakland, is the third largest container-ship port on the West Coast and ranks among the top 4 in the nation and 20 in the world in terms of annual container traffic. The Port has approximately 759.3 acres of developed terminal area, served by 35 container cranes, including 29 of the post-Panamax type, and 20 deep-water berths with a total of more than 20,000 linear feet of berthing length. The fourth largest seaport in the nation, the Port of Oakland handles 99% of all containerized cargo that passes through Northern California ports. Located at the terminus of three transcontinental railroads and four interstate highways, the Port of Oakland is a Key West Coast intermodal connection and the hub of Northern California's distribution system. The Port handled the equivalent of 1,923,104 twenty-foot containers.

The Port of Oakland also operates the Oakland metropolitan International Airport, which covers an area of approximately 3,000 acres, and is located nine miles from downtown Oakland. The airport serves more than 9.8 million passengers and handles more than 1.4 billion pounds of cargo annually. Oakland Metropolitan International Airport has 10,000-foot fully instrumented main runway that can be extended to 12,500 feet and a large terminal complex, capable of servicing up to 2,500 passenger arrivals and departures per hour. A separate International Arrivals Building has customs inspection and baggage claim facilities for handling 500 passengers per hour. The runways, taxiways and plane positions at both cargo and passenger terminals have jumbo jets capacities. Primarily general aviation aircraft also use three other runways. Operations of these general aviation runways are controlled from a separate tower.

Education-The Bay Area has a wealth of top-flight universities and colleges, including the two top-ranked graduate schools in the country, as well as one of the nation's top ranked medical schools. The Bay area is home to excellent institutions of learning.

Opportunities range from extending formal education to acquiring new skills or to simply taking courses of interest. Given the changing technologies driving and sustaining virtually every American industry, business can ill afford to ignore the educational background and enrichment of their workforce. Bay Area companies continually tap into the University of California at Berkeley's extraordinary Resource Can expertise in technology, medicine, business, and public policy. In fact, fancy high-tech. and biotech companies have spun off research originally conducted at Berkeley. Nearby, there are other top public and private colleges, such as Oakland's Mills College California State University, Hayward; Holy Names College; California College of Arts and Crafts; University of California, San Francisco And Davis; and Stanford University.

Educators in the East Bay are forging new programs to build a better-educated workforce for the future. A variety of learning sites provide alternative educational opportunities, which are meant to bridge the gap between school and work. Some programs that have effectively been doing this include, Partnership Academies, which integrate academic and vocational education; Technical Preparation (or linking high schools with community colleges; and Regional Occupational centers providing students and adults with career development and technical training.

Research and Development-The East Bay operates programs that make institutional research available for practical application by the private sector. This is a key factor in the region's global competitiveness. With world-class research universities and eminent national laboratories, Alameda County is a leading force in technology transfer; The Lawrence Livermore and Sandia National Laboratories, in collaboration with Ernest O. Lawrence Berkeley National Laboratory, seek opportunities to work with large and small companies to actively share their expertise.

Multifamily Is Most Attractive Asset Class, Survey Finds

Its mid-year report looks at where interest rates were thought to be, and where they are now.

By Richard Berger | September 21, 2023 at 07:40 AM

Apartments are the place to be, according to investors polled in CBRE's Global Investor Intentions Survey.

Its "Midyear Pulse Check: U.S. Multifamily Market" report laid out the most common concerns in commercial real estate overall – interest rates, credit availability, state of the economy – but for the first time, the survey taken in late 2022 said that they would target multifamily properties more than any other property type.

Nearly 70% of those operating in the Americas said they expected to keep their allocation to real estate about the same in 2023. Another 20% said they expected it to increase.

The Sunbelt and several Midwest and Northeast markets, including Indianapolis and Boston, were a focus.

Those markets "provide near-term rent growth potential since they did not have a glut of new construction," according to the report, and "offer significant cost savings relative to other areas of the country."

The four primary concerns they expressed – rising interest rates, credit availability, fear of a recession, and persistent inflation – played out, but mostly not to as dramatic a level as some anticipated.

The Federal Reserve on Sept. 20 indicated that they will likely have one more interest rate hike in 2023. Putting it above the current range of 5.25% to 5.50%, that is slightly higher than initial investor expectations from the survey.

At the Fed meeting this week, Fed Chair Jerome Powell said 12 Fed officials said they would support one more hike this year and seven said they'd support staying flat.

