Broadcasting Real-Time Auctions

Bid Online or In Person  
Videos will be available

- Many Bulls Suitable for Heifers
- Free 600-Mile Bull Delivery
- First Breeding Season Guarantee

*Performance • Calving Ease • Good Dispositions*

# Welcome

We would like to welcome you to our production sale whether in person or on DV Auction. 95% of our customers are repeat buyers and we promise to take care of new customers just like we take care of our existing customers that have become our good friends. We look forward each year to delivering your cattle and having a good visit one-on-one. If you have been thinking about trying DK genetics, do not hesitate on pressing the DV Auction button. Just remember you must register the day before in order to bid on sale day. We have had cattle go to ND, SD, MN, NE, MT, WY, WI, KS and ID.

We are like most ranchers. We expect cattle to calve easy, nurse by themselves on a good-uddered cow, grow fast, maintain a good disposition, weigh up heavy, stay structurally correct, be highly fertile, and be an easy keeper. We like stacking solid female-making genetics on top of each other, so there are no surprises or disappointments. Every bull we sell is expected to produce top-rate females or highly desired steers. Our goal is to improve every year on these traits which in turn will help your pocketbook and ours.

Again the bulls were fed CHS pellets and Feed Mix Bull Ration twice a day with free-choice grass hay and silage. They are not fed for the show but to go to work for you and keep growing. We shoot for a 3-lb. daily gain on test and we know these bulls could gain a lot more but would only hurt them in the long run. We feel this is one of our best set of bulls and heifers top to bottom. Many of these bulls are suitable to use on heifers.

For those of you that can't make it to the sale, you'll be able to watch & bid on DVauction.com. Videos of the bulls will be available a couple of weeks before the sale at the DVauction.com website but remember that the video was shot a month before the sale and the younger bulls are still pretty green. If you have any questions don't hesitate to call us. The bulls will sell pretty much in birthdate order as listed in the catalog. Ultrasound carcass data will be available a few days before the sale.

Also bulls will be delivered free to U.S. central locations within 600 miles and we will work with you on further distances. If you buy two or more registered heifers, we will deliver them also within 600 miles.

You are welcome to come look at the bulls at the ranch before the sale. We would be happy to show you the sires & dams. Give us a call – we'd be glad to assist you in finding the right bull to fit your herd.

Thanks so much to our many repeat customers and friends.

Thank you and God Bless,

*The Kuefflers*

Scott and Connie, Michala, Mike and Adeline,  
Kirsti, Blake and Beau  
and Bonnie Kueffler

## "Top Coming-To-Town" Production Sale **Saturday, March 7, 2026**

Complimentary Lunch at 11:00 a.m. MST • Sale at 1 p.m. MST • Sidney Livestock Market Center, Sidney, MT

### *Sale Day Phones:*

Sidney Livestock Market Center, Sidney, MT ..... 406-482-3513  
Scott Kueffler's Cell ..... 701-641-0519

### *Auctioneer:*

Amber Haugland ..... 701-641-8792

### *Ringmen:*

Loren Sorenson ..... 701-694-2627 or 701-641-1140 cell  
Jory Boote, Cattle Business Weekly ..... 701-789-7047  
Scott Bachmeier ..... 701-425-6651  
Scott Dirk, Tri-State Livestock News ..... 605-380-6024  
Phone Orders and Sales Consultant: Ben Eaton ..... 701-570-9386  
Ian Hall, Western Ag Reporter ..... 701-720-4966  
Jeremy Kueffler, Select Sires: Phone Bids ..... 406-951-0348

### *Scrotal Measurements and Ultrasound Data:*

Scrotal measurements and carcass ultrasound data will be available sale day.

### *Semen Interest:*

DK Red Angus is retaining 1/3 semen interest in all bulls. The retained semen interest allows us to collect semen, use semen in our herd, and share in revenue of semen sales. Full possession and full salvage value sells on all bulls.

### *Delivery:*

Delivery is free to U.S. central locations within 600 miles. We will work with you on further distances. \$50 refund per bull picked up within one week of the sale, or \$25 refund per bull picked up after April 25 at the ranch. If you purchase two or more heifers, free 600-mile delivery applies.

### *Feeding:*

We will feed the yearling bulls free of charge until April 25 and have the bulls semen tested at our expense. After April 25, there will be a \$2-per-day charge.

### *Calving-Ease Recommendations:*

Each bull has been designated with a star rating to assist you in determining the calving-ease of each bull. We have based our recommendations on EPDs, performance, phenotype and bloodlines, but please use your judgement as well.

