JeffEPop.com

Here is how our fundraiser works.

I split 50/50 AFTER expenses (usually works out to 42-43% for the group, but please don't hold me to that)

The group decides what flavors they want to sell. Most popular so far have been, Cheese/Caramel Mix, Dill Pickle, Birthday Cake, Caramel Corn, White Cheddar, Cheddar, Movie Theater* and Kettle Corn*. But you can decide what flavors you want to offer.

The bags of popcorn holds approx. 12 cups of popcorn and sell for \$15 *The kettle corn & Movie Theater sells for \$10 and holds approximately 27 cups.

We also do cinnamon roasted nuts. Cashews, almonds and pecans. These are \$6, for approx. 4 oz.

The group goes out, takes orders and collects money. Any checks need to be made out to your group, then the group cashes and brings me my cut in cash the day of the popping.

We set a date to pop and the people in charge will come to my house in Falcon Ridge in Altoona to pick up the the corn to bag and give me my cut of the \$. . I like to have a week or so at end of sales period before we pop to make sure I have ample supplies (I usually do, but I just like to make sure)

I will have number of bags, with labels, for you to put on along with flavor labels

I have the corn in bulk 5 gallon bags. There is approx. 6 bags in 1 bulk bag. Then your group will label the bags, bag the corn and/or nuts and deliver to your customers.

Feel free to call or text the number above if further questions.

Thank you!