The Fed noted that the economy has been expanding at a "solid" pace — an update from a "moderate" pace.

CBRE last week said it expects the Fed to begin slashing interest rates in the first half of 2024 with the fed funds rate ending the year between 4.50% and 4.75%.

With credit availability, more than 90% of respondents to CBRE's 2023 U.S. Lender Intentions Survey said their underwriting would be more conservative, and 68% expected lower originations in 2023.

"This is consistent with actual market performance so far this year," CBRE said.

"Near-term recession expectations have become much less certain as the year has progressed. While some economists envision a 'soft landing' for the economy, CBRE expects a moderate recession to begin in early 2024 as the lagged impacts of tight monetary policy more fully take hold."

Inflation has seemingly peaked in 2023, as those polled believed. The Consumer Price Index (CPI) has been steadily falling since peaking at 8.9% in June 2022 and currently stands at 3.7%.

CBRE said it expects annual inflation to end the year at 2.9%, compared with more than half of surveyed investors' earlier expectations of more than 4%, according to that late 2022 poll.

"As inflation and interest rates further stabilize, we expect greater investment activity over the next 18 months. As the favored asset type for investors, multifamily will likely be the first to benefit," it said.

Strong Demand for Multifamily to Continue into 2024

Meanwhile deliveries are roaring ahead with the year expected to surge 51.1%.

By **Barbara Ballinger** | September 13, 2023

Demand continues to remain solid for the multifamily asset class as absorption in this year's first half surged to 98,429 units with an increase of 83,449 units in the second quarter of 2023, according to a new report by Newmark. This number almost quadruples absorption from last year's first half, and demand is expected to accelerate in the second half of 2023 and beyond to the first half of 2024.

So far supply – set to reach a 50-year high this year – is keeping pace. Already in this year's first half, 198,806 units were delivered, a record, and total deliveries for the entire year are projected to surge 51.1% year-over-year. Deliveries are also expected to increase in the second half through 2024.

In the four quarters ended in the 2Q of this year, the median market saw inventory growth by 2%. Ten out of 150 markets experienced growth above 5%. But over the next four quarters, change is coming with this measurement set to grow by 3.2%, including in 28 markets with inventory growth of 5% or more. As most markets reflected more new deliveries and with that expected to continue, some markets may be slower to absorb new inventory. But even if that turns out to be true, absorption in 40 of the top 50 markets is still expected to outpace the 2018-2022 annual average.

Meanwhile, for the first time in three quarters, multifamily had positive effective rent growth quarter-over-quarter in the second quarter of this year. Midwestern markets made up six of the top 10 markets for greatest YoY effective rent growth. However, rent growth continued to slow YoY.

Worth noting is that multifamily expenses increased a significant 8.3% Y-o-Y, mostly due to a 28.6% rise in insurance costs, which along with management and other expenses put a strain on landlords. Also, on the to-be-watched list is how price dislocation and the higher interest rate environment hinder the investment sales market, evidenced by the 71.8% YoY decline to \$28.2 billion in quarterly sales volume.

Cities With the Most and Least Expensive Apartment Rents

New York City tops the list as the most expensive U.S. city to rent a one-bedroom apartment—\$3,260—while Wichita, Kansas ranks as the state with the least expensive on-bedroom rent—\$650, [according to a report](#) by Zumper, a renters assistance organization.

Cities With Most Expensive Rents

Ranking	City	Monthly Price for One Bedroom
1	New York City	\$3,260
2	San Francisco	\$2,910
3	Boston	\$2,660
4	Miami	\$2,500
5	San Jose, California	\$2,420
6	Los Angeles	\$2,300
7	San Diego	\$2,280
8	Washington, D.C.	\$2,230
9	Oakland, California	\$2,070
10	Santa Ana, California	\$1,950

After a year of substantial rent growth, Miami passed San Jose to become the fourth most-expensive rental market, the report says. The shift in the rankings shows how quickly rent has increased in Miami and how slow rent growth in the San Francisco Bay Area continues to be.

Cities With Least Expensive Rents

Ranking	City	Monthly Price for One Bedroom
1	Wichita, Kansas	\$650
2	Akron, Ohio	\$680
3	Lubbock, Texas	\$690
4	Shreveport, Louisiana	\$730
5	Lexington, Kentucky	\$800
6	El Paso, Texas	\$810
7	Laredo, Texas	\$810
8	Baton Rouge, Louisiana	\$820
9	Oklahoma City, Oklahoma	\$830
10	Tucson, Arizona	\$840

Rent in 2022 is rising faster than in 2021, according to the report. In March, the average one-bedroom rent nationally rose to an all-time high of \$1,400, which represents a growth of 2.5% for the calendar year so far. This is higher than the 1.9% rise experienced over the same period last year.

East Bay Establishes Itself As Regional Housing Leader

Emeryville Mayor Dianne Martinez said during a *Bisnow* East Bay State of the Market digital summit on May 27 that the city has been focusing on the twin efforts of increasing housing at all levels of affordability while making the city a friendlier atmosphere for a diverse range of businesses.

The dual approach has been crucial in driving the city to its position as one of the **leading life sciences clusters in the country**, she said. Although the sector hinges on proximity to the University of California, **Berkeley**, a robust supply of **affordable housing** relative to other parts of the region and a strong public transit system help make companies attractive to employees.

Emeryville's rising status isn't without challenges. The city is only 1.25 square miles, putting constraints on development that are familiar to many municipalities in the Bay Area. But this feature also manifests as a quality-of-life bonus, as the small layout simplifies travel for the city's approximately 12,000 residents, Martinez said.

In 2018, Emeryville voters passed a **\$50M affordable housing bond**, and the city recently completed a \$64M expenditure package to increase affordable housing creation, Martinez said.

The East Bay's housing wealth has been at the forefront of change over the past year. **Alameda County**, which includes Emeryville, was second on the list of top destinations for Bay Area residents who decided to move in 2020, gaining a total of 87,230 residents, according to a report from Cushman & Wakefield. A parallel influx of multifamily housing supply has kept the submarket's **rental recovery at bay**.

Emerald Fund principal **Marc Babsin** said that **Oakland's** rental market has offered an important lesson in economic supply and demand. Between 2015 and 2019, Oakland experienced skyrocketing housing rental rates fueling housing construction, much of which began to deliver in 2018 and 2019, Babsin said.

But when the **pandemic** hit, the urban cores of places like San Francisco and Oakland's Uptown neighborhood were similarly hit with double-digit rent declines, which coincided with the delivery of 1,300 housing units and another 1,200 so far in 2021, with 1,400 under construction, leading to a significant supply-demand imbalance, Babsin said.

The imbalance coupled with the **high costs of construction materials** could make future projects harder to pencil if factors don't shift.

"If you're a landlord and you've got a vacant building, every month that the unit isn't occupied, it's gone forever — you've got bills to pay — so you have more and more concessions," he said. "And now you're seeing three months free on a 15-month lease at a number of new buildings in Oakland."

Changes needed to solidify the recovery appear to be underway. According to **BayRock Multifamily** CEO **Stuart Gruendl**, **UC Berkeley's announcement** of in-person classes being held this fall has spurred rent increases in Berkeley. He said this bodes well for his firm's recent housing acquisition in Berkeley and a project under construction in Oakland.

"We're bullish long-term on those markets, and we feel very good about our investments today," he said.

Oakland Real Estate Market Trends & Analysis 2022

The **Oakland real estate market** in California has come a long way in a relatively short period. However, it is worth noting that real estate in Oakland has been the primary beneficiary of significant tailwinds originating from its neighbor across the bay: San Francisco. As one of the hottest markets in the country, its proximity to the Golden Gate City has undoubtedly increased its potential to both residents and local investors. If for nothing else, the activity responsible for making San Francisco the poster child of the latest market recovery has also made it one of the most expensive places to live in the United States and the world. As a result, the Oakland housing market has seen an influx in interest, not the least of which has worked out very well for local investors with the ability to navigate today's new marketplace.

Oakland Real Estate Market 2022 Overview

- **Median Home Value:** \$952,381
- **Median List Price:** \$858,688 (+6.1% year over year)
- **1-Year Appreciation Rate:** 18.2%
- **Weeks Of Supply:** 5.1 (-0.7 year over year)
- **New Listings:** 695.6 (-11.2% year over year)
- **Active Listings:** 3,359 (-9.9% year over year)
- **Homes Sold:** 688.8 (+5.3% year over year)
- **Median Days On Market:** 12 (+1.5 year over year)
- **Median Rent:** \$2,703
- **Price-To-Rent Ratio:** 29.36
- **Unemployment Rate:** 5.4% (latest estimate by the Bureau Of Labor Statistics)
- **Population (Metro):** 433,031 (latest estimate by the U.S. Census Bureau)
- **Median Household Income:** \$73,692 (latest estimate by the U.S. Census Bureau)

Oakland Real Estate Trends 2022

Not unlike every other real estate market across the country, Oakland has enjoyed a relatively prosperous decade. Since the Great Recession tanked the U.S. housing market around the first quarter of 2012, real estate in Oakland has appreciated for more than nine consecutive years. Today, local home values continue to test new highs, which begs the question: Is Oakland real estate a good investment?

