Report Generated For:**Report Generated On:**

05/22/23

Insurance Company:

Blue Cross Blue Shield of NM

Table of Contents:

██████████ (NPI: ██████████) 1

██████████ (NPI: ██████████) 4

██████████ (NPI: ██████████) 7

CPTs Requested:

- 99214 (Office visit 30-39 min)
- 99213 (Office visit 20-29 min)
- 36415 (Venipuncture)
- 80061 (Lipid Panel)
- 83036 (A1C Panel)
- 99391 (Under Established Patient)

Understanding This Report:

This report provides information about the reimbursement rates of certain NPIs for a selection of CPT codes for a given insurance provider. The data presented in this report has been obtained by parsing ~200 million lines of compressed JSON data taken directly from the Blue Cross Blue Shield of New Mexico Table of Contents File.

The report is structured with major headings corresponding to a provider or practice and can be quickly navigated by looking at the preceding Table of Contents. If applicable, different plans (e.g PPO, HMO etc) will also be indicated as subheadings. Within either of these headings will be the list of requested CPTs and any applicable rates as shown:

----- Practice Name (NPI)	
----- Plan Name	
----- CPT	
----- Price	[Reported billing code modifiers]

In some cases (particularly E&M codes) there may be multiple rates indicated. These should be interpreted with consideration of the corresponding modifiers which follow each rate. Often insurers will negotiate different rates depending on telehealth, in-person conditions etc. Occasionally prices will be reported as a percentage of a CMS rate rather than an outright dollar value. As with the CMS modifiers, the current CMS rates can be found online. Per diem rates are also possible. In some cases, No Data Found will be indicated for a particular CPT. The Transparency in Coverage rule mandates that data is published only if >20 instances of the CPT are billed per month. In the event that this threshold is not met by a certain provider, data may not be available.

Original Data:

This data is only included for future reference should it be necessary.

Disclaimer:

This data has been obtained directly from the indicated JSON.gz files. It is an accurate account of what the insurance provider reports for compliance of the Transparency in Coverage act based on information available as of the report generation date, but may or may not correspond to what an insurance contract guarantees or what payment is actually received. Instances of erroneous payments are not unheard of. The value and reputation of these reports depends on accurate, error free MRF parsing. Great care has been taken and thorough testing undergone to ensure the integrity of the parsed data, but in the unlikely event that any errors are discovered, please immediately return this report for a corrected version free of charge. This report is confidential and may not be transferred or sold to anyone other than the original purchaser.
