

Water costs money... don't waste it!

A dripping faucet or fixture can waste 2 gallons a day...
a total of 1,095 gallons a year.

Conserve Water and Save Money!

*A reminder from your local Water Authority
where we're dedicated to **quality** and **service**.*

Waste per quarter at 60 psi water pressure

Diameter of leak	Gallons	Dollar Value
● 1/4"	1,181,500	\$6,794
● 1/16"	666,000	\$3,830
● 1/8"	296,000	\$1,702
• 1/16"	74,000	\$426

A continuous leak from a hole this size would, over a 3 month period, waste the number of gallons of water shown above and raise your bill in the amounts shown under "Dollar Value."

*It is imperative that you regularly check for dripping faucets
and running toilets and fix them promptly!*
