

ONE-CLICK RECEIPT SCANNER PRIVACY POLICY

INTRODUCTION

This Privacy Policy explains how **One-Click Receipt Scanner** (“the App,” “we,” “us,” or “our”) handles information when you use our iOS application. The App is designed so that **your receipt content stays on your device** unless you choose to share it (for example, through export or the system share sheet).

If you do not agree with this policy, please do not use the App.

SUMMARY

Account: No account or login required

Receipt Photos & Data: Stored locally on your device; we do not operate a server storing your scans

OCR: Performed on your device using Apple’s frameworks; no images sent to our servers

One-Click Pro: Purchases processed by Apple

Free Tier Ads: Uses Google Mobile Ads (AdMob)

Tracking (ATT): May request tracking permission for ads; you may deny it

iCloud: Version 1.0 does not sync receipts to iCloud

WHO WE ARE

Developer: Jean-Claude Moritz

App Name: One-Click Receipt Scanner

Bundle Identifier: com.docapps.One-Click-Receipt-Scanner

Privacy Policy URL: <https://jean-claude-moritz.com/privacy-policy>

Support: See App Store support link or website

INFORMATION STORED ON YOUR DEVICE

The App stores the following **only on your device**, inside its private storage:

Receipt Entries

- Receipt images you capture or import
- Extracted or edited fields (merchant, total, date, category)
- Capture and update timestamps

App Settings

- Appearance and theme preferences
- Whether certain tips or prompts have been shown

Widget Data (One-Click Pro)

If you have Pro, the App may store a **limited summary** of up to three recent receipts (merchant, amount, date) for widget display. **Full receipt images are never stored in the widget container.**

We do **not** upload your receipt database to our servers.

HOW WE USE ON-DEVICE INFORMATION

We use information stored on your device to:

- Display your receipt history
- Run on-device OCR
- Allow searching, editing, categorizing, and deleting receipts
- Generate CSV or PDF exports (Pro)
- Show spending summaries
- Update the widget (Pro)

OCR AND AUTOMATED PROCESSING

OCR runs **entirely on your device** using Apple's Vision framework. We do **not** send receipt images to our servers for OCR.

OCR results are suggestions only; you can edit them before use.

PERMISSIONS

Camera: Capture receipt photos

Photo Library: Import images you select

App Tracking Transparency: Free tier only, for advertising purposes

You may adjust permissions in iOS Settings.

FREE TIER ADVERTISING (ADMOB)

If you use the free tier, banner ads may appear.

Google and its partners may collect:

- Device identifiers (subject to ATT)
- IP address and coarse location
- Ad interaction data
- Data for personalization, measurement, and fraud prevention

Google's policies apply: <https://policies.google.com/privacy>

<https://support.google.com/admob/answer/6128543> ([support.google.com in Bing](https://support.google.com/in/Bing))

We do **not** send your receipt images or merchant list to advertisers.

APP TRACKING TRANSPARENCY (ATT)

On first use, the App may show Apple's ATT prompt.

- If you allow tracking → ads may be personalized
- If you deny tracking → the App still works normally

We record locally that the prompt has been shown.

ONE-CLICK PRO (IN-APP PURCHASE)

One-Click Pro is a **one-time, non-consumable** purchase processed by Apple. We do not receive your payment card details.

Apple provides purchase status through StoreKit so we can unlock Pro features.

Apple's privacy policy: <https://www.apple.com/legal/privacy/>

EXPORT AND SHARING

Exports (CSV/PDF) are created **on your device**. You choose where to send or save them (Mail, Files, AirDrop, etc.).

We do not control how third-party apps handle exported data.

WHAT WE DO NOT DO (VERSION 1.0)

- No account required
- No cloud database of receipts
- No server-side OCR
- No social features or public profiles
- No sharing of receipt images with advertisers

DATA RETENTION AND DELETION

- Receipts remain on your device until you delete them
- Deleting the App removes local data
- Exported files stored elsewhere are controlled by you

SECURITY

We rely on Apple's iOS security (sandboxing, encryption). No method is 100% secure; keep your device protected.

CHILDREN'S PRIVACY

The App is not directed at children under 13. We do not knowingly collect personal information from children.

INTERNATIONAL USERS

Receipt data stays on your device. For advertising data, see Google's privacy tools. For purchase data, see Apple's account settings.

CALIFORNIA PRIVACY NOTICE

We do not sell personal information. Free-tier advertising may involve "sharing" under California law through Google's ad services.

THIRD-PARTY SERVICES

Apple: iOS platform, OCR frameworks, App Store, StoreKit

Google (AdMob): Advertising on free tier

Apple WidgetKit / App Groups: Widget functionality

CHANGES TO THIS POLICY

We may update this policy. Continued use of the App means you accept the updated version.

APP STORE PRIVACY LABELS

Apple's App Privacy labels on the App Store describe data collected by the App and third-party SDKs. Free-tier advertising data is primarily associated with Google Mobile Ads.

VERSION NOTE

This policy reflects One-Click Receipt Scanner version 1.0 (build 5). Future updates may change behavior; the policy will be updated accordingly.
