“Bell” Concept V1

Descriptions of the contents of this page - if needed.

SECTION A-A
SCALE 1:6

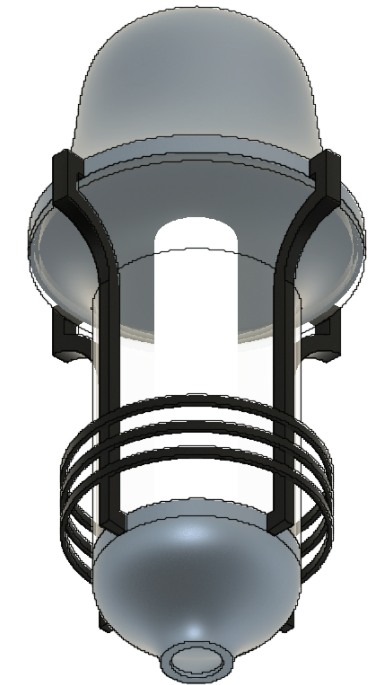

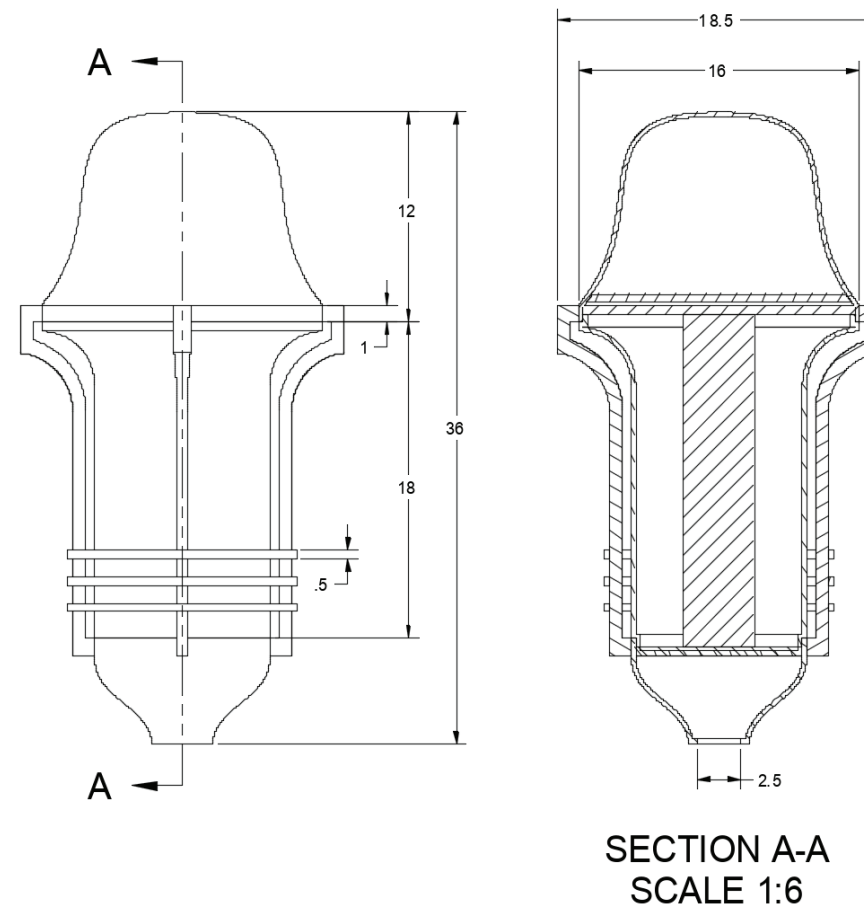

Seamless Design

This design features a seamless line between parts. This makes it visually appealing with or without the arms.

“Bell” Concept V2

Descriptions of the contents of this page - if needed.

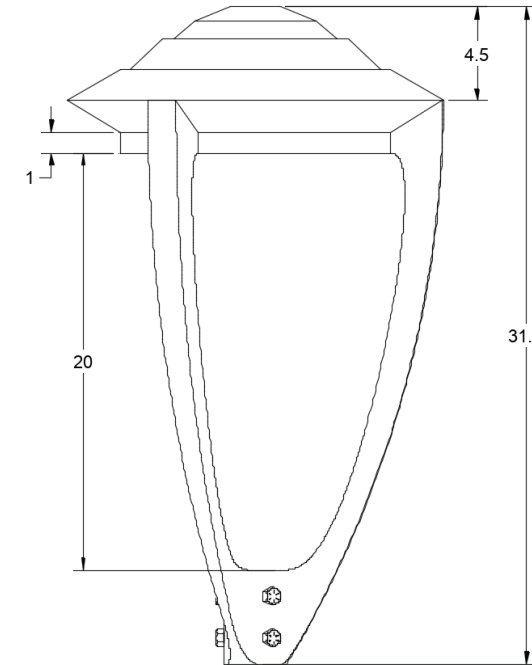

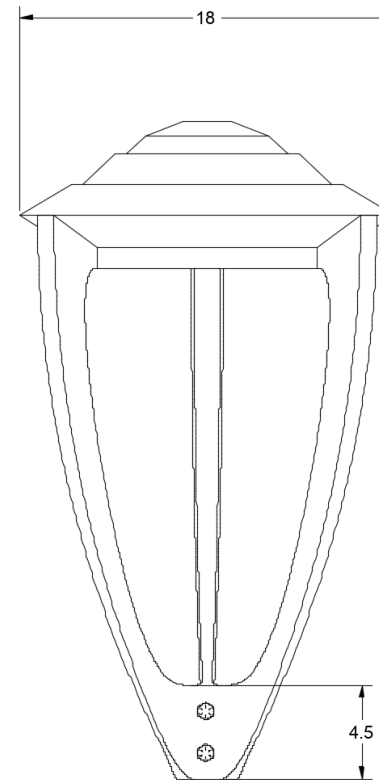

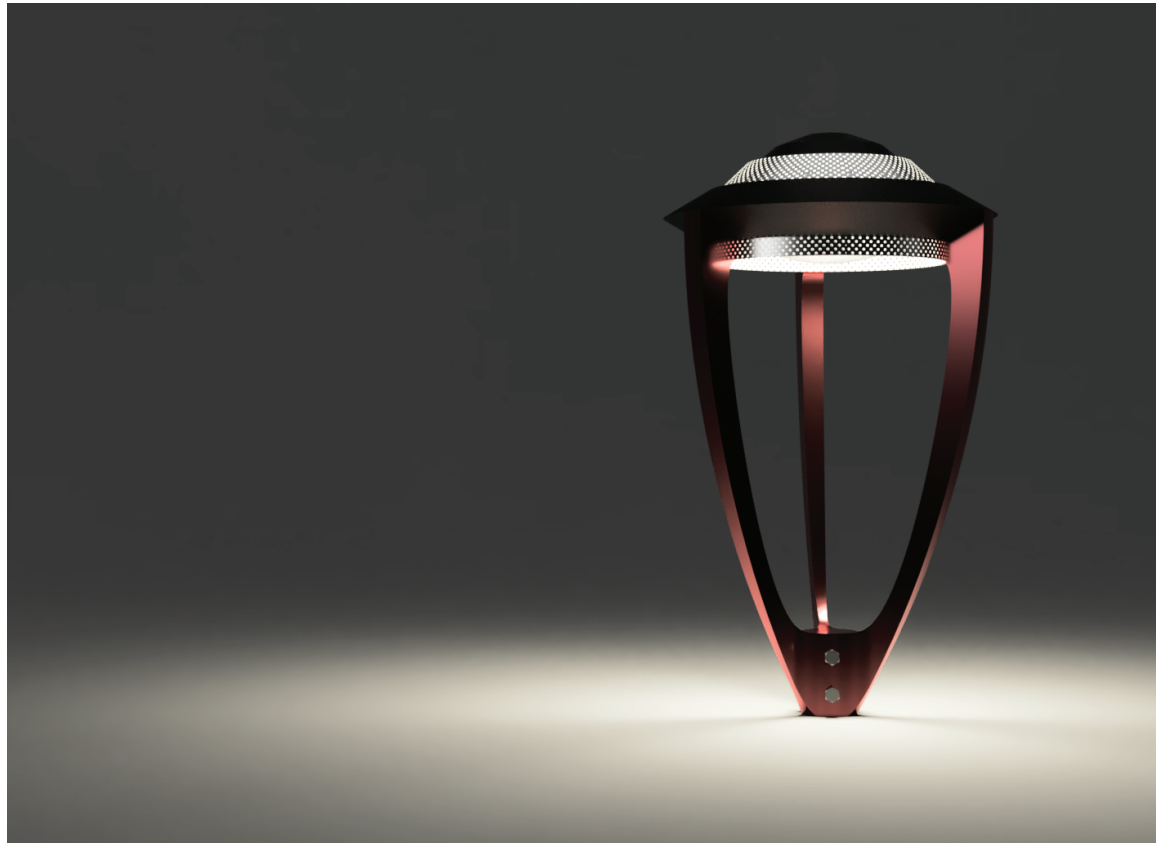

Constricted Design

This concept features a “constriction” in the lens and arm aspects of the design. This gives it a “squeezed” aesthetic.

