

Winning strategies that ensure your protection and success

Do you worry at night that your business property is unprotected? Is your present high cost security provider unresponsive? Or, do you simply feel frustrated because current processes seem ineffective? If you answer yes to any of these questions, consider ABC as the intelligent choice alternative.

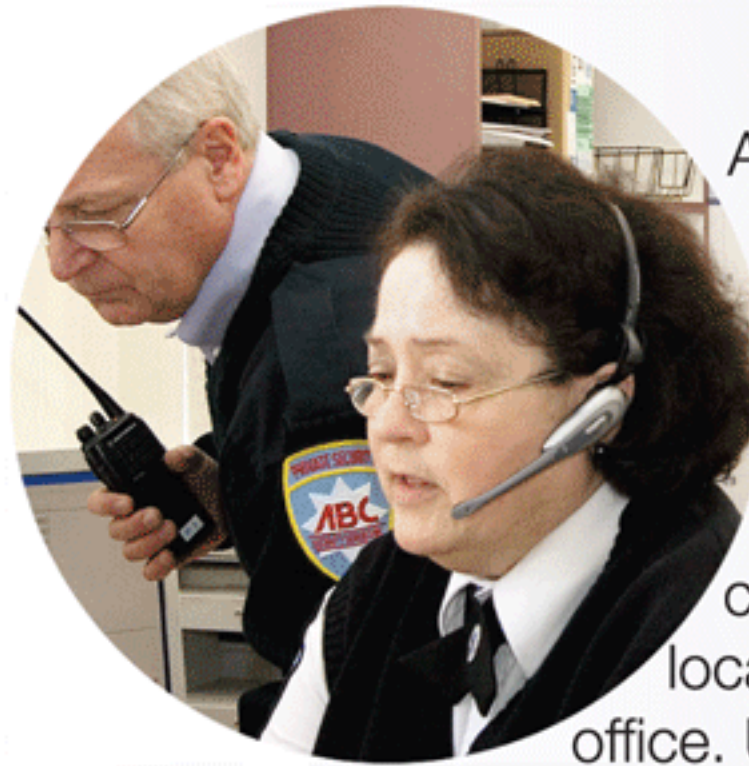

For the past four decades we have custom tailored security protocols for many public entities, private businesses and residential properties. Whether your security needs are extensive or small, we can offer an affordable solution to your problem.

Let us provide you with a free security consultation and written proposal. You

will see why we stand out from the rest.

24/7 Availability

ABC provides security services around the clock, seven days a week. One of our most valued services, provided at no cost to our clients, is the communications center located at our corporate office. Unlike many of our competitors who maintain answering services after hours, ABC's communications center ensures that you and your representatives have quick and easy access to a trained security professional who can address your critical needs and route inquiries at any time of the day or night.

Specialized Services

ABC specializes in providing armed and unarmed uniformed security officers to a variety of different business centers and industrial sites.

We also service federal and local government clients that require adherence to strict Homeland Security protocols.

Our in-house specialists interact with aviation, maritime and military authorities, as well as all levels of law enforcement.

Project Management

Our personnel, operations and contract management departments ensure that you get quick action and continued oversight of the guard force and security applications.

ABC's Ten-To-Win Quality Service Program also encourages our guards to be diligent toward their duties and to maintain a professional presence at all times.
