

# BAMBI PAPER

Community driven meme project with Huge Potential

# BAMBI

## Abstract:

The Bambi Meme Token is a revolutionary cryptocurrency designed to leverage the power of memes and blockchain technologies to provide a unique and entertaining opportunity for meme enthusiasts and cryptocurrency amateurs alike. This white paper outlines the key features, functionalities, and potential applications of the Bambi Meme Token, as well as its tokenomics.

REMEMBER, cryptocurrencies and meme tokens are for recreational purposes. Prices are volatile and tied to offers and demand. Bambi is not an investment and was created as a meme parody token. It has no intrinsic value or expectations of financial return. We make no promises and are not responsible for any losses or errors, use at your own risk.

**Let's talk  
about Bambi**

2023

## 1 Introduction

- 1.1 Background
- 1.2 Purpose of the White Paper
- 1.3 Target Audience

## 2 Overview of Bambi Token

- 2.1 What is Bambi Meme Token?
- 2.2 Key Features and Benefits
- 2.3 Token Symbol and Ticker
- 2.4 Token Distribution

## 3 Technology

- 3.1 Blockchain and Smart Contracts
- 3.2 Token Standards
- 3.3 Decentralized Finance (DeFi) Integration

## 4 Tokenomics

- 4.1 Token Supply
- 4.2 Token Allocation
- 4.3 Tax Mechanism
- 4.4 Token Utility, Use Cases and Governance

## 5 Roadmap and Development Plans

- 5.1 Initial Development Phase
- 5.2 Future Enhancements and Upgrades
- 5.3 Community Involvement and Feedback

## 6 Use Cases and Applications

- 6.1 Meme Creation and Sharing
- 6.2 Community Engagement and Rewards
- 6.3 NFT Integration and Marketplace
- 6.4 Partnerships and Collaborations

## 7 Security and Risk Considerations

- 7.1 Audits and Security Measures
- 7.2 Risk Factors and Mitigation Strategies

## 8 Conclusion

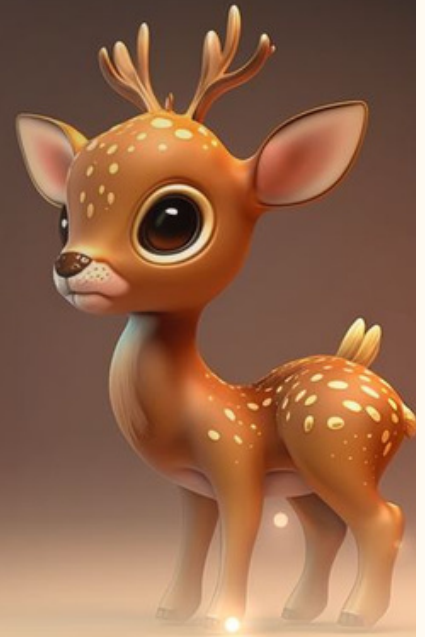

- 8.1 Summary of Key Points
- 8.2 Vision for the Future

# BAMBI TOKEN

FOR THE PEOPLE AND BY THE PEOPLE

Join Our Telegram Group to get more info!

## 1 Introduction:

### 1.1 Background:

In recent years, the popularity of cryptocurrencies and meme culture has surged. Meme-based tokens have gained significant attention, offering a unique blend of entertainment and has providing opportunities for millions of people.

### 1.2 Purpose of the White Paper:

The purpose of this white paper is to provide a comprehensive understanding of the Bambi Meme Token, including its features, functionality, and potential applications. It aims to educate potential cryptocurrency enthusiasts, and meme lovers about the token and its proposition.

### 1.3 Target Audience:

The target audience for this white paper includes individuals interested in cryptocurrency, meme enthusiasts and those looking for a novel and entertaining blockchain-based opportunity.

**Let's talk  
about Bambi**

2023

## 2. Overview of Bambi Meme Token

### 2.1 What is Bambi Meme Token?

The team from Bansclaw, a new crypto development company that created Launchcore, a multichain launchpad wanted to battle test their launchpad. So they decided to take the opportunity to create the best Win Win situation ever by creating Bambi Token.

So now Bambi is coming out to play and is going to be a Token “for the people, by the people”.

### 2.2 Key Features and Benefits:

Bambi's purpose will be to serve as the testing grounds for the applications and utilities created by Bansclaw for projects and crypto infrastructure: Staking, burn tracker, bridge and more advanced utilities that will create real value for Bambi and showcase the development possible with Bansclaw and the utilities available to projects launching on the Launchcore launchpad.

