

Specifications

Max PSI:	60
Max GPM:	7.0
Power Supply:	12V
Max Amps:	23.0
Self-Priming:	Yes (Up to 12')
Ports:	½" FPT
Max Fluid Temp:	140 Deg F
Weight:	9.5 lbs Dry

Features

- Polypropylene pump housing and valve plate for longevity and chemical resistance
- Viton® valves - Santoprene® diaphragm for increased durability and efficiency
- Honeywell™ micro switch
- Approved for use with Round-Up® and other agricultural brand herbicides
- Zinc plated steel fasteners
- Inline fuse protection
- Automatic shut off when no flow is required, conserving battery life - Glyphosate compatible
- Standard mounting pattern to fit most tanks
- CE approved