Real estate investors participating in the market in 2012 will certainly tell you their local market has been particularly lucrative. With prices appreciating in the wake of what was a foreclosure crisis, rehabbers had a field day. It is worth noting, however, that the market is shifting. Not only did prices continue to appreciate throughout the pandemic, but a distinct lack of inventory also continues to drive prices higher.

While rehabbers still have the opportunity to run a lucrative business in the local real estate market, new and emerging indicators are making long-term exit strategies more appealing. In particular, historically high home values have left little room for profit margins on flips. In response, investors have turned to alternative exit strategies: long-term rental properties.

Three Oakland real estate market trends, in particular, look as if they will cater more to rental property owners than rehabbers for the foreseeable future:

- Interest rates on traditional loans are historically low
- Years of cash flow can easily justify today's higher acquisition costs
- Inventory shortages will increase rental demand

As of October, the average rate on a 30-year fixed-rate loan was 3.07%, according to Freddie Mac. While up year to date, today's interest rates are still historically low and incredibly attractive. Lower borrowing costs have brought down acquisition costs for those looking to add to their passive income portfolio. At their current rate, mortgage rates will save today's buyers thousands of dollars, and real estate investors will be able to pad their bottom line with years of rent checks.

Lower borrowing costs will help absorb today's high prices, but it's the cash flow potential of real estate assets that make the prospect of owning a rental property even more attractive. With a median rent price of \$2,703, it is possible to simultaneously rent out an investment property while having someone else pay down the mortgage. That way, investors could build equity in a physical asset and collect cash flow each month with the right long-term investment.

Perhaps even more importantly, the city looks to be the beneficiary of an exodus of renters from its neighbors: [San Francisco](#) and [San Jose](#). As some of the most expensive cities to live in, San Jose and San Francisco see more people travel to the East Bay in search of slightly lower prices without giving up the Bay Area lifestyle. The exodus has brought about a drop in rental rates for San Jose and San Francisco, making real estate investors the true winners.

Investors are lucky to have several viable exit strategies at their disposal. Still, none appear more attractive than building a proper [rental property portfolio](#) in the wake of the pandemic. Too many important market indicators are pointing towards becoming a buy-and-hold investor to ignore.

Oakland Median Home Prices In 2022

Oakland's median home value is \$952,381, according to Zillow. At its current price point, the median home value is up approximately 197.6% from the first quarter of 2012 (when the Great Recession was at its worst). Therefore, today's median home value is the result of more than nine consecutive years of appreciation.

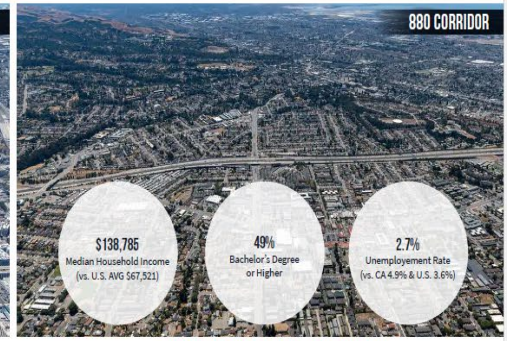

However, having increased for the better part of a decade, home prices rose at their fastest rate in the last year. Due to the supply and demand constraints facing the whole country and the departure from San Francisco to Oakland, local home values have increased 18.2% in as little as one year.

One of the largest tailwinds boosting home values is the city's proximity to San Francisco and San Jose. The overpriced valuations of its two neighbors, some of the most expensive cities in the country, have forced many people to consider the East Bay home. As a result, real estate has been desired by homeowners from three cities for quite some time. Demand slowly gave way to fierce competition, and the lack of available housing inevitably granted homeowners all of the power. If, for nothing else, there aren't enough homes to satiate demand in the Bay Area, and Oakland home values came out on top.