### 2.3 Token Symbol and Ticker:

The Bambi Meme Token is represented by a unique symbol and ticker that embodies the essence of the token and resonates with meme culture. Examples could include an animal icon, meme-related symbol, or a combination that reflects the project's identity.

**SYMBOL**

**TICKER**

## 2.4 Token distribution

30% of the supply was reserved to be airdropped to the Bitgert community, divided as it follows:

10% to Bronze Launchcore NFT owners

20% to Launchcore NFT owners ( 10% diamond, 7% gold, 3% silver)

The tokens will be airdropped in the reward page of the launchcore dapp in 20% increments after the launch. To discourage a liquidation of the free tokens given to the holders of the NFT the given

The remaining tokens will be used for:

20% on public presale

30% to liquidity

10% to development

10% for future listings

The total supply is set to 1 Billion BAMBI tokens

## 3. Technology:

### 3.1 Blockchain and Smart Contracts:

The Bambi Meme Token leverages blockchain technology, ensuring transparency, immutability, and security. Smart contracts are utilized to execute token transactions, enforce rules, and enable features such as staking and governance.

### 3.2 Token Standards:

The Bambi Meme Token adheres to established token standards such as ERC-20 (Ethereum) or BEP-20 (Binance Smart Chain). These standards ensure compatibility with various wallets, exchanges, and other platforms, allowing for seamless integration and wider accessibility

### 3.3 Decentralized Finance (DeFi) Integration:

The Bambi Meme Token incorporates decentralized finance protocols to enhance its utility and value. This may include the integration of liquidity pools, yield farming, or other DeFi mechanisms, providing additional opportunities for users.

## 4.Tokenomics:

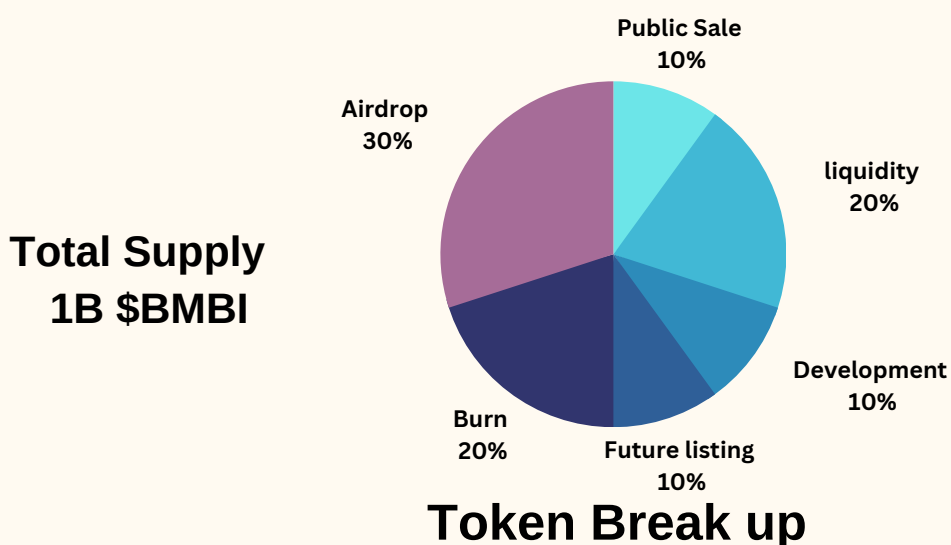

The tokenomics of the Bambi Meme Token are carefully designed to support the project's growth, incentivize community participation, and maintain a healthy token ecosystem. Here is an overview of the tokenomics

