

Cabinet Accessory Clamp

(Placement Options)

Designed to fit:

- The leading kitchen-cabinet edge
- Also fits the thin mid-joint or side of cabinets
- Two eye-bolts of varying lengths are provided

Cabinet Accessory Clamp was manufactured to minimize concerns where limitations exist with tools or personal ability

It's perfect if you have stock cabinet-construction where the edge of your cabinets are straight-edged

(i.e. 90 degree angles as pictured above)

The Cabinet Accessory Clamp comes complete with a U-bracket and eye bolts (as pictured). This is all you will need to get up and running quickly under the above scenarios.