*Measurements in Inches

“UFO” Concept V1

Descriptions of the contents of this page - if needed.

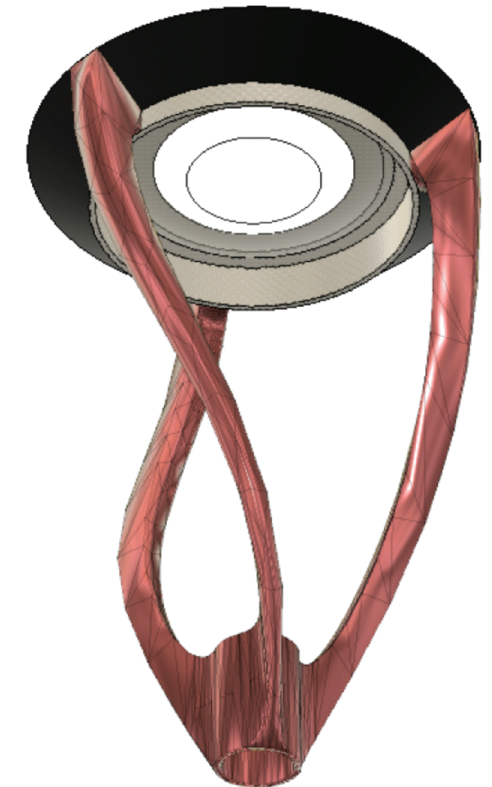

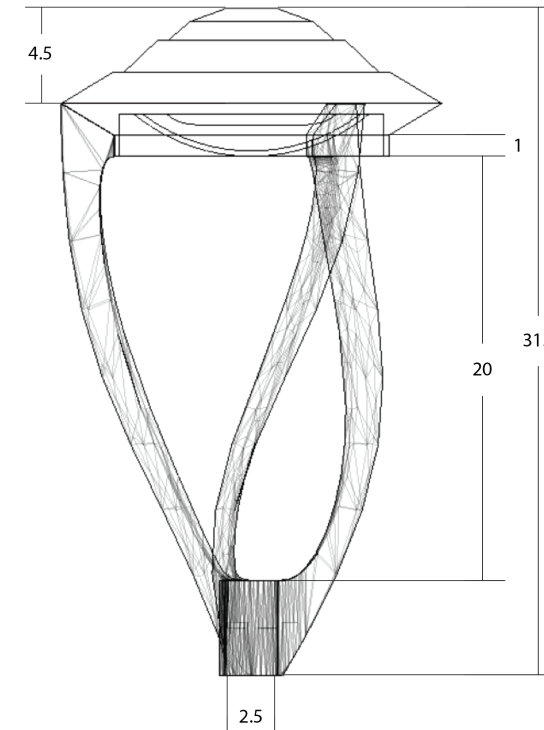

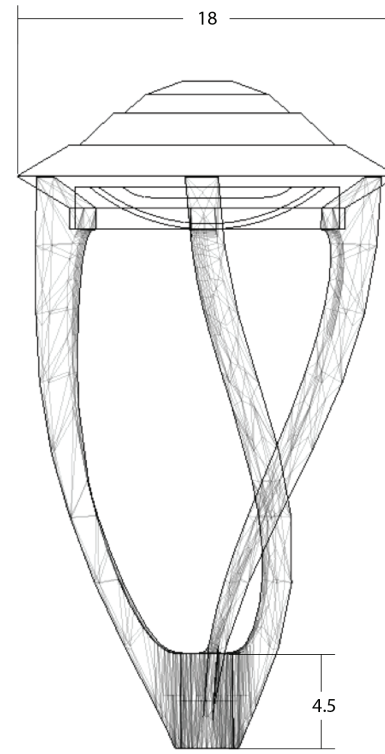

Industrial Look

This concept features a “sharp” aesthetic. Utilizing hard edges and strong pose, This Topper is designed to blend the future with the past.

Helix Arm Structure

The twist in the design of the arms gives this light a sense of motion. Aesthetically, this gives the design a new area of interest.
