

# **STOP NECC 2025 – PROTECT OUR COMMUNITY**

The New England Country Club & Copper Mill are pushing forward with a massive development at **180 Paine Street, Bellingham**—a **5-story, 1,600-unit housing complex** that would **replace 330 acres of forests** and impact **Bellingham, Woonsocket, and surrounding towns**. **We need your help to stop it!**

## **What's at Stake?**

 **Traffic & Safety Risks** – The development would bring up to a **20% increase in Bellingham's population**, potentially overwhelming local roads and emergency services. Documents suggest extending local dead-end roads, potentially connecting Woonsocket, Cumberland, and Bellingham.

 **Sewer & Water Infrastructure Overload** – Bellingham already faces water bans—how can it support thousands of new residents? The town's aging sewer system may force Woonsocket's infrastructure to absorb the strain.

 **Environmental Destruction** – Bulldozing woodlands will wipe out wildlife habitats, increase stormwater runoff, and raise flood risks for local homes.

 **Quality of Life Impact** – This project means years of disruptive construction—constant noise, dust, and debris—plus increased noise, light pollution, and congestion in once-quiet neighborhoods. This project does **NOT** belong here!
