Current Efforts

As of 10/31/26

It has come to our attention that others have also been posting on Facebook and Nextdoor as well as reaching out to different rescues too.

This is really great that we can come together as a community to help these sweet animals get TNR'd and hopefully adopted.

As of today, 10 cats/kittens have been fixed. We are working to fix the remaining cats in the area

If you are also trying to TNR or adopt the these cats and kittens, please reach out by text **(954) 787-8631** so that we can better coordinate and not overlap