Summary

The *Oakland real estate market* has enjoyed a great run since the end of the last recession. On its own merits, the local housing sector not only recovered but also thrived. However, the city's proximity to San Francisco took an already good situation for investors and made it a great one. In a pandemic, prices and activity will pull back slightly, but local fundamentals and demand are too strong to keep the city down for any lengthy period. As a result, the obstacles created by the Coronavirus should be viewed as an opportunity for everyone looking to participate in the market: buyers, sellers, and investors.

SAN FRANCISCO MARKET OVERVIEW

San Francisco and the greater Bay Area is a world leader in the fields of technology, life sciences/biotech, hardware, software, social media and alternative energy, and is also home to the second largest corporate base of Fortune 500 companies in the United States. The region's robust venture capital community, leading research and academic institutions, and entrepreneurial and innovative spirit have spawned global technology and biotechnology giants including Google, Apple, Facebook, Salesforce, Oracle, Cisco Systems, eBay, Genentech and Gilead. In addition, the region continues to foster a host of next wave companies including Uber, Twitter, Dropbox, Airbnb, Square and Okta that draw upon the Bay Area's exceptional talent and creativity.

OAKLAND MARKET OVERVIEW

Major office occupiers continue to look east to Oakland to be closer to employee bases. JLL reported tenant requirements nearly doubled quarter over quarter in Q4 2021. In 2021, PG&E finalized plans to move operations out of San Francisco to 87,000 SF in Oakland's 300 Lakeside, aiming to fully occupy in 2023, while Twitter finalized its expansion into Oakland's downtown. Oakland has attracted significant Bay Area office tenant attention and there have been over 2.2 million SF in total office migrations and expansions from San Francisco to Oakland over the last decade.

880 CORRIDOR MARKET OVERVIEW

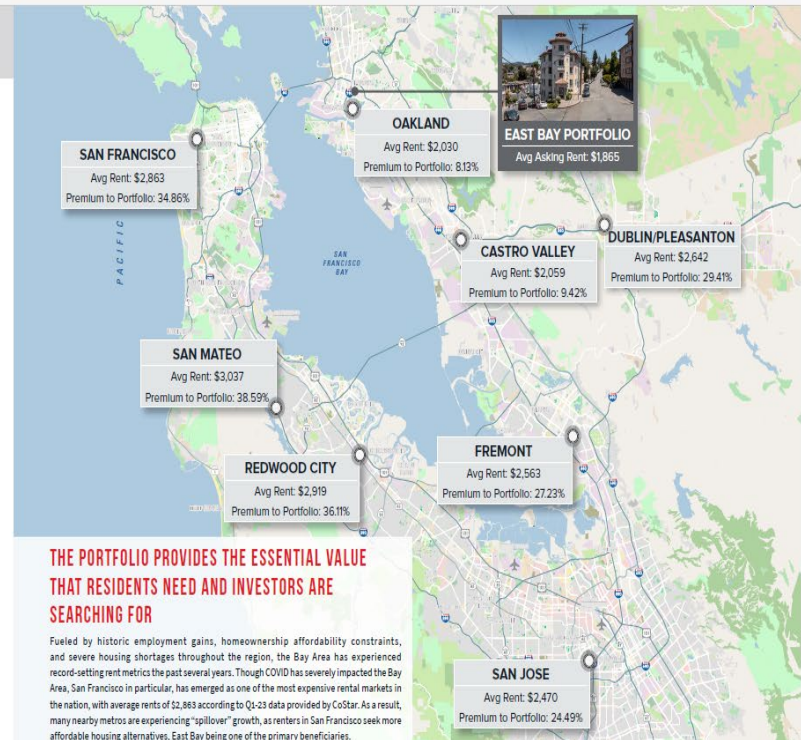

The 880 Corridor is also poised for the most growth in the Inner Bay. From East Oakland to Fremont, this is the last area to "mature," as it has been preceded in development by San Francisco, the Peninsula, and the South Bay/Silicon Valley. The 880 Corridor has formerly been home to workforce housing and industrial land uses, but its cities have been implementing more zoning for housing in recent years. Indeed, one of the characteristics of the most recent cycle has been a new activation of the 880 Corridor. In addition to its relative housing affordability at a discount to the balance of the Inner Bay, employers have been establishing outposts in the Corridor, such as Tesla's Fremont location and Facebook's Ardenwood site in Newark. BART's completed extension into San Jose and its Phase 2 to Santa Clara are further deepening the Corridor's rapid connections to all Bay Area employment hubs.

RELATIVE AFFORDABILITY WITHIN THE BAY AREA

SIGNIFICANT DISCOUNT TO HOME OWNERSHIP

Given the high home values in the area, the ability to put down 20% on a house can be difficult for even high wage earners, which makes renting the more attractive option for people looking to live in the Bay Area. The table to the right displays the difference between renting a unit in the Portfolio and buying a house in Oakland. It is roughly 63% more expensive on a monthly basis to buy versus rent and takes roughly \$172,510 (20%) down to purchase a home in Oakland. This analysis makes the Portfolio an attractive alternative to owning a home, especially for young professionals and families looking for a more affordable option with direct access to employment centers.

DISCOUNT TO HOME OWNERSHIP	
Average Oakland Home Price	\$862,852
Down Payment (20%)	\$172,510
Mortgage Amount	\$690,342
Interest Rate	5.93%
Monthly Principal and Interest	\$4,106
Monthly Tax Payment (\$11,878 / year)	\$990
Total Monthly Housing Payment	\$5,096
Annual Housing Payment	\$61,152
Portfolio Average Projected Asking Rent	\$1,865
Portfolio Annual Rental Payment	\$22,380
Discount to Home Ownership	63%

OAKLAND OVERVIEW

Oakland is the largest city in Alameda County, the third largest city in the San Francisco Bay Area, and the foundation of the East Bay market. The Oakland CBD encompasses over 22 million SF of office space, 3.7 million SF of retail, 68.5K units of multifamily residential, and 1,698 hotel rooms.

Oakland has evolved into one of the most attractive commercial real estate markets in the nation. Over the last 10 years 4.4 million SF of office space, 465,170 SF of retail space, 7.4 thousand multifamily units have been developed in Oakland. Oakland also offers a multitude of transit options including the BART, AC Transit, I-880/980/580, and Oakland International Airport, as well as a vibrant arts and culture scene featuring numerous restaurants, cafes, entertainment options, and other lifestyle amenities.

Oakland has become well known as an alternative Bay Area office hub, due to its central location and easy access to transit within the Bay Area, better value rents, thriving cultural scene, and presence of large tech offices such as Square (356K SF), Callisto Media (78K SF), Fivetran (79K SF), and Pandora Media (124K SF), Blue Shield (277K SF), Credit Karma (170K SF), Exelivis (110K SF), Delta Dental (82KSF) and UCSF/CHO (125K SF). Most recently, Twitter announced that it will be establishing a presence in Oakland and signed a 66K SF lease at 1330 Broadway. Twitter's decision was made despite its announcement to allow employees to permanently work from home and illustrates the desire for high-quality office space, despite hybrid or work from home arrangements. Twitter's choice of Oakland was largely driven by the need to attract and retain talent in the post-COVID world, underscoring the area's strong amenity base and favorable characteristics.

Office and Multifamily developers have responded nimbly to the greater interest in Oakland and have delivered over 1.5 million SF of office space and 3,346 residential units since 2019. Developers rely on their ability to continue attracting young, well-paid workers into Downtown Oakland to fill up new projects. In a city where 60% of households rent, Oakland's population grew by over 10% from 2010 through 2020, one of the fastest rates of any East Bay city.

ROBUST MARKET GROWTH

Oakland has evolved into one of the most attractive commercial real estate markets in the nation. The area has experienced tremendous growth with over 7.0 million SF of commercial space either approved for development or in planning. Additionally, office rents have risen 16% over the past 36 months, driven largely by growth in the technology sector, with FinTech companies taking nearly 50% of newly leased space in the past 12 months.

OAKLAND MULTIFAMILY MARKET OVERVIEW

DEMAND STILL OUTWEIGHS SUPPLY

Oakland's office market has produced over 1.5 million SF in new deliveries and redevelopments since 2019. In addition, there are nine projects in the pipeline totaling 7.0 million SF, with seven of the nine projects (6.1 million SF) located in Uptown Oakland.