### 4.1 Total Supply:

The Bambi Meme Token has a fixed total supply of 1 billion tokens

### 4.2 Token Allocations

1. **Public Sale:** 10% of the total token supply, equivalent to 100 million tokens, will be allocated for a public sale on Brise chain. This portion will be made available to the public, allowing individuals and investors to acquire Bambi Meme Tokens.
2. **Liquidity:** 20% of the total token supply, equivalent to 200 million tokens, will be dedicated to liquidity. This allocation ensures there is sufficient liquidity in the market, enabling smooth trading and providing stability to the token's value.
3. **Development:** 10% of the total token supply, equivalent to 100 million tokens, will be allocated for development purposes. These tokens will be used to fund ongoing project development, including technological advancements, platform improvements, and ecosystem expansion.
4. **Future Listing:** 10% of the total token supply, equivalent to 100 million tokens, will be reserved for future listings. These tokens will be utilized to facilitate listings on additional exchanges, enhancing the token's accessibility and visibility in the market.
5. **Token Burn:** 20% of the total token supply, equivalent to 200 million tokens, will be burned. The token burn mechanism permanently removes these tokens from circulation, reducing the total supply and potentially increasing the value of the remaining tokens over time.
6. **Airdrop:** a maximum of 30% of the total token supply, equivalent to 300 million tokens, will be allocated for an airdrop. This ensures that community members and early adopters have the opportunity to receive tokens and actively participate in the project. The tokens not allocated will be burned on June 1st 2023

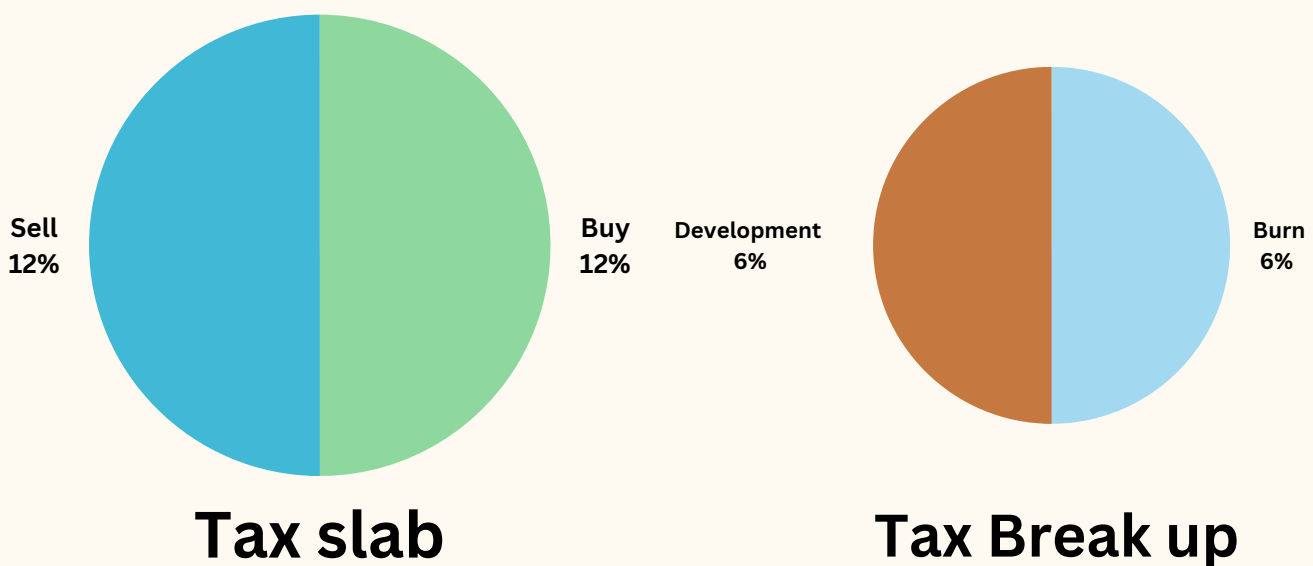

### 4.3 Tax Mechanism

1. Tax on Buy and Sell: A 12% tax will be applied to each buy and sell transaction of Bambi Meme Tokens. The tax will be split as follows:

- 6% Burn: 6% of the transaction amount will be burned, effectively reducing the token supply and promoting scarcity, potentially increasing the token's value over time.
- 6% Development: The remaining 6% of the transaction amount will be allocated to development initiatives. These funds will be utilized to support ongoing project development, marketing efforts, partnerships, and other activities aimed at enhancing the Bambi Meme Token ecosystem.

The tokenomics of the Bambi Meme Token aim to create a sustainable and thriving ecosystem. The allocation of tokens for public sale, liquidity, development, future listing, token burn, and airdrop ensures a fair distribution, liquidity provision, and resources for continuous development. The tax mechanism incentivizes token holders to hold and participate in the project's growth, contributing to the long-term value and success of the Bambi Meme Token.

## 4.4 Token Utility, Use Cases and governance

The Bambi Meme Token aims to provide various utility and use cases within its ecosystem. We are focusing on developing three key features: a Burn Portal, a Charity Platform, and DAO (Decentralized Autonomous Organization) Voting.

