

“Industrial Special Hazards Fire Suppression”

ABOUT FIRE & PUMP SERVICE GROUP

- *Servicing the Industrial Fire Suppression Industry for 40 Years*
- *Small Business – Veteran Owned*
- *PE & NICET Accreditations*
- *Service on NFPA Industrial Section and Hybrid Committees*

NEW DEVELOPMENTS

Automatic Nitrogen Inerting Fire Suppression

- *To credit the inert atmosphere as fire protection*
- *Automatic response to high O2 alarm for Nitrogen Inerting while providing an Inerting Fire Suppression*

– June 2019

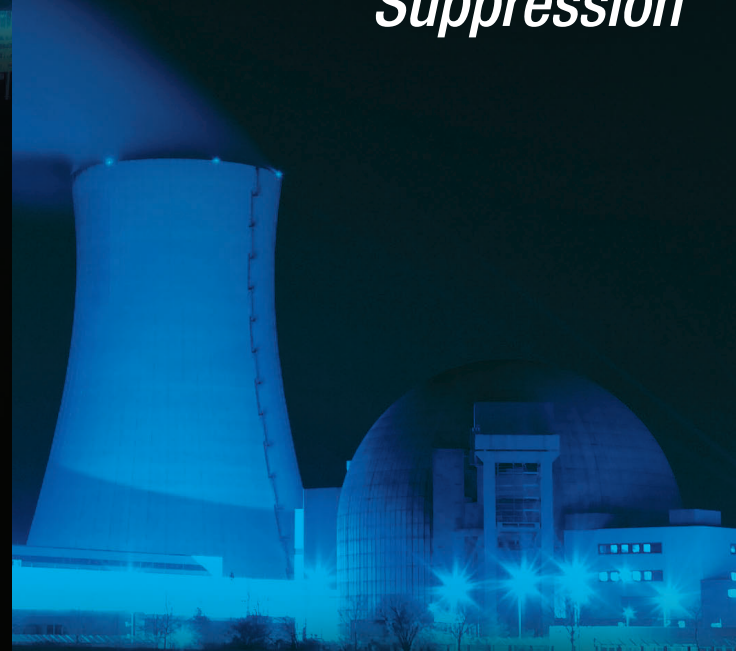

“Industrial Special Hazards Fire Suppression”

310-223-3990

World Headquarters
1512 Kona Drive
Rancho Dominguez CA 90220

Industrial Special Hazards Fire Suppression

Dedication Services

Safety Significant – Safety Class

DEDICATION SERVICES

**Safety Significant - Safety Class
ASME NQA-1 2008/2009 Part 2.14**

FIRE & PUMP SERVICE GROUP

Specializes in Design-Build Contracting and Dedication Services for Nuclear & Industrial Facilities, Government & Private Industry

ASME NQA-1 2008/2009

Parts I & II 2.14

10 CFR 50 Appendix B

DOE-STD-1066

Customer Certified

Safety Significant - Safety Class

Fabrication & Witness Testing at Our Facility

A2LA Certified Laboratories

Commercial Dedication
Critical Characteristic Reliability
Verification & Demonstration

TECHNICAL, PROFESSIONAL & CONSTRUCTION SERVICES

Engineering, Procurement, Construction (EPC)

Pre Design Services

Assessment & Constructibility

Consulting - Training

SOLUTIONS

Hybrid Technology Fire Suppression

Nitrogen Inerting Fire Suppression

Scalable & Modular Installations

Incipient State Fire Detection

Alarm/Detection & Networking

Diesel Fire Pumps - Electric Fire Pumps

High Expansion & AFFF Foam

Clean Agents - Aerosols

Sprinklers - Misting Systems

INDUSTRIAL DISTRIBUTION

A Victaulic Vortex Integrator

Victaulic Safety Related NQA-1 Components

Honeywell Notifier Engineered

Systems Distributor (ESD)

AC Fire Pumps

APPLICATIONS

Glove Boxes - Hot Cells - Walk-in Enclosures

HEPA Filter Fire Suppression

Waste Processing Facilities

Spent & Damaged Fuel Rod Storage Facilities

Extended Storage Facilities

Class A including PMMA/Plastic Waste

Class B Flammable Liquids

Cable Trays - Switch Gear - Vaults

Control Rooms - UPS Supplies

Machine Spaces - Tunnels

Mining Facilities - Linear Accelerator

Co-Generation - Records Retention Facilities

Biological - Radiological - Chemical Agents

Clean Rooms

PROFESSIONAL AFFILIATIONS

NFPA 770 Hybrid Fire Extinguishing Systems

Principle Committee Member

Nuclear Industry Assessment Committee (NIAC)

Society of Fire Protection Engineers (SFPE)

American Glovebox Society (AGS)

Standards Committee AGS-G010
