

Heat Stress Readiness: Risk Management in the Shadow of OSHA’s HIIP Rule

Date: Thursday June 26, 2025 at 2:00pm ET - 1:00pm CT - 11:00am PT

As summer heat intensifies, safety leaders must be ready to act—even while federal regulations remain uncertain. While OSHA’s proposed “Heat Injury and Illness Prevention in Outdoor and Indoor Work Settings” (HIIP) rule continues to move forward with delays, many HSE professionals face the here-and-now challenge of protecting workers presently while preparing for what OSHA has in store. In this timely webinar, expert Reyka “RJ” Ravenwood will offer strategic guidance on building and implementing effective heat stress programs that align with current expectations and prepare your teams for eventual regulatory change.

Drawing on fresh updates from OSHA contacts and real-world safety leadership experience, our presenter will explore what the HIIP rule means for employers; how industrial hygiene and recordkeeping factor into indoor heat risks; and what proactive steps can ensure safety and compliance—regardless of whether a formal rule is finalized. Attendees will come away with tools to engage leadership, equip field supervisors, and drive meaningful program adoption.

Attendees will learn more about:

- Key components of OSHA’s HIIP proposal and its current status, including the upcoming public hearing and Regional Emphasis Programs (REPs)
- How to design scalable, cost-conscious heat illness prevention strategies that win stakeholder buy-in
- Practical tips for integrating administrative controls, training, and recordkeeping into existing safety programs
- How any HSE professionals can use this material to assess or enhance their own heat stress standards, and be ready for the rule, regardless of OSHA’s timing

Speaker:

Reyka “RJ” Ravenwood RavenSHIELD Solutions

Reyka "RJ" Ravenwood is the founder of RavenSHIELD Solutions and a nationally recognized Consultant, Instructor/Trainer and Coach specializing in HR, HSE and QRC. With 20+ years of cross-industry experience—from Oil & Gas to Healthcare—she delivers powerful, practical insights for organizations, leaders, teams and the field in navigating today’s toughest workforce and regulatory challenges. Known for her clarity, credibility, and real-world solutions, she equips audiences to lead with confidence, resilience, and operational excellence.

Here is the AGENDA for this webinar:

2:00PM ET / 1:00PM CT / 11:00AM PT
Heat Stress Readiness: Risk Management in the Shadow of OSHA’s HIIP Rule

3:00PM ET / 2:00PM CT / 12:00 PT
Hottest Third-Party Solutions from:
