5 75% Red Angus x 25% Charolais Composite
Bred Heifers – Rodney Ledahl

- **Many Bulls Suitable for Heifers**
- **Free 600-Mile Bull Delivery**
- **First Breeding Season Guarantee**

Fresh Genetics • Calving Ease • Good Disposition

Welcome

Welcome,

We would like to welcome you to our production sale whether in person or on DV Auction. 95% of our customers are repeat buyers and we promise to take care of new customers just like we take care of our existing customers that have become our good friends. We look forward each year to delivering your cattle and having a good visit one-on-one. If you have been thinking about trying DK genetics, do not hesitate on pressing the DV Auction button. Just remember you must register the day before in order to bid on sale day. We have had cattle go to ND, SD, MN, NE, MT, WY, and KS.

We are like most ranchers. We expect cattle to calve easy, nurse by themselves on a good-uddered cow, grow fast, maintain a good disposition, weigh up heavy, stay structurally correct, be highly fertile, and be an easy keeper. We like stacking solid female-making genetics on top of each other, so there are no surprises or disappointments. Every bull we sell is expected to produce top-rate females or highly desired steers. Our goal is to improve every year on these traits which in turn will help your pocketbook and ours.

Again the bulls were fed CHS pellets and Feed Mix Bull Ration twice a day with free-choice grass hay. They are not fed for the show but to go to work for you and keep growing. We shoot for a 3-lb. daily gain on test and we know these bulls could gain a lot more but would only hurt them in the long run. We feel this is one of our best set of bulls and heifers top to bottom. Many of these bulls are suitable to use on heifers.

For those of you that can't make it to the sale, you'll be able to watch & bid on DVAuction.com. Videos of the bulls will be available a couple of weeks before the sale at the DVAuction.com website but remember that the video was shot a month before the sale and the younger bulls are still pretty green. If you have any questions don't hesitate to call us. The bulls will sell pretty much in birthdate order as listed in the catalog. Ultrasound carcass data will be available a few days before the sale.

Also bulls will be delivered free to U.S. central locations within 600 miles and we will work with you on further distances. If you buy two or more registered heifers, we will deliver them also within 600 miles.

You are welcome to come look at the bulls at the ranch before the sale. We would be happy to show you the sires & dams. Give us a call – we'd be glad to assist you in finding the right bull to fit your herd.

Thanks so much to our many repeat customers and friends.

Thank you and God Bless,

The Kuefflers

Scott and Connie, Michala and Kirsti Kueffler
Bonnie Kueffler

Scrotal Measurements and Ultrasound Data:

Scrotal measurements and carcass ultrasound data will be available sale day.

Semen Interest:

DK Red Angus is retaining 1/3 semen interest in all bulls. The retained semen interest allows us to collect semen, use semen in our herd, and share in revenue of semen sales. Full possession and full salvage value sells on all bulls.

Delivery:

Delivery is free to U.S. central locations within 600 miles. We will work with you on further distances. \$50 refund per bull picked up within one week of the sale, or \$25 refund per bull picked up after April 25 at the ranch. If you purchase two or more heifers, free 600-mile delivery applies.

Feeding:

We will feed the yearling bulls free of charge until April 25 and have the bulls semen tested at our expense, but we will not be responsible for sickness or injury. After April 25, there will be a \$2-per-day charge.

Genetic Defects:

We have collected DNA samples on every bull in the sale with any known genetic defect carrier in the first three generations. The bull tested negative unless otherwise noted.

Osteopetrosis (OS) "Marble-Bone Disease"

OSF – Tested "free" of the genetic defect

OSC – Tested positive as an Osteopetrosis "carrier"

Calving-Ease Recommendations:

Each bull has been designated with a star rating to assist you in determining the calving-ease of each bull. We have based our recommendations on EPDs, performance, phenotype and bloodlines, but please use your judgement as well.

★★★ Recommended for heifers

★★ Recommended for larger heifers and cows

★ Recommended for cows only

Bidding:

All animals sell to the highest bidder. Any dispute or challenges regarding bids will be settled by the auctioneer and his decision will be final.

Volume Discount:

Three or more bulls purchased = 5% discount

Terms:

Terms of the sale are cash or check payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle. All animals are the owner's risk prior to their sale and become the property of the purchaser as soon as declared sold by the auctioneer.

Guarantee:

The bulls are guaranteed to be sound breeders. You may semen test or test breed them prior to breeding season and make your own evaluation. Any bull sold that fails to prove himself a breeder may be returned to the seller after notification by the buyer of the condition within five months of sale date. If a bull is proven unable to breed, the buyer will be given a full refund of purchase price or a replacement bull as acceptable to the buyer or credit in next year's sale.

We will guarantee bulls for the first breeding season which will end as of Sept. 1st in the year of purchase. If a bull is injured permanently and unable to breed cows, we will replace him or give credit in next year's sale, less salvage of the injured bull.