- **Burn Portal:**

The Burn Portal is a unique feature designed to enhance the tokenomics of the Bambi Meme Token. It provides a mechanism for users to voluntarily burn their tokens, effectively removing them from circulation. By burning tokens, users contribute to reducing the total supply, which can increase the scarcity and potential value of the remaining tokens. The Burn Portal acts as a deflationary measure, promoting long-term holding and potentially benefiting all token holders.

**Example:** Users can access the Burn Portal through our platform, where they will be able to initiate token burns by sending their Bambi Meme Tokens to a specific burn address. The burn process will be transparent and auditable, ensuring the integrity and accountability of the token burning mechanism.

- **Charity Platform:**

We believe in the power of giving back to the community and supporting charitable causes. The Bambi Meme Token will feature a dedicated Charity Platform that enables users to donate their tokens to charitable organizations and initiatives. This platform will provide transparency and accountability, ensuring that donations reach their intended recipients and making a positive impact in the real world.

**Example:** Users can choose from a list of vetted charitable organizations or initiatives available on our platform. They can donate a portion of their Bambi Meme Tokens directly to these causes, supporting a wide range of social, environmental, or humanitarian efforts. The Charity Platform will showcase the impact of these donations, fostering a sense of community and shared responsibility.

- **DAO Voting:**

To ensure community governance and decision-making, the Bambi Meme Token will implement a DAO (Decentralized Autonomous Organization) framework. Token holders will have the opportunity to participate in important decision-making processes by voting on key proposals and initiatives. This democratic approach empowers the community and allows them to shape the future of the Bambi Meme Token ecosystem.

**Example:** Through our platform, token holders can actively engage in DAO Voting by submitting and voting on proposals related to platform enhancements, partnerships, community initiatives, or any other aspects deemed important for the project's growth. This voting mechanism will be transparent, secure, and decentralized, ensuring that the collective voice of the community is heard and respected.

By implementing these features, the Bambi Meme Token creates additional utility and value for its users. The Burn Portal and tax promote scarcity and potential token value appreciation, the Charity Platform encourages philanthropy and community engagement, and the DAO Voting empowers the community to actively participate in shaping the project's future. These use cases contribute to a vibrant and inclusive ecosystem, where users can not only enjoy the fun and creative aspects of memes but also make a positive impact and have a say in the project's direction.

## **5. Roadmap and Development Plans:**

### **5.1 Initial Development Phase:**

During the initial development phase, the Bambi Meme Token team will focus on key milestones and deliverables to establish a solid foundation for the project. This may include:

- Designing and deploying the smart contracts on the chosen blockchain platform (e.g., Ethereum or Binance Smart Chain).
- Developing a user-friendly and intuitive meme creation and sharing platform, allowing users to easily create, share, and interact with memes.
- Implementing the necessary infrastructure for secure and efficient transactions, including wallet integration and decentralized exchange listings.
- Conducting thorough testing and audits to ensure the security and stability of the platform and smart contracts.

### **5.2 Future Enhancements and Upgrades:**

To foster continuous growth and innovation, the Bambi Meme Token team will outline future enhancements and upgrades. These may include:

- Expanding the meme creation platform with advanced features, such as meme templates, editing tools, and filters.
- Introducing gamification elements to enhance user engagement, such as meme contests, challenges, and voting mechanisms.
- Exploring the integration of artificial intelligence (AI) algorithms to improve meme recommendation systems and enhance user experience.

Introducing cross-chain compatibility to enable seamless interaction with other blockchain networks, allowing users to bridge assets and participate in a broader ecosystem

### 5.3 Community Involvement and Feedback:

The Bambi Meme Token project values community participation and feedback. The team will establish channels for open communication and actively engage with the community. This may include:

- Hosting regular AMA (Ask Me Anything) sessions to address community questions, concerns, and suggestions.
- Creating a dedicated community forum or social media channels to foster discussions and gather feedback on platform improvements and new features.
- Launching community-driven initiatives, such as meme creation challenges or community voting for new feature implementations.

## 6. Use Cases and Applications:

### 6.1 Meme Creation and Sharing:

The Bambi Meme Token will provide a platform where users can create, customize, and share memes with the community. The platform may offer a wide range of meme templates, editing tools, and sharing options to facilitate meme creation and viral content generation.

### 6.2 Community Engagement and Rewards:

The Bambi Meme Token aims to incentivize community engagement by offering rewards to active participants. Examples of such rewards include:

- Token incentives for users who create high-quality memes or generate viral content.
- Staking mechanisms that allow users to earn additional tokens by holding their Bambi Meme Tokens for a specific period.
- Participation in governance processes, where token holders can contribute to decision-making and vote on proposals.

