WITH CHARACTER

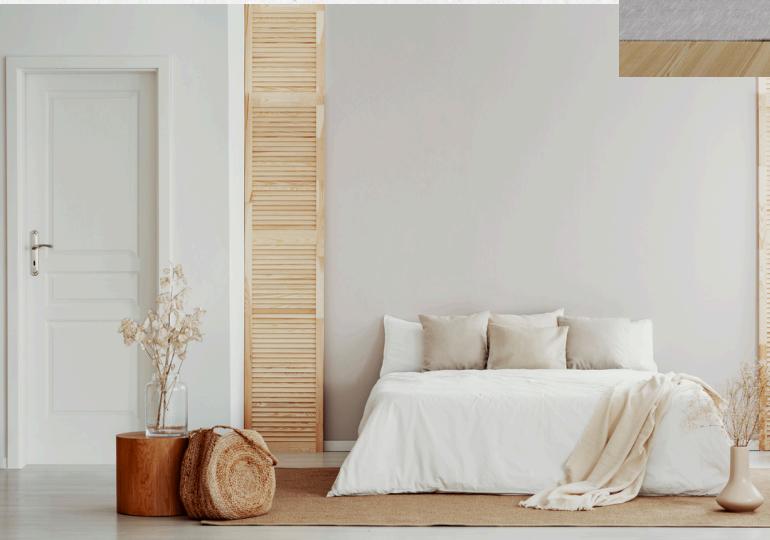

LACQUERED PANEL DOORS

## LACQUERED PANEL DOORS

A perfect combination of modern design and high-quality workmanship. In our collections, they most often appear in the colour of timeless white, which makes them a great means to enlarge the interior optically. The minimalism of decorations gives them an elegant character. The surface of the leaves finished with lacquer is perfectly smooth. The doors are easy to clean and maintain. They are also distinguished by high durability and resistance to damage, which makes them a good investment for year

You will find simple colors in lacquered doors with a minimalist design. Thanks to them, you will emphasize the elegant and subdued character of your flat.

Lacquered doors will harmonize beautifully with even the craziest palette of colours, while introducing balance in the interior design.

# LINIKA
