SERVICE EXPERTISE

Onshore Tank Calibration:

- Independent storage facilities
- Small distribution depots
- Large fuel terminals
- Oil refineries

2 and 3 person teams for safety.

Stenciling and Reference Point Indications.

CALIBRATION CAPABILITY

Oil storage and refinery tanks:

- Vertical
- Cylindrical
- Fixed Roof
- Up to 1080 barrels
- Conducted to the exacting requirements of API

REPORTING

In house custom charts.

Minimal processing time.

Highly accurate calibration data with all deadwood accounted for.

Hazard Recognition Award

Measurement Services LLC

Belfield, North Dakota

For Outstanding Service to Safety
2018

Perfect Record Award

Measurement Services LLC
Belfield, North Dakota

For operating 21,417 employee hours without occupational injury or illness involving days away from work.
January 1, 2017 – January 1, 2018