★★★ Recommended for heifers

★★ Recommended for larger heifers and cows

★ Recommended for cows only

### *Bidding:*

All animals sell to the highest bidder. Any dispute or challenges regarding bids will be settled by the auctioneer and his decision will be final.

### *Volume Discount:*

Three or more bulls purchased = 5% discount

### *Terms:*

Terms of the sale are cash or check payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle. All animals are the owner's risk prior to their sale and become the property of the purchaser as soon as declared sold by the auctioneer.

### *Genomics:*

All RAAA registered bulls have been GGP-uLD tested for increased accuracy EPDs and parent verification.

### *Guarantee:*

The bulls are guaranteed to be sound breeders. You may semen test or test breed them prior to breeding season and make your own evaluation. Any bull sold that fails to prove himself a breeder may be returned to the seller after notification by the buyer of the condition within five months of sale date. If a bull is proven unable to breed, the buyer will be given a full refund of purchase price or a replacement bull as acceptable to the buyer or credit in next year's sale.

We will guarantee bulls for the first breeding season which will end as of Sept. 1st in the year of purchase. If a bull is injured permanently and unable to breed cows, we will replace him or give credit in next year's sale, less salvage of the injured bull.

In no case will the seller be responsible for more than actual purchase price. The seller's guarantee does not apply if the animal in question has developed to be a problem breeder due to negligence or improper management by the buyer.

Heifers are guaranteed open and able to breed.

### *Announcements:*

Announcements from the auction block will take precedence over printed matter in this catalog.

### *Liability:*

All persons who attend the sale do so at their own risk and the owner and sale manager assume no liability, legal or otherwise, for accidents which may occur.

## **Performance Codes**

### *Red Angus Categories:*

Category 1A ..... 100% Red Angus  
Category 1B ..... 87% to 99.9% Red Angus  
Category 2 ..... Black Hided  
Category 3 ..... Less than 87% Red Angus

### *Performance Information:*

BW ..... Actual Birth Weight  
WW ..... 205-Day Adjusted Weaning Weight  
ADG ..... Average-Daily-Gain on Test  
YW ..... 365-Day Adjusted Yearling Weight  
WDA ..... Weight-Per-Day-of-Age over Lifetime  
Dam's Age ..... Age of the Dam When Calf was Born  
Dam's MPPA ..... Dam's Most Probable Producing Ability is a ratio that measures her ability to produce milk for her calf and her contribution of genetics to the calf.

Startup was our pick at the 2022 Niobrara Red Angus bull sale. When you walked behind him your first word was WOW! Super wide across his top and hind quarters. He also carried a 43cm scrotal as a yearling that day and ratioed 116 for his REA. He has excellent foot and leg structure. His dam has a picture-perfect bag and awesome feet. He has a great libido and extremely high-quality semen. His EPDs are getting better but are somewhat constrained being his sire and dam came from Canada. The best thing about his calves is he stamps every calf like himself. One of the most consistent and impressive sires we have ever used. Owned by DK Red Angus and Niobrara Red Angus. Semen available.

Midas was our pick and Lot 1 in the 2022 Pieper Red Angus Spring Sale. We traveled a lot of miles and looked at a lot of bulls to find a Powerhouse Quarterback son that we could use on heifers and be as impressive as his sire. He had a 41cm scrotal as a yearling. He has an awesome disposition and is the easiest keeping bull to have around. His dam is a beautiful Wideload daughter with good feet and an ideal udder. We have mainly used him on our first and second calvers, so his weaning weights were down, but we plan to use him a lot more on our cow herd. We are really looking forward to getting his daughters producing for us. He is making picture perfect daughters so far. Owned by DK Red Angus and Pieper Red Angus. Semen available.

In the fall of 2022, we were told by two different cattle buyers that their clients were backing away from buying small framed Red Angus and Angus calves. They wanted cattle that could excel in the feedlot and finish at larger carcass weights. So, in the spring of 2023 we went looking for the bull that would check all the boxes for the industry. We looked at a ton of bulls and guys keeping an eye out across the country. We finally found him as Lot 2 in the Pieper Red Angus Sale in a snowstorm. We even helped sort bulls in the morning on a snow cleared alleyway so we could get a good look at this guy's perfect feet. Pie Absolute 2415 has power, mass, exceptional length, a super disposition, and an excellent set of feet and legs. His powerful dam PIE Ruby 520 is the mother of PIE Quarterback 789. His great sire KJL/CLZB Complete 7000E is deceased and PIE Absolute 2415 could easily be his most powerful son to date. You will see a lot more progeny in the future. Pounds = \$. Contact DK Red Angus or Pieper Red Angus for semen.

Tannerite is Canadian royally bred outcross genetics for us. His dam weaned him to a 114 index. She has produces sons that are in 3 other seedstock herds. His paternal brothers are Hennessy, who won supreme bull at the Canadian Western Agribition, and Wilbar Beretta who was record high seller at \$225,000. We are anxious to see what his daughters will produce. He was mostly used on our 2 and 3-year-old cows.

Professional was Schuler's lot 1 and 2024 high selling bull. His dam maintains a 368-day calving interval and a 105 MPPA. His sire is known for improving feed efficiency and yield grade while adding ribeye area. That sale day, Professional ranked in the top 1% for GM. We used professional on our yearling heifers with great results. Calves were born easily, got up quickly, and went on to grow like weeds. Owned by DK Red Angus and Schuler Red Angus.

All Red Angus trace back to black Angus. Sometimes the gene pool for Red Angus can be a little small, so we have brought some new genes into our herd by breeding some of our top cows to some top-end Angus genetics through AI. These offspring, when bred to Red Angus will throw 50% red calves which in turn become 100% 1A Red Angus cattle. These progeny are the result of our Red Angus breeding program.

same offspring bred to homozygous black cattle will throw 100% black-hided calves. DK 316 is sired by Sav Resource 1441 who is known for heavy muscled, fast growing, good footed progeny. DK 316's dam is a proven cow for us that has a great disposition and is super high in growth and milk. She holds the record for the heaviest WW of over 900lbs on a bull calf for us the year before she weaned DK 316 at 875lbs. You will want to retain every female on this line.

Once in awhile you find a sleeper in the sale. Well, we found him that day. He was a month younger than his counterparts, but he stood right with the big boys. We purchased him to bring in some quality Simmental genetics for our customers that were requesting half-bloods. His calves have had moderate birth weights with tremendous weaning and yearling gain. He also stamps his calves with an awesome set of feet.

In thinking of a descriptive word for this bull, the word that came to mind here was "porky". I am not sure how to pack more pounds per cubic inch to bull. DK Midas N652 bred to a pile of heifers is going to make an impressive ring full of calves.

DK Impeccable N203 is a dual threat bull, calving ease for heifers and enough growth potential to make your mature cows shine. If you are in the market for a bull that will sire calves that do not quit growing from the calving pasture to the feedlot, get your hands in the air.

A real eye catcher of a 1/2 blood bull, clean made front, long down the back with thickness and meat on every corner. This is a bull that can do it all from feeders to replacements. There are no limits to the impacts a bull like this can have.

DK Redriver N74 is a moderate framed, Red Angus x Simmental half-blood that is deep ribbed with a soggy middle. Built right cattle that step into the sales ring and command attention and better yet, bids.

The market for dead calves is generally very poor. Getting live calves out of your first-calf heifers is necessary and using Pie Midas sired bulls is a good first step to making that happen – born small with the ability to grow like weeds.

New blood heifer bull going back to Bieber Energize, purchased to clean up heifers because of his moderate size, thick shape, clean feet and eye appeal. The Energize sired calves had great get up and go. They wore out their mothers chasing them around at birth, it was awesome.

The larger the group of calves that are built the same always brings better money at the sale barn. Take advantage of the consistency of Startup genetics with this nice offering of Startup half-brothers and pack the ring.

Moderate in size and shape, DK Startup N785 is built to make wide bodied powerful feeder cattle. It is really hard to express in diverse ways the kind of stamp Startup puts on his calves. If you have ever been to the ranch and seen Startup in person, you completely understand.

We used Invasion pretty heavily because of his high fertility and virtually perfect foot structure. DK Invasion N73 is a good all-around, go out and get to work bull, complete and nicely built to last.

The bulls raised by 10-year-old cows that carry a 104 MPPA in an extremely competitive, maternally minded herd deserve an honest look. Especially when that bull calf goes on and gains 3.85 pounds per day. You are getting a good, honest bull that will go on to do wonderful things for his new owners.

Wilbar Tannerite was allowed to run with a large group of cows for a few days early in the spring. We were really pleased with the results – long bodied, straight-backed, powerful cattle adding just a touch of frame to most without making them huge. Replacements will go out and raise big powerful calves.

There is so much calving ease bred into this heifer that you could possibly get by breeding her to a rhinocerous and she could handle it, not recommending it but the point remains.

Longevity is a factor in the cattle business that is hard to put a price tag on. At 13 years of age, to still raise a heifer calf of this caliber and quality is not something to take lightly. DK Miss Resource N243 has longevity in her blood. Black hided, red gene carrying heifer.
