

How to setup a computer for REMOTE session with **Texas Computer Scout**.

If your computer has internet access open any browser and type in this phase:

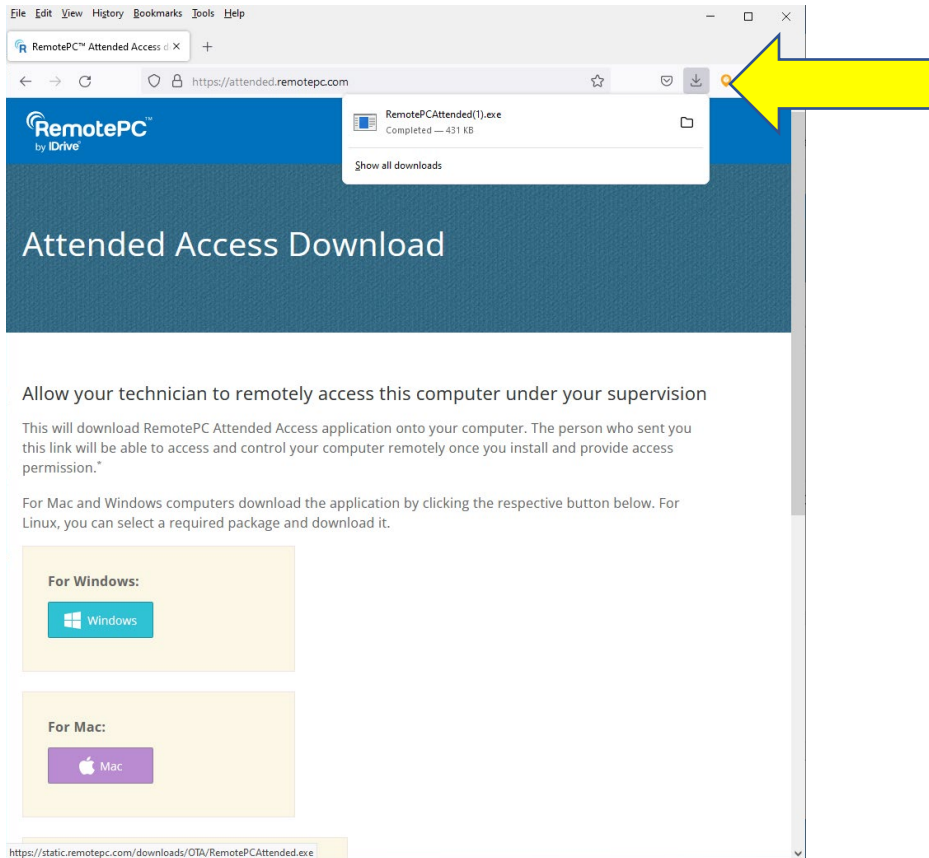

attended.remotepc.com

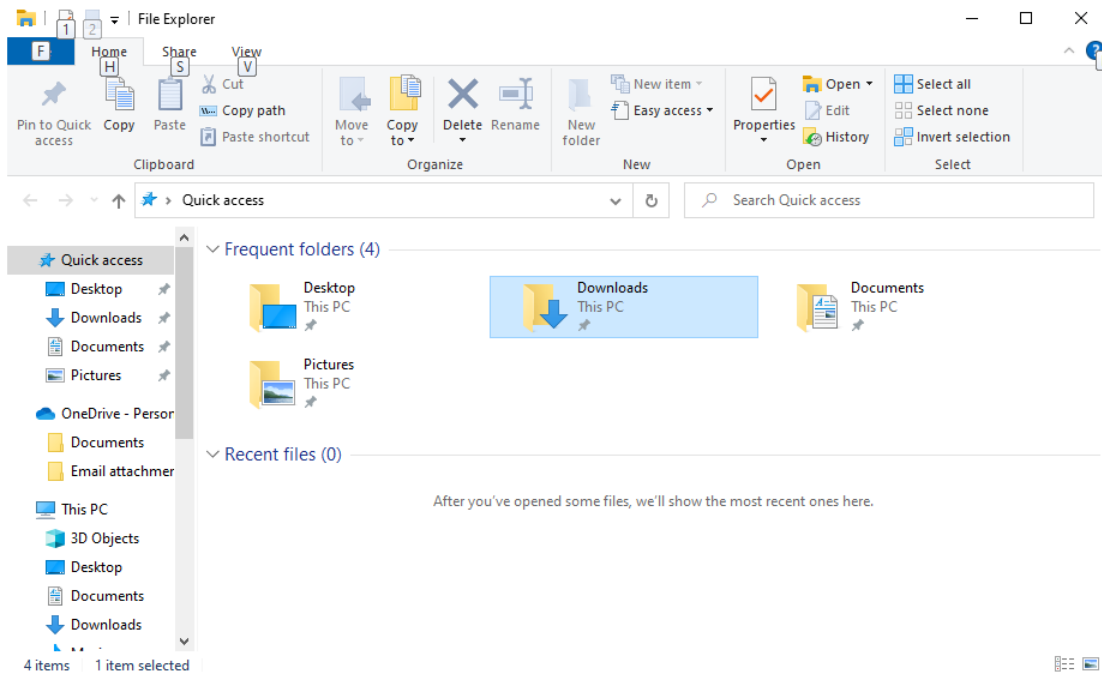

PRESS the **ENTER** key to see this screen

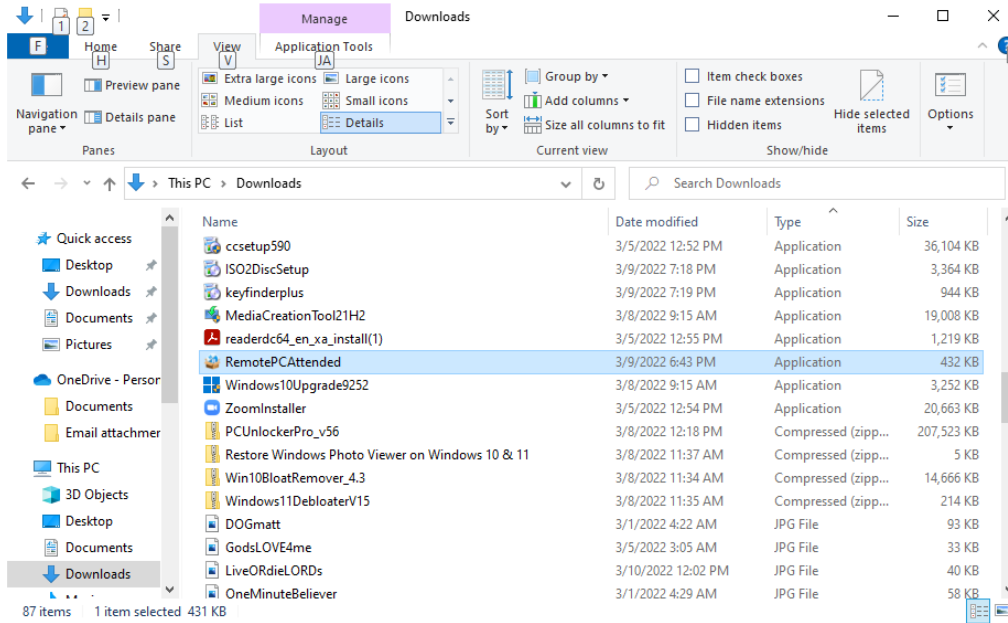

Select either Windows or Mac (Apple) Operating System by highlighting ICON and LEFT-Click with mouse. This will download a small file to run software to connect.

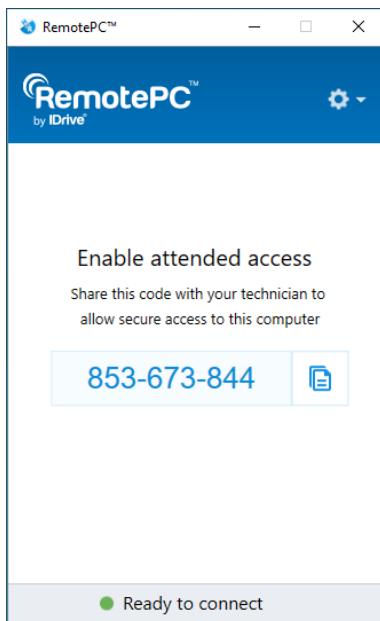

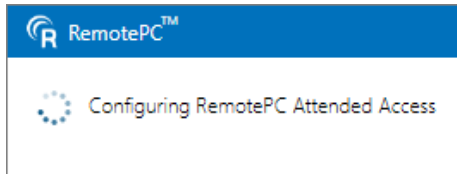

Downloads are in the top right corner of browser and will be on your hard drive in the DOWNLOAD Folder.

Highlight and LEFT-Click on Download Folder.

Highlight File **RemotePCAttended.exe** and **Double-Click** with left mouse button to start the installation of software. Answer **YES** when screen shows – ***Do you want to allow this app to make changes to your device?***

9-digit access code for one-time session.

CALL 214-558-1365 and ask for REMOTE SESSION!
