May 20, 2018

All meetings at Arts on Main, 212 West Main Ave., Gastonia, NC, from 2-4 pm, except holiday party.

\*\*\*Please watch out for an important announcement about access to the Arts on Main Building for our meeting this coming Sunday. The announcement will be posted on the chat list later in the week.\*\*\*

- The following people are signed up for hospitality this Sunday:
- Food - Chris Dunlap and Dawn Brown
- Drinks - Dick Kistler
- Opportunity - Julia Roskamp
- Many thanks to all who provide a nice snack for our meetings!

## April's program: [Lace...In All It's Many Forms.](#)

This is a member led discussion and presentation about the many forms of handmade lace in the textile world. From woven lace to knitted lace to bobbin lace; all these forms and more will be presented and discussed. If you have special pieces you'd like to share and describe, please bring these along. The more samples we have to look at, the more interesting this discussion will be.

Remember, our May meeting is devoted to Board Elections and our Car Boot Fiber Sale. No formal program is planned.

Lastly, I will need to step down from this position after the May meeting. Please contact Gail Boyles([gboyles44@gmail.com](mailto:gboyles44@gmail.com)) or Sue Helmken ([barefootweaver@earthlink.net](mailto:barefootweaver@earthlink.net)) if you are interested in taking over this position.

## Guild Board Elections

It's time to get in your nominations for the 2018/2019 Piedmont Fiber Guild.

Sue Helmken and Gail Boyles are your contacts if you want to nominate yourself or another member who might be a good candidate for a position. We will be voting at May's meeting so it's important to let Sue or Gail know very soon. Please send your nomination information to either [gboyles44@gmail.com](mailto:gboyles44@gmail.com) or [barefootweaver@earthlink.net](mailto:barefootweaver@earthlink.net).

Being on the board is a great opportunity for a member to get to know the workings of the guild and be a part of helping shape the guild for the future. Many of the current board members started their board positions shortly after becoming active members.

All job descriptions are listed on the Yahoo Chat Group page or you can contact a current board member to see what their position entails. One really good thing about the board is that you get a lot of help from other board members.

Below are the current 2017/2018 positions - if you're interested in a position, please contact the current position holder and ask them about the duties. Some of these board members are stepping down - an update will be given at our April 15 meeting. We need to fill the open spaces by May's meeting.

**\*\*Just a reminder to check your Yahoo Chat Group emails this week. There may be a change in the way we enter and exit Arts on Main for our April meeting.**

*Did you know PFG has a spinning group? Carolina Handspinners meets the 2<sup>nd</sup> Tuesday of each month 2-4pm at Lowell Community Center, 501 West First St, Lowell, NC. We DO meet over the summer and see many folks who are employed in education and thus have the summer months off. Come join us and bring a fiber-interested friend!*

*Happy Spinning!*

*Christine Dunlap [chrismom98@gmail.com](mailto:chrismom98@gmail.com), Coordinator, Carolina Handspinners*

**Weaving Study Group**

The weaving study group met at the Blackburn's on March 28<sup>th</sup>. There were 15 weavers present including two new members – Vivian Brenner and Shirley Young,

The group is planning a weaving workshop in September. As it is a 2 ½ day workshop, Arts on Main appeared to be an appropriate location. However, because of the ongoing uncertainty about the Guild's continued presence there, we decided that we needed to consider alternative locations. The length of the workshop and the need to store our equipment overnight at the workshop location presents a problem. Rosalie Nast said that if it was not vital to have all the looms in one room, she would have sufficient space in her house for the workshop. It was agreed that we should look at her house to judge how we would fit in and then contact Teena Tuenge, the workshop leader, to discuss this proposal.

Alice Harrill was one of the month's designated weavers and she showed a Rep Weave towel that she had woven. To create a pattern in warped face Rep Weave alternate colored warp ends are required. Alice wanted to tie onto an existing warp and in addition use a space dyed already chained warp which she had. She used a layering technique

to add a contrasting color. She opened a tabby shed on the loom and held it open by inserting spare shuttles between the open shafts; she then tied the pre-dyed warp onto the upper layer of threads and the contrasting yarn onto the lower layer. She used 5/2 cotton yarn in the warp with three ends per dent in a 10 dent reed.