GROWTH IN OAKLAND OFFICE SECTOR

Major office occupiers continue to look east to Oakland to be closer to employee bases. JLL reported tenant requirements nearly doubled quarter over quarter in Q4 2021. In 2021, PG&E finalized plans to move operations out of San Francisco to 87,000 SF in Oakland's 300 Lakeside, aiming to fully occupy in 2023. Data giant, Fivetran, also signed for and occupied 79,377 SF in Q3 2021 while Twitter finalized its expansion into Oakland's downtown, leasing 66,600 SF in Q3 2021 and occupying Q2 2022. Oakland has attracted significant Bay Area office tenant attention and there have been over 2.2 million SF in total office migrations and expansions from San Francisco to Oakland over the last decade. The high-technology sector has generated a substantial proportion of the growth in the Oakland office sector as tenants discover the higher quality of life, discount to San Francisco rents, and the large population base in the East Bay, which represents 40% of the Bay Area workforce overall. Looking forward, there is over 7 million SF in Oakland's office development pipeline (~75% of which is fully entitled), providing further employment and commercial growth nearby.

TWITTER OAKLAND LEASE - THE TIPPING POINT FOR FURTHER OFFICE EXPANSIONS AND GROWTH

Despite switching to a permanent Work from Home model during the Pandemic, Twitter signed a 66,000 SF lease at 1330 Broadway in 2022, located in the heart of Downtown Oakland. The office was designed to be used with a hybrid work model in mind and offers a convenient location for Oakland based commuters. The lease not only demonstrates that there is still a place for a physical office in the post-COVID world, but also underscores Oakland's attractive amenity base, which appeals to younger, high-earning tech employees. The market is poised for tremendous growth as others follow suit.

“The Oakland office market has maintained strong tenant demand from companies both growing their footprint in Oakland and those looking to move to Oakland for its strong workforce, diverse lifestyle, entertainment options, transportation, and ample housing options

- David Cropper, TMG's Director of Development

Twitter's expansion into Oakland demonstrates that major employers are still drawn to our city's unique cultural amenities and creative energy

- Libby Schaaf, Oakland Mayor

COMPELLING VALUE COMPARED TO SAN FRANCISCO

RENTAL SPREAD AND LACK OF AVAILABILITY DRIVING IN-BOUND MIGRATION

With the rental spread between San Francisco and the Oakland CBD currently at 32%, Oakland offers San Francisco users a compelling value proposition to San Francisco's rapidly escalating cost environment. This, in combination with a lack of expansion options, and lack of any significant new San Francisco deliveries is fueling an acceleration of in-bound migration to the Oakland CBD. Since the beginning of 2011, Oakland has seen nearly 2.9 million SF of inbound migration, the vast majority of which has come from San Francisco.

LIMITED LARGE BLOCK AVAILABILITY

The acceleration of this in-migration has only further pressured the supply demand imbalance for office space within the Oakland CBD. The newly proposed office supply in Oakland will be welcomed by prospective tenants.

SAN FRANCISCO VS. OAKLAND URBAN METRO RENTAL RATES

12

Minutes to San Francisco on BART

BENEFITS BEYOND THE RENTAL SPREAD

Beyond rental spreads, the Oakland CBD offers users the additional benefit of lower associated operating costs and compelling tax efficiencies. The City of San Francisco has historically charged businesses a payroll tax however, beginning in 2014, the City has begun converting to a gross receipts based tax structure. While the City of Oakland charges a similar gross receipts based tax, the associated rates in Oakland are equivalent to roughly half that of those charged by the city of San Francisco.

RELEVANT BUSINESS TAX CLASSIFICATIONS & RATES

OAKLAND	
CLASSIFICATION	TAX RATE
Commercial / Rental ¹	1.395%
Business / Personal Services	0.18%
Professional / Semi-Professional	0.36%
Administrative Headquarters	0.12%
Media Firms	0.12%
Public Utilities	0.10%
Total	2.28%
SAN FRANCISCO	
CLASSIFICATION	TAX RATE
Total Commercial Gross Receipt Tax ²	5.50%
Information Services	0.125-0.475%
Civic	0.075-0.150%
Utilities, Arts, & Entertainment	0.300-0.400%
Private Education, Health, Administrative	0.525-0.650%
Finance, Insurance, Prof., Scientific, Technical Serv	0.400-0.580%
Total	5.225%-6.045%

¹ San Francisco Gross Receipt Tax reflects incremental tax range based upon gross revenue.
² Commercial Gross Receipt taxes are generally 100% passed through from Landlord to Tenant.

TOP BAY AREA TENANTS BRING TOP BAY AREA TECH SALARIES TO OAKLAND

As Oakland's expansion progresses, high-profile and high-paying tenants continue to move to the market. With this, the demand for Class-A luxury apartments has never been higher.

COMPANY	WALK TIME	SCOOTER / BIKE TIME	AVERAGE SALARY

Average Tech Salary			\$126,448
Average Oakland Income			\$85,000

OAKLAND A CENTER OF JOB GROWTH

As Oakland office market continues to expand, it is attracting high profile and high-paying tenants emigrating from San Francisco. As the office, residential and retail infrastructure in Oakland grows, both employers and employees are increasingly selecting Oakland as a strategic alternative to San Francisco. Along with this, companies in San Francisco and the Peninsula are moving across the Bay to accommodate their large base of employees who live in the East Bay.

Recent leases from companies such as Square and Credit Karma are quickly turning Oakland into the Fintech epicenter of the Bay Area, with FinTech companies taking 44% of newly leased space in the past three quarters. Last year, tech unicorn, Fivetran, executed the city's largest lease of the year (80,000 SF) and moved-in late December. More recently, Twitter announced it signed a 66,000 SF lease at 1330 Broadway St., representing not only the ongoing wave of tenant migration from San Francisco, but also that remote work will not stop tech growth & its expansion efforts.

Oakland has over 7M SF of office space in its pipeline, which will begin delivering this year. These newly built and renovated office spaces will continue to drive Oakland's expansion into additional tech and the higher-wage salaries that follow.

OAKLAND ANTICIPATED TO EXPERIENCE SIGNIFICANT RENT GROWTH AS THE RENTAL GAP NORMALIZES

Oakland is anticipated to experience significant rent growth, bringing the rental gap between Silicon Valley & San Francisco back in-line with its pre-pandemic gap.

The rental gap between Silicon Valley and San Francisco relative to Oakland has grown and been further exacerbated by the pandemic. As the graph below highlights, Oakland rents were on average approximately 25% below Silicon Valley and San Francisco prior to 2020. Today, the rental gap has increased more than 35%, respectively. Moving forward, this suggests a clear “snap-back” of rent growth or tightening of the gap between these respective markets as Oakland continues to experience positive absorption and concession burn-off as the supply demand re-balances.

OAKLAND: A STRATEGIC ALTERNATIVE TO SAN FRANCISCO TENANTS & RENTERS

The severe Jobs : Housing imbalance will have meaningful impact on San Francisco and Oakland multifamily market;

SAN FRANCISCO

- Rents will continue to rise
- Renters will transition to Oakland, seeking rent relief in a metropolitan setting

OAKLAND

- Net absorption will remain high
- Rents will continue to rise
- Concessions will decline

NOT ENOUGH SAN FRANCISCO BAY AREA HOUSING: THE GREATEST JOBS TO HOUSING IMBALANCE IN THE COUNTRY

Job creation has outpaced the infrastructure available to accommodate the needs of a rapidly growing economy. Housing is the most critical challenge to regional growth. In the past six years, there was one new housing unit built for every 6.9 Bay Area jobs created. This is far behind the national and statewide rates of 2.5 and 5.3 jobs per unit, respectively, and a larger shortfall than that experienced during the late 1990s. Inadequate supply has led to greatly increased prices; a trend that will likely continue.

BAY AREA'S JOBS: HOUSING RATIO CONTINUES TO WEIGH HEAVILY TO EMPLOYMENT, DENOTING THE LACK OF HOUSING UNITS

RIISING HOME COSTS OUTPRICE BUYERS

HOUSEHOLD INCOME VS. MEDIAN SALE PRICE QUALIFICATION

Based on the average household income for Oakland and the larger Alameda market, residents require over 600% more income in order to qualify for the purchase of a home at the median sale price.

HOMEOWNERSHIP AFFORDABILITY

BAY AREA RECOVERY - ECONOMIC INDICATORS ARE HERE

Prior to the pandemic, the Bay Area ranked number one among large metropolitan areas in average annual GDP growth over the previous decade. Unemployment stood at historic lows in the Bay Area at 2.7% in February 2020 prior to the pandemic. The region has rebounded quickly with unemployment reaching 2.2% in May 2022, while continuing to achieve more than 30% of U.S. venture capital investment.

According to Oxford Economics, the Bay Area is forecasted to grow the fastest on a GDP per worker basis amongst major U.S. metros. Bay Area's technology, research, and life science concentrations place the region at the center of advanced industries, be it advanced mobility, artificial intelligence, therapeutics, or cloud solutions.