### 6.3 NFT Integration and Marketplace:

The Bambi Meme Token may integrate Non-Fungible Tokens (NFTs) into its ecosystem. Users can create and tokenize unique meme-inspired NFTs, which can be bought, sold, or traded on a dedicated marketplace. This integration provides additional opportunities for meme creators and collectors.

### 6.4 Partnerships and Collaborations:

The Bambi Meme Token project will actively seek partnerships and collaborations with relevant entities in the meme and cryptocurrency space. This may involve collaborating with popular meme pages, influencers, or other meme-related platforms to foster a broader reach and increase user adoption.

## 7. Security and Risk Considerations:

### 7.1 Audits and Security Measures:

To ensure the security of the Bambi Meme Token ecosystem, the project will conduct rigorous audits of its smart contracts and infrastructure. The team will collaborate with reputable auditing firms to identify and mitigate potential vulnerabilities or security risks.

### 7.2 Risk Factors and Mitigation Strategies:

The white paper should outline potential risks associated with the Bambi Meme Token project, such as regulatory uncertainties, market volatility, or technological vulnerabilities. Mitigation strategies should be proposed to address these risks

## 8. Conclusion

### 8.1 Summary of Key Points:

In summary, the Bambi Meme Token white paper has outlined the exciting potential of our project, showcasing how we aim to revolutionize the intersection of memes and cryptocurrency. Here are the key points we have covered:

First, we introduced the Bambi Meme Token, a digital currency designed to harness the viral power of memes and provide a platform for meme creators and investors to engage and potentially monetize their creations. With a total token supply of 1 billion, we have carefully allocated percentages for burning, cross-chain deployment, and airdrops, ensuring a balanced and inclusive distribution.

Next, our roadmap and development plans demonstrate our commitment to building a robust foundation and driving continuous innovation. During the initial development phase, we will focus on designing secure smart contracts, developing an intuitive meme creation and sharing platform, and establishing infrastructure for seamless transactions. Looking ahead, we have exciting enhancements in mind, such as meme contests and challenges, personalized meme recommendation systems powered by AI, and cross-chain compatibility to unlock new possibilities.

We strongly believe in the power of community, which is why we prioritize community involvement and feedback. Through regular AMA sessions, dedicated forums, and community-driven initiatives like meme creation challenges, we aim to foster an engaged and vibrant community that actively contributes to the growth and evolution of the Bambi Meme Token ecosystem.

Our project's use cases and applications are diverse and exciting. Users can unleash their creativity through meme creation and sharing, while also earning rewards for their contributions. We envision the integration of NFTs, allowing users to tokenize and trade unique meme-inspired assets on a dedicated marketplace. Additionally, we are eager to explore partnerships and collaborations with established meme pages, influencers, and other meme-related platforms to expand our reach and create synergistic opportunities.

Regarding security and risk considerations, we place utmost importance on the safety of our ecosystem. Regular audits, stringent security measures, and risk mitigation strategies will be implemented to ensure the protection of our users' assets and data.

## **8.2 Vision for the Future:**

Looking ahead, our vision for the future of the Bambi Meme Token is bold and ambitious. We strive to become the leading platform that seamlessly combines entertainment, creativity, and financial opportunities within the meme and cryptocurrency space.

We envision a thriving community of meme enthusiasts who can freely express their creativity, share viral content, and connect with like-minded individuals. Our platform will continuously evolve with advanced features, cutting-edge tools, and engaging initiatives to keep our community entertained and motivated.

Exploring new horizons, we plan to embrace emerging technologies such as artificial intelligence and decentralized finance to further enhance the user experience. With the integration of NFTs, users will have the opportunity to own and trade unique meme-inspired assets, unlocking new possibilities for monetization and collector culture.

Furthermore, we see ourselves forging strategic partnerships and collaborations with renowned meme pages, influential personalities, and meme-related platforms to expand our reach, attract more users, and create a network effect that propels the growth of the Bambi Meme Token ecosystem.

In conclusion, the Bambi Meme Token project is poised to disrupt the meme and cryptocurrency landscape, offering an exciting platform that bridges the worlds of humor, creativity, and financial opportunities. We are excited to embark on this journey with our community and look forward to a future where memes and cryptocurrency converge for the delight and benefit of all.
