

Simply Fun Childcare April 2022 - Newsletter

Our theme this month is:

Spring is Here!

Spring has sprung and we can tell! As the weather gets warmer, we are so excited to take our babies on walks outside to enjoy the sunshine! We have tons of fun things for this month that the children will be doing!

Closure Date:

Friday (April 15) – Monday (April 18)

Re-opening Date:

Tuesday (April 19)

- [April Fool's Day](#) – April 1, 2022.
- [Good Friday \(statutory holiday\)](#) – April 15, 2022.
- [Earth Day](#) – April 22, 2022.
- [Greater Victoria Performing Arts Festival](#) – early April to mid-May.

GREATER VICTORIA
PERFORMING ARTS
FESTIVAL

- [TC 10K](#) – Victoria's largest running race (in late April).

Head Lice Policy: Head lice are common in BC communities. Although they are a bother, head lice are not a health risk. As per Island Health Authority's recommendation, if your child has a confirmed case of head lice, they are still welcome in Recreation Oak Bay's programs. All families in the camp will be notified that there has been a case of head lice and families will be given an information sheet on how to treat head lice and preventative measures for the future. Please contact the camp supervisor if you need more information or visit the Island Health website.

Here are some suggestions for TREATMENT (cited from Island Health)

1. With the conditioner still on, pull the comb through the hair in one stroke from the front to the back of the head. Keep the teeth in contact with the scalp for the entire stroke.
2. After each stroke, rinse the comb in warm water. Check the comb for lice before you pull it through the hair again to make sure you do not put lice back onto the head.
3. Keep combing over the entire head until you find no more lice.
4. Rinse the hair to remove conditioner. Leave the hair wet. Untangle the hair with a wide-tooth comb to take out the knots.
5. Comb the whole head again with a lice comb, rinsing the comb after each stroke to make sure there are no more lice.
6. Keep repeating the steps every 4 days for a full two weeks to make sure that new lice are removed as the eggs hatch. If lice are found on the fourth combing, add one more combing in 4 days.
