

Quinton DesFountain Horsemanship Clinic

Hosted by Wildwood Farm
August 14-16th, 2026

WATCH WHAT HAPPENS WHEN TRUE HORSEMANSHIP MEETS TRUE UNDERSTANDING

Born and raised in Bothaville, South Africa, Quinton carries a lifetime of quiet observation and hands-on experience with horses who don't always fit the mold. His gift isn't force or technique- it's intuition. He reads the smallest shifts in expression, the stories behind a horse's worry, and the moment when trust and willingness are offered.

Over the years he has built a reputation for helping the misunderstood, anxious or "Hard-to-reach" horse and help them find their footing again. His approach is calm, patient, and deeply rational -a way of working that invites the horse to soften rather than submit.

Whether he's supporting a troubled horse, or guiding a rider toward clearer communications, his focus is always the same:

Connect First. Progress Second. Partnership Always.

Quinton has worked with a wide variety of horse breeds - from Saddlebreds and Arabians to Andalusians and Warmbloods- and has helped so many riders discover new ways forward in their relationship with their horse. Whether you're needing help with the roadmap to start your young horse, have a horse who is shut down or needs some "untraining", or you are looking for practical tools to elevate everyday work for your performance horse, this is the clinic for you!

RESERVE YOUR SPOT NOW!
