DESCRIPTIONS OF USED MACHINERY CONDITION

AS IS:

The machine is purchased “As is”, where it sits. The machine functionality and operating condition is usually unknown, nothing is implied or warranted.

CLEANED & CHECKED:

The machine is cleaned, powered up, and checked for functionality and operation. Parts found to impair the machine’s working condition and/or functionality are repaired and/or replaced. Consultation of the overall condition of the machine and its working parts are disclosed accordingly.

RECONDITIONED:

The machine is cleaned, powered up, inspected, and checked for use in operation. Parts that are worn and/or broken that impair the functionality of the machine will be replaced. The machine will be cleaned and repainted or “touched-up”. Reconditioned machines are warranted for one month from delivery of the machine.

PARTS MACHINE:

The “Parts Machine” is where one to several parts are missing that is typically impracticable to fix/repair. The machine is offered “As is, where it sits”.
