

Prowin Cargo Logistics Inc.

Content Overview

1

Our Company: Prowin Cargo Logistics Inc.

Background

Prowin Cargo Logistics, Inc. was established by Paul Li (Xibo Li), who has over 15 years of experience in the logistics industry.

We cooperate with trustworthy warehouses and trucking services in various locations all across the United States.

Mission

Our mission is to fulfill customers' needs while remaining **reliable, professional, and prompt.**

Despite being a new and upcoming company, **the quality of our service is our top priority.**

We attach great importance to the individual needs of each customer and we hope our professional operation and quality service can effectively contribute to current and future collaborations.

Our Services

Focusing on the import and export of LCL/ FCL by sea and by air, our main business services include providing customers with:

Warehousing services
such as storage,
segregation, labeling,
and delivery

Integrated transportation
services such as door-to-
door, door-to-port, and
port-to-port transportation,
and inbound shipments

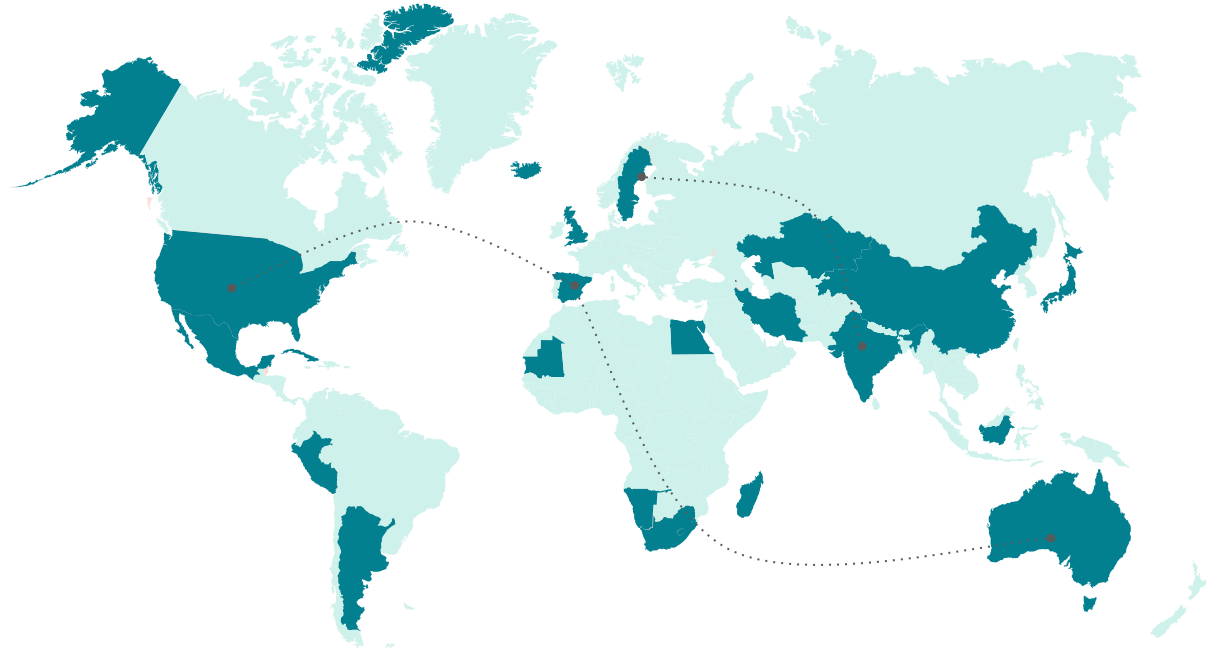

Solutions and
consultations involving
logistics resources, tariff
rates, and customs
clearance procedures

3

Imports and Exports

Prowin Cargo is a licensed NVOCC and also has a freight forwarder bond, ensuring that we can be directly contracted by shipping companies. We operate on the AMS system known as Trade Tech and through this platform, our agents can help customers declare AMS numbers early on in the shipping process, which may be more convenient or profitable.

3

Imports and Exports: Air

- > To ensure that everything goes smoothly, we change our handling process accordingly, which may include modifying delivery times, dealing with customs declarations and clearance – **all prior to the arrival of the shipped goods.**
- > Our trucks are **readily available** and schedules can be changed in order to meet deadlines and deliver packages on time to our valued customers.
- > Even in cases where items in transit need to be redistributed, repackaged or shipped through UPS to inconvenient locations, we will **adapt as necessary.**

3

Imports and Exports: Sea

- > While the shipping time needed for sea imports may be relatively long compared to air imports, the pricing is **cheaper than that of air imports**.
- > We can handle **ordering, ISF and AMS declarations, delivery inspections, and intermediary exports** to other countries.
- > We strive to be **detail-oriented and reliable**, informing customers on every step of the shipping process. Should any problems arise, we will remain in **constant communication** with customers and work to resolve inconveniences.

4 Our Team

Although our team may be small, we are experienced in importing and exporting – shipping through various transportation methods. We strive to support all the individual needs of each customer and emphasize the success that good collaboration can bring.