In no case will the seller be responsible for more than actual purchase price. The seller's guarantee does not apply if the animal in question has developed to be a problem breeder due to negligence or improper management by the buyer.

Heifers are guaranteed open and able to breed.

Announcements:

Announcements from the auction block will take precedence over printed matter in this catalog.

Liability:

All persons who attend the sale do so at their own risk and the owner and sale manager assume no liability, legal or otherwise, for accidents which may occur.

Performance Codes

Red Angus Categories:

Category 1A 100% Red Angus • Category 1B 87% to 99% Red Angus

Performance Information:

BW Actual Birth Weight

WW 205-Day Adjusted Weaning Weight

ADG Average-Daily-Gain on Test

YW 365-Day Adjusted Yearling Weight

WDA..... Weight-Per-Day-of-Age over Lifetime

Dam's Age..... Age of the Dam When Calf was Born

Dam's MPPA..... Dam's Most Probable Producing Ability is a ratio that measures her ability to produce milk for her calf and her contribution of genetics to the calf.

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB..... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

**WEBR ROLLING DEEP 660**

moderate in frame, but extremely thick across their tops and down their hind quarters. When you find a bull with his calving ease and natural thickness, they usually have poor maternal traits, but he ranks in the top 2% for Milk. Come take a look at his calves and you be the judge. In 2019, his progeny were our highest selling sire group.

Top Notch was our pick at the 2016 Red Connection Bull Sale. Jesse called him "The Future Cow Making Machine." His calves are so consistent like peas in a pod. They are born small and grow like weeds. His dam's MPPA is 104. His daughters are so complete and eye-appealing all wrapped up in a moderate-framed package.

Lookout D231 was a bull we raised and kept back specifically to produce great females. Both his sire and his maternal grandsire have produced some of our top females. His dam's MPPA is 102. He also is a calving ease bull and works well on heifers.

We do a lot of research and traveling looking for just the right bull that is going to produce those outstanding females without losing growth. This time we found him in our backyard! DK Freightliner is extremely long, thick across the top and "wow what a butt" on him. His pedigree on both the top and bottom are stacked with easy keeping, naturally thick, outstanding females. You will like his progeny.

Fritz was our pick at Fritz Red Angus 2019 production sale. He was the #1 gaining bull on test for them. He is super wide topped, deep sided, and very correct on his feet. He produces a very well-balanced moderate frame calf, without giving up muscle. The first year he was used mainly on our 2-year-olds, so weaning weights were down, but they really did well on test. We plan on using him a lot in the future. Check out his females in the sale. They are impressive.

Resource is one of the most popular sires in the Angus breed. He sires growth, carcass merit and maternal ability all in one package. We are always looking to expand the gene pool in the Red Angus breed with bringing in some proven Angus genetics to cross with our Red Angus females. We feel Resource is one of those bulls.

Rifle is the wrong color (black) but he carries a red gene so 50% of his calves for us are red. We purchased him jointly in 2015 with Sorenson Ranch. As a yearling he was the widest topped bull we've come across, you could have used him as a card table. He is sired by the famous SAV Resource Angus bull and his Simmental dam has produced more than one of Sys' top-selling bulls. He will add an outcross pedigree for the producer that likes a little Simmental and Angus genetics in his herd.

He was one of the high selling Franchise sons in the Pieper 2019 bull sale purchased by Sandy Willow Red Angus. We believe he sires more power and growth than his sire, while still maintaining those highly productive moderate sized females. His dam has a MPPA of 103.

Impeccable is a 2013 model that has proved himself to be a top calving ease sire and still a high growth bull. He is also in the top 2% for milk EPD.

RED ANGUS MARKETING PROGRAMS

How to Enroll in FCCP and AA

1. The producer contacts the Red Angus Association of America at (940) 226-4762 and answers a short supplier enrollment questionnaire over the phone. RAAA staff will ask general management, animal identification and breeding questions. If needed, the producer may be asked to supply additional documentation on breeding such as semen receipt, lease agreements or information on purchased females.
2. After all documentation is recorded, staff will ship the tags directly to the producer who must tag the calves before they leave the ranch of origin – birth, branding, preconditioning, weaning or before loading on the semi.
3. The producer will receive a customer enrollment agreement to fill out and return to RAAA with a copy of their calving records.
4. Staff will issue the USDA-approved Certificate of Compliance upon receiving the customer enrollment agreement and calving record.

Commercial Heifers

10 Red Angus Commercial Open Replacement Heifers - DK Red Angus

10 Red Angus Commercial Open Replacement Heifers - Guenther Ranch

5 75% Red Angus 25% Charolais Commercial Bred Heifers – Rodney Ledahl

PROFIT. REPEAT.

Generate repeated profits with the industry's most-favored female.

Independent research from a decade of data collection showed Red Angus-sired heifers commanded \$66/head more than females of other breed types. That's nearly \$5,300 on a single load of replacement heifers to boost profits on your operation.

Visit **RedAngus.org** for details on the industry's most-favored female.