After running samples she settled on the thick weft being four ends of peach colored cotton (to match one of the warp layers) and a light green sewing thread for the thin weft. She remarked that with this sett, the shed was difficult to open cleanly and she had to use the side of a stick shuttle on which the thick weft was wound to fully open up the shed. She also used a dowel to open the thread after the thin weft which was wound on a boat shuttle.

Sue Helmken, the second designated weaver, showed several samples using multicolor warp yarns (10/2) and a variety of thick wefts. Her initial samples had a sett of 64 ends per inch (8 ends per dent in a 8 dent reed); re-sleying the warp she produced further samples with 48 and 32 ends per inch. These samples show the wide range of fabrics which could be produced with these variations. Sue confirmed that with these higher setts it was necessary to use an assist to obtain a clean open shed.

We had a general discussion about profile and block weaves. Sue said she had some classes scheduled and listed on her website (<https://barefootweaver.com/>).

Maurice showed a runner he had recently woven – an echo weave advancing twill as well as an overshot fabric he had taken off the loom at Rural Hill.

Nancy Neely showed a tea towel she had woven using 10/2 cotton in a honeycomb pattern.

The next meeting will be on May 23<sup>rd</sup> at Jeanne Smith’s house. The designated weavers are Carol Wertz, Kathy Marlow and myself.

As a follow up to the weavers study group meeting, here's some info on my drafting classes:

I'm offering two classes on **profile and block drafting** on

Dates: Saturday, April 14th or Wednesday, May 9th.

Hours: 10-2

Location: my studio at 530 Calabash Rd in Clover, SC

Cost: \$40, guild members \$35 (with 6 or more students I can adjust rates further)

For those who want a better understanding of **basic pattern drafting**, I have 2 classes:

Dates: Saturday, April 7th or Wednesday, May 2nd

Hours: 10-2

Location: my studio

Cost: \$40, guild members \$35, with adjustable rates as stated above.

No looms are needed for these classes. I'll have plenty of notes for you, and we'll do hands-on lessons on the computer. IF you have a program, please do bring your computer. Please let me know asap if you are interested so I can let everyone know the adjusted cost. As always, don't hesitate to contact me with any questions.

My goal with these classes is to give you a sound understanding of drafting so you can modify existing drafts and create your own patterns.

### Shearing Day at Awesome Alpacas, April 7<sup>th</sup>, 2018 by Chris Dunlap

While there were only 2 PFG members at this event, this Alpaca Shearing Day certainly lived up to the name of this gorgeous farm. In 8 hours, 1 shearer and his assistant, with the help of many extra hands helping with bagging fleeces and moving animals, sheared over 60 alpacas and 2 guard llamas. And gorgeous alpacas and fleeces certainly were plentiful. With very careful breeding choices, Joe and Lenell Porter have several award-winning animals and fleeces to their credit. They are breeding now for beautiful grey fleece as well as the finest of micron counts. Although it was rainy and cold, shearing day must go on and we put out samples and entertained visitors by spinning alpaca and weaving inkles. For a dreary, rainy day, we sure did have a fun fiber adventure!

### Weaving equipment for sale:

Chris has been contacted by a Joanne Halls who is selling items from her deceased mother's weaving studio. The daughter lives down toward Wilmington. If interested, please contact Ms. Halls directly ([hallsj@uncw.edu](mailto:hallsj@uncw.edu)). She sent this information:

**Inkle loom** (base 30" long), **warping board** (29x38 in), **bobbin winder** (all made by Schacht) and a **hand (frame) loom**.

**Schacht 45" 4 harness maple high castle loom** includes 10 treadles, 8 and 12 dent reeds, 800 wire heddles and accessories including a raddle, lease sticks, shuttles, lamp, 2 rolls corrugated cardboard, and many bobbins. Replacement value is \$2800 and willing to sell for \$1000. Must be willing to pick loom up.

I also have other accessories such as beaters, tapestry bobbin, hook, etc.

Also have many books, magazines and yarn. Will take pictures if you are interested.

*(Editor's note: I was unable to get the photos associated with this ad to load into the newsletter. There was also a discrepancy about the prices for the smaller items, so I did not include that information, preferring to let the seller give you the correct info.)*

### Fiber equipment for sale:

Shirley has been contacted by a friend of hers who has the following for sale:
