

WHY PROVIDERS SHOULD JOIN PRECISION HEALTH

In today's healthcare environment, providers are being asked to do more with less and manage complex patient needs, navigate evolving reimbursement models, and remain compliant with ever-changing regulations. That's where Precision (<https://myhealthrecordspcp.com/>) steps in.

Precision empowers providers to maintain their independence while gaining access to the full infrastructure required to deliver reimbursable, high-impact care at scale. Whether you're an individual practitioner, part of a medical group, or expanding your services through remote or pharmacy-based care, Precision offers a streamlined path to success.

By joining Precision, providers receive the freedom to focus on clinical care while we handle the operational, billing, and compliance complexities. From Medicare Part B billing to commercial payer programs, our platform enables you to offer services like telehealth, Remote Monitoring (RPM/RTM), Chronic Care Management (CCM), Continuous Glucose Monitoring (CGM), and incident-to procedures—all with confidence and support.

We provide a state-of-the-art technology platform for documentation, eligibility verification, care planning, and analytics—ensuring you remain audit-ready and aligned with payer expectations. Our team takes care of credentialing, benefit reassignment, and claims management so you can expand your practice without expanding your overhead.

Perhaps most importantly, Precision helps providers bridge gaps in care and succeed in value-based programs by connecting them to patients at critical points—such as pharmacies or underserved communities—where access to care is limited but engagement is high. You gain more than just billing capability; you gain a care delivery model that improves outcomes and positions your practice for long-term sustainability.

National Billing Provider

- Approved by CMS to bill Medicare Part B nationwide
- Serves as a centralized billing entity for incident-to, telehealth, and pharmacy-based services
- Expanding to bill commercial payers, Medicaid, and value-based care programs

Turnkey Reimbursement Infrastructure

- Manages all billing operations: claims, eligibility checks, clearinghouse submission, payment tracking
- Handles reassignment of benefits, payer link letters, and provider enrollment
- Offers direct billing for Medicare, commercial insurance plans, and managed care organizations

Multi-Program Enablement

- Telehealth visits
- Chronic Care Management (CCM)
- Remote Physiologic Monitoring (RPM)
- Remote Therapeutic Monitoring (RTM)
- Continuous Glucose Monitoring (CGM)
- Medical procedures and incident-to services
- Preventive services, screenings, behavioral health, and weight loss management

Provider Integration with the Independent Pharmacy Provider Network (IPPN)

- Precision serves as the initial collaborating provider network for the Independent Pharmacy Provider Network (IPPN)
- IPPN connects licensed providers with independent pharmacies offering clinical services
- Enables providers to supervise and bill for care delivered through pharmacies (e.g., vaccines, screenings, CCM/RPM/RTM)
- Expands access to patients at the community level through pharmacy engagement
- Technology, Compliance & Marketplace Access
- Custom platform for secure documentation, compliance tracking, and billing
- Infrastructure supporting CMS and commercial payer requirements

PRECISION OFFERS MANY BENEFITS TO PROVIDERS:

Medicare & Commercial Billing	Immediate ability to bill for Part B and commercial payers across the U.S.
New Revenue Streams	Reimbursable services like CCM, RPM, RTM, CGM, and pharmacy-based incident-to care
Turnkey Infrastructure	Precision handles all billing, credentialing, and payer administration
Referral Access	Collaborate with IPPN pharmacies to receive new patient referrals
Attribution Opportunities	Gain attributed patients who lack a primary care provider
Value-Based Participation	Engage in population health, shared savings, and quality reporting programs
Low Overhead	Expand without adding staff, office space, or additional technology platforms
Full Support	Onboarding, training, compliance assistance, and billing management included

A growing network of independent pharmacies offering clinical services in their communities

- A turnkey model for incident-to billing, where providers supervise care delivered by pharmacists
- Opportunities to reach underserved patients who visit pharmacies but don't have a regular physician
- Revenue from services already being performed but not previously billed
- The ability to build a local or multi-state presence without needing physical office expansion
- Real-time collaboration tools, care plan visibility, and reporting dashboards
- Providers retain their autonomy but gain a scalable infrastructure to see more patients, earn more revenue, and support care in the community.
